		• Risque d'Assurance. Des conditions macro-économiques et de marché difficiles pourraient dans le futur avoir un effet défavorable significatif sur les conditions dans lesquelles évoluent les établissements financiers et en conséquence sur la situation financière, les résultats et le coût du risque de BNPP. Des mesures législatives et réglementaires prises en réponse à la crise financière mondiale pourraient affecter sensiblement BNPP ainsi que l'environnement financier et économique dans lequel elle opère. L'accès au financement de BNPP et les conditions de ce financement pourraient être affectés de manière significative en cas de résurgence de la crise de la dette souveraine, de détérioration des conditions économiques, de nouvelles dégradations de notation ou d'autres facteurs. Toute augmentation substantielle des provisions ou tout engagement insuffisamment provisionné peut peser sur les résultats et la situation financière de BNPP. Les fluctuations de marché et la volatilité exposent BNPP au risque de pertes substantielles dans le cadre de ses activités de marché et d'investissement. Les revenus tirés par BNPP des activités de courtage et des activités générant des commissions sont potentiellement vulnérables à une baisse des marchés. Une baisse prolongée des marchés peut réduire la liquidité et rendre plus difficile la cession d'actifs. Une telle situation pourrait engendrer des pertes significatives. Toute variation significative des taux d'intérêt est susceptible de peser sur les revenus ou la rentabilité de BNPP. La solidité financière et le comportement des autres institutions financières et acteurs du marché pourraient avoir un effet défavorable sur BNPP. Tout préjudice porté à la réputation de BNPP pourrait nuire à sa compétitivité. Toute interruption ou défaillance des systèmes informatiques de BNPP peut entraîner un manque à gagner et engendrer des pertes. Des événements externes imprévus peuvent provoquer une interruption des activités de BNPP et entraîner des pertes

		substantielles ainsi que des coûts supplémentaires. BNPP est soumise à une réglementation importante et fluctuante dans les pays et régions où elle exerce ses activités notamment exposée dans l'avant dernier paragraphe de l'Elément B.12 du présent Résumé. Malgré les politiques, procédures et méthodes de gestion du risque mises en œuvre, BNPP peut être exposé à des risques non identifiés ou imprévus, susceptibles d'occasionner des pertes significatives. Les stratégies de couverture mises en place par BNPP n'écartent pas tout risque de perte. BNPP pourrait connaître des difficultés relatives à l'intégration des sociétés acquises et pourrait ne pas réaliser les bénéfices attendus de ses acquisitions. Une intensification de la concurrence, en particulier en France, premier marché de BNPP, pourrait peser sur les revenus et la rentabilité. <i>[Insérer si BNPP B.V. est l'Emetteur :</i> Les facteurs de risque suivants sont relatifs à BNPP B.V. : BNPP B.V. est une société opérationnelle. La seule activité de BNPP B.V. consiste à lever des capitaux et à emprunter des fonds via l'émission de titres, tels que des Obligations, Warrants, Certificats ou autres obligations. BNPP B.V. n'a pas, et n'aura pas, d'autres actifs que les contrats de couverture (contrats OTC mentionnés dans les Rapports Annuels), le numéraire et les commissions qui lui sont payées, ou tout autre actif qu'elle aurait acquis, en toute hypothèse en rapport avec l'émission de titres ou la conclusion de toute autre obligation y afférente à un moment donné. BNPP B.V. dispose d'un capital réduit et d'une base de profit limitée. Les produits nets résultant de chaque émission de Titres émis par l'Emetteur feront partie intégrante des fonds généraux de BNPP B.V. BNPP B.V. utilise ces produits en vue de couvrir son risque de marché en contractant des instruments de couverture auprès de BNP Paribas et des entités de BNP Paribas ("Contrats de Couverture") et/ou, dans le cas de Titres Assortis de Sûretés, en vue d'acquérir des Actifs Donnés en Garantie. La capacité de BNPP B.V. à remplir ses engagements relatives aux Titres émis par elle dépendra des paiements qu'elle aura perçus au titre des Contrats de Couverture. Par conséquent, les Titulaires de Titres de BNPP B.V. seront, sous réserve des dispositions de la Garantie pertinente, exposés à la capacité des de BNP Paribas et d'entités de BNP Paribas à exécuter leurs obligations en vertu de ces Contrats de Couverture. Les Titres vendus aux États-Unis ou à des U.S. Persons peuvent faire l'objet

BNP Paribas announces a comprehensive settlement regarding the review of certain USD transactions by US authorities

BNP Paribas today announced a comprehensive settlement of the pending investigation relating to US dollar transactions involving parties subject to US sanctions, including agreements with the U.S. Department of Justice, U.S. Attorney's Office for the Southern District of New York, the New York County District Attorney's Office, the Board of Governors of the U.S. Federal Reserve System (FED), the New York State Department of Financial Services (DFS), and the US Department of the Treasury's Office of Foreign Assets Control (OFAC).

The settlement includes guilty pleas entered into by BNP Paribas SA in relation to violations of certain US laws and regulations regarding economic sanctions against certain countries and related recordkeeping. BNP Paribas also agrees to pay a total of USD 8.97 billion (Euros 6.6 billion). Beyond what has already been provisioned, this will result in an exceptional charge of Euros 5.8 billion to be booked in the second quarter of 2014. BNP Paribas also accepts a temporary suspension of one year starting 1st January 2015 of the USD direct clearing focused mainly on the Oil & Gas Energy & Commodity Finance business line in certain locations.

BNP Paribas has worked with the US authorities to resolve these issues and the resolution of these matters was coordinated by its home regulator (Autorité de Contrôle Prudentiel et de Résolution - ACPR) with its lead regulators. BNP Paribas will maintain its licenses as part of the settlements, and expects no impact on its operational or business capabilities to serve the vast majority of its clients. During 2015, the activities of the perimeter concerned will clear US dollars through a third party bank instead of clearing through BNP Paribas New York and all necessary measures are being taken to ensure smooth transition and no material impact for the clients concerned. BNP Paribas notes that part of the Group's USD clearing is already done today through third party banks.

Based on its estimates, BNP Paribas expects its fully loaded Basel III CET1 ratio as at 30 June 2014 to be at around 10%, consistent with the Group's targets announced within its 2014-2016 business development plan. This estimate takes into account in particular solid underlying second quarter net results and pro rata temporis the current intention of the bank to adapt its dividend for 2014 to a level equal to that of 2013 (1.50 euros per share).

In advance of the settlement, the bank designed new robust compliance and control procedures. Many of these are already in force and are working effectively, and involve important changes to the Group's procedures. Specifically:

- *a new department called Group Financial Security US, part of the Group Compliance function, will be headquartered in New York and will ensure that BNP Paribas complies globally with US regulation related to international sanctions and embargoes.*
- *all USD flows for the entire BNP Paribas Group will be ultimately processed and controlled via the branch in New York.*

As a result of BNP Paribas' internal review, a number of managers and employees from relevant business areas have been sanctioned, a number of whom have left the Group.

Jean-Laurent Bonnafé, CEO of BNP Paribas, said: "We deeply regret the past misconduct that led to this settlement. The failures that have come to light in the course of this investigation run contrary to the principles on which BNP Paribas has always sought to operate. We have announced today a comprehensive plan to strengthen our internal controls and processes, in ongoing close coordination with the US authorities and our home regulator to ensure that we do not fall below the high standards of responsible conduct we expect from everyone associated with BNP Paribas".

"Having this matter resolved is an important step forward for us. Apart from the impact of the fine, BNP Paribas will once again post solid results this quarter and we want to thank our clients, employees, shareholders and investors for their support throughout this difficult time".

"The Group remains focused on implementing its 2014-2016 business development plan. We confirm our ambition to meet the targets of this plan announced in March this year. In particular, North America remains a strategic market for the Group where we plan to further develop our retail, investment solutions and corporate & investment banking franchise over the coming years".

"BNP Paribas is a client-centric bank and we will continue to work every single day to earn the trust and respect of all our stakeholders in service of our clients and the economy"."

Following the settlement, the Bank expects its banking licenses to be maintained where it operates (although this settlement could provide the basis for a regulator to rescind a license), and has received confirmations or assurances in this regard from its principal regulators. The Bank expects that the settlement will have no impact on its operational or business capabilities to serve the vast majority of its clients. There can be no assurance, however, that unanticipated collateral consequences of the settlement will not adversely affect its business. Such unanticipated collateral consequences include the possibility that clients, counter-parties and other persons or entities with whom the Bank does business may choose to limit their future business with the Bank. It also includes for some limited activities, in particular in the United States, the possibility that an authority may refuse to grant the Bank a waiver needed to pursue a specific activity, or may withdraw an authorization to conduct a specific activity. Similarly, the Bank cannot be certain that the suspension of U.S. dollar clearing in respect of certain of its business lines will not lead to a loss of business.";

- (b) Element B.13 is deleted in its entirety and replaced with the following:

B.13	Events impacting the Issuer's solvency	As at the date of this Base Prospectus and to the best of the Issuers' knowledge, there have not been any recent events which are to a material extent relevant to the evaluation of any of the Issuers' solvency since 31 December 2013, save as disclosed in the press release published by BNP Paribas on 30 June 2014 the text of which is set out in italicised text in Element B.12 above.

- (c) In Element B.17, the second paragraph is deleted and replaced with the following:

"BNPP's long-term credit ratings are A+ with a negative outlook (Standard & Poor's Credit Market Services France SAS), A1 with a negative outlook (Moody's Investors Service Ltd.) and A+ with a stable outlook (Fitch France S.A.S.) and BNPP's short-term credit ratings are A-1 (Standard & Poor's Credit Market Services France SAS), P-1 (Moody's Investors Service Ltd.) and F1 (Fitch France S.A.S.)."; and

- (d) In Element D.2, the paragraph beginning "BNPP is subject to extensive" is deleted in its entirety and replaced with the following:

"BNPP is subject to extensive and evolving regulatory regimes in the countries and regions in which it operates."

2. The "Pro Forma Issue Specific Summary of the Programme in relation to this Base Prospectus" on pages 63 to 113 of the Base Prospectus is amended as follows:

- (a) In Element B.12, the paragraphs under the heading "***Statements of no significant or material adverse change***" is deleted and replaced with the following:

"Save as disclosed in the press release published by BNP Paribas on 30 June 2014 (the text of which is set out in italicised text below), there has been no significant change in the financial or trading position of the BNPP Group since [31 December 2013 (being the end of the last financial period for which audited financial statements have been published)]. There has been no material adverse change in the prospects of [BNPP or] the BNPP Group since 31 December 2013 (being the end of the last financial period for which audited financial statements have been published).

- a new department called Group Financial Security US, part of the Group Compliance function, will be headquartered in New York and will ensure that BNP Paribas complies globally with US regulation related to international sanctions and embargoes.*
- all USD flows for the entire BNP Paribas Group will be ultimately processed and controlled via the branch in New York.*

As a result of BNP Paribas' internal review, a number of managers and employees from relevant business areas have been sanctioned, a number of whom have left the Group.

Jean-Laurent Bonnafe, CEO of BNP Paribas, said: "We deeply regret the past misconduct that led to this settlement. The failures that have come to light in the course of this investigation run contrary to the principles on which BNP Paribas has always sought to operate. We have announced today a comprehensive plan to strengthen our internal controls and processes, in ongoing close coordination with the US authorities and our home regulator to ensure that we do not fall below the high standards of responsible conduct we expect from everyone associated with BNP Paribas".

"Having this matter resolved is an important step forward for us. Apart from the impact of the fine, BNP Paribas will once again post solid results this quarter and we want to thank our clients, employees, shareholders and investors for their support throughout this difficult time".

"The Group remains focused on implementing its 2014-2016 business development plan. We confirm our ambition to meet the targets of this plan announced in March this year. In particular, North America remains a strategic market for the Group where we plan to further develop our retail, investment solutions and corporate & investment banking franchise over the coming years".

“BNP Paribas is a client-centric bank and we will continue to work every single day to earn the trust and respect of all our stakeholders in service of our clients and the economy””

Following the settlement, the Bank expects its banking licenses to be maintained where it operates (although this settlement could provide the basis for a regulator to rescind a license), and has received confirmations or assurances in this regard from its principal regulators. The Bank expects that the settlement will have no impact on its operational or business capabilities to serve the vast majority of its clients. There can be no assurance, however, that unanticipated collateral consequences of the settlement will not adversely affect its business. Such unanticipated collateral consequences include the possibility that clients, counter-parties and other persons or entities with whom the Bank does business may choose to limit their future business with the Bank. It also includes for some limited activities, in particular in the United States, the possibility that an authority may refuse to grant the Bank a waiver needed to pursue a specific activity, or may withdraw an authorization to conduct a specific activity. Similarly, the Bank cannot be certain that the suspension of U.S. dollar clearing in respect of certain of its business lines will not lead to a loss of business.

"19. Recent Developments of BNPP and the BNP Paribas Group

As indicated in the Second Update to the BNPP 2013 Registration Document (filed with the *Autorités des Marchés Financiers* on July 7, 2014), on June 30, 2014 the Bank entered into a comprehensive settlement that included agreements with and orders issued by U.S. federal and New York state government agencies and regulatory authorities comprising the U.S. Department of Justice, the New York County District Attorney's Office, the U.S. Attorney's Office for the Southern District of New York, the Board of Governors of the Federal Reserve System, the Office of Foreign Assets Control of the U.S. Department of the Treasury and the New York State Department of Financial Services, in settlement of investigations into violations of U.S. laws and regulations regarding economic sanctions.

The fines and penalties imposed on the Bank as part of this settlement include, among other things, the payment of monetary penalties totaling approximately \$8.97 billion (€6.6 billion), guilty pleas by BNP Paribas S.A., the parent company of the BNP Paribas group, to charges of having violated U.S. federal criminal law (conspiracy to violate the Trading with the Enemy Act and the International Emergency Economic Powers Act) and New York State criminal law (conspiracy and falsifying business records), and the suspension of the New York branch of BNP Paribas for (a) a one-year period (2015) of the USD direct clearing focused mainly on the Oil & Gas Energy and Commodity Finance business line in certain locations and (b) a two-year period of U.S. dollar clearing as a correspondent bank for unaffiliated third party banks in New York and London.

Following the settlement, the Bank expects its banking licenses to be maintained where it operates (although this settlement could provide the basis for a regulator to rescind a license), and has received confirmations or assurances in this regard from its principal regulators. The Bank expects that the settlement will have no impact on its operational or business capabilities to serve the vast majority of its clients. There can be no assurance, however, that unanticipated collateral consequences of the settlement will not adversely affect its business. Such unanticipated collateral consequences include the possibility that clients, counter-parties and other persons or entities with whom the Bank does business may choose to limit their future business with the Bank. It also includes for some limited activities, in particular in the United States, the possibility that an authority may refuse to grant the Bank a waiver needed to pursue a specific activity, or may withdraw an authorization to conduct a specific activity. Similarly, the Bank cannot be certain that the suspension of U.S. dollar clearing in respect of certain of its business lines will not lead to a loss of business."

BNP Paribas annonce un accord global avec les autorités des Etats-Unis relatif à la revue de certaines transactions en dollars

BNP Paribas annonce aujourd'hui être parvenue à un règlement global relatif à l'enquête portant sur certaines transactions en dollars concernant des pays soumis aux sanctions des Etats-Unis. Ce règlement inclut des accords avec le US Department of Justice, le US Attorney's Office pour le district sud de New York, le District Attorney's Office du comté de New York, le Conseil des Gouverneurs de la Réserve fédérale américaine (FED), le Département des Services financiers de l'Etat de New York (DFS) et l'Office of Foreign Assets Control (OFAC) du Département du Trésor américain.

Dans le cadre de cet accord, BNP Paribas SA reconnaît sa responsabilité (« guilty plea ») pour avoir enfreint certaines lois et réglementations des Etats-Unis relatives à des sanctions économiques à l'encontre de certains pays et aux enregistrements des opérations liées. BNP Paribas accepte également de payer un total de 8,97 milliards de dollars (6,6 milliards d'euros). Compte tenu des sommes déjà provisionnées, ce montant donnera lieu à la comptabilisation d'une charge exceptionnelle de 5,8 milliards d'euros dans les comptes du 2ème trimestre 2014. Par ailleurs, BNP Paribas accepte une suspension temporaire, pour une durée d'un an à compter du 1er janvier 2015, de certaines opérations directes de compensation en dollars US, portant principalement sur le périmètre de l'activité de financement du négoce international de matières premières, pour la partie pétrole et gaz, dans certaines implantations.

BNP Paribas a travaillé avec les autorités des Etats-Unis pour aboutir à cet accord dont le règlement a été coordonné par son autorité de tutelle nationale (l'Autorité de Contrôle Prudentiel et de Résolution - ACPR), en lien avec ses principales autorités de tutelle à l'étranger. BNP Paribas conservera ses licences dans le cadre de ces accords, et n'anticipe aucune incidence sur sa capacité opérationnelle ou commerciale à répondre aux besoins de la quasi-totalité de ses clients. En 2015, les activités du périmètre concerné seront compensées en dollars via une banque tierce et non par l'intermédiaire de la succursale de BNP Paribas à New York. Toutes les mesures nécessaires sont prises pour assurer une transition sans difficulté et éviter tout impact significatif pour les clients concernés. BNP Paribas rappelle qu'une partie de l'activité de compensation en dollars US du Groupe est déjà réalisée via des banques tierces.

BNP Paribas estime que son ratio de fonds propres (CET1) de « Bâle 3 plein » devrait rester de l'ordre de 10% au 30 juin 2014, en ligne avec les objectifs annoncés dans le plan de développement

2014-2016. Cette estimation tient compte notamment d'un résultat net hors exceptionnels solide au 2ème trimestre et, prorata temporis, de l'intention de la banque d'ajuster le niveau de dividende pour 2014 au niveau de celui de 2013 (1,50 euros par action).

Sans attendre cet accord, la banque a mis au point un ensemble de procédures solides en matière de conformité et de contrôle. Nombre de ces procédures sont déjà en place et fonctionnent efficacement. Elles traduisent une évolution majeure des processus opérationnels du Groupe. En particulier :

- un nouveau département, baptisé « Sécurité Financière Groupe aux Etats-Unis » et faisant partie de la fonction « Conformité Groupe », sera localisé à New York et aura pour mission de veiller à ce que BNP Paribas respecte dans le monde entier les réglementations des Etats-Unis relatives aux sanctions internationales et aux embargos.
- la totalité des flux en dollars du Groupe BNP Paribas sera à terme traitée et contrôlée par la succursale de New York.

A l'issue de la revue interne menée par BNP Paribas, plusieurs cadres et collaborateurs des entités concernées ont été sanctionnés. D'autres ont quitté le Groupe.

Jean-Laurent Bonnafé, Administrateur Directeur général de BNP Paribas, a déclaré : « Nous exprimons nos regrets pour ces erreurs passées qui nous amènent aujourd'hui à cet accord. Certaines défaillances qui ont été identifiées lors de cette enquête sont contraires aux principes éthiques que BNP Paribas a toujours cherché à respecter. Nous avons annoncé aujourd'hui un plan d'envergure pour renforcer nos contrôles et nos processus internes, en étroite coopération avec les autorités américaines et notre régulateur national, pour veiller à ce que nos pratiques soient conformes aux standards élevés en matière de comportement responsable que nous attendons de chacun chez BNP Paribas».

« Cet accord constitue une étape importante pour nous. Au titre de ses activités courantes, BNP Paribas enregistrera à nouveau des résultats solides ce trimestre et nous tenons à remercier nos clients, nos collaborateurs, nos actionnaires et nos investisseurs pour leur soutien tout au long de cette période difficile. »

« Le Groupe reste mobilisé sur la mise en œuvre de son plan de développement 2014-2016. Nous confirmons notre ambition d'atteindre les objectifs prévus dans ce plan, annoncé en mars 2014. En particulier, les États-Unis demeurent un marché stratégique pour le Groupe et nous comptons continuer à y développer nos activités de banque de détail, d'investissement solutions et de banque de financement et d'investissement (BFI) au cours des années à venir. »

« BNP Paribas est une banque qui place les clients au cœur de ses priorités. Nous allons continuer à travailler chaque jour pour mériter la confiance et le respect de tous, au service de nos clients et de l'économie. »

A la suite de cet accord, la Banque s'attend à conserver ses licences bancaires là où elle opère (même si l'accord pourrait constituer un motif d'annulation d'une licence pour un régulateur), et a reçu des confirmations ou assurances dans ce sens de ses principaux régulateurs bancaires. La Banque ne s'attend pas à ce que l'accord ait une incidence sur sa capacité opérationnelle ou commerciale à répondre aux besoins de la quasi-totalité de ses clients. Cependant, il ne peut être exclu que des conséquences collatérales imprévisibles de cet accord impactent de manière négative son activité. Ces conséquences collatérales imprévisibles incluent le risque que des clients, contreparties et toute autre personne ou entité contractant avec la Banque, décident de limiter leur activité future avec la Banque. Cela inclut également pour certaines activités limitées, en particulier aux Etats-Unis, le risque qu'une autorité refuse d'accorder à la Banque une dispense nécessaire à la poursuite d'une activité déterminée ou ne retire une autorisation nécessaire à l'exercice d'une activité déterminée. De

même, la Banque ne peut savoir avec certitude si la suspension de la compensation en dollars dans certains de ses activités conduira à une perte d'activité.";

- (b) L'élément B.13 est supprimé dans son intégralité et remplacé avec ce qui suit :

B.13	Evénements impactant la solvabilité de l'Emetteur	A la date de ce Prospectus de Base et à la connaissance de l'Emetteur, il ne s'est produit aucun événement récent qui présente un intérêt significatif pour l'évaluation de la solvabilité de l'Emetteur depuis le 31 décembre 2013, à l'exception de ce qui est indiqué dans le communiqué de presse publié par BNP Paribas le 30 juin 2014 dont le texte est reproduit en italique dans l'Elément B.12 ci-dessus.

- (c) Dans l'élément B.17, le second paragraphe est supprimé et remplacé par ce qui suit :

- (d) Dans l'élément D.2, le paragraphe commençant par "BNPP est soumise à une réglementation importante" est supprimé dans son intégralité et remplacé par ce qui suit :

"BNPP est soumise à une réglementation importante et fluctuante dans les pays et régions où elle exerce ses activités."

2. Le "Modèle de Résumé du Programme Spécifique à l'Emission en relation avec le Prospectus de Base" des pages 1288 à 1349 est modifié comme suit:

- (a) Dans l'élément B.12, les paragraphes sous le titre "***Déclarations relatives à l'absence de changement significatif ou de changement défavorable significatif***" sont supprimés et remplacés par ce qui suit :

"A l'exception de ce qui est indiqué dans le communiqué de presse publié par BNP Paribas le 30 juin 2014 (dont le texte est reproduit en italique aux paragraphes suivants), il ne s'est produit aucun changement significatif dans la situation financière ou commerciale du Groupe BNPP depuis le [31 décembre 2013 (date de clôture de la dernière période comptable pour laquelle des états financiers audités ont été publiés)]. "Paris, 30 June 2014

BNP Paribas announces a comprehensive settlement regarding the review of certain USD transactions by US authorities

BNP Paribas today announced a comprehensive settlement of the pending investigation relating to US dollar transactions involving parties subject to US sanctions, including agreements with the U.S. Department of Justice, U.S. Attorney's Office for the Southern District of New York, the New York County District Attorney's Office, the Board of Governors of the U.S. Federal Reserve System (FED), the New York State Department of Financial Services (DFS), and the US Department of the Treasury's Office of Foreign Assets Control (OFAC).

The settlement includes guilty pleas entered into by BNP Paribas SA in relation to violations of certain US laws and regulations regarding economic sanctions against certain countries and related recordkeeping. BNP Paribas also agrees to pay a total of USD 8.97 billion (Euros 6.6 billion). Beyond what has already been provisioned, this will result in an exceptional charge of Euros 5.8 billion to be booked in the second quarter of 2014. BNP Paribas also accepts a temporary suspension of one year starting 1st January 2015 of the USD direct clearing focused mainly on the Oil & Gas Energy & Commodity Finance business line in certain locations.

BNP Paribas has worked with the US authorities to resolve these issues and the resolution of these matters was coordinated by its home regulator (Autorité de Contrôle Prudentiel et de Résolution - ACPR) with its lead regulators. BNP Paribas will maintain its licenses as part of the settlements, and expects no impact on its operational or business capabilities to serve the vast majority of its clients. During 2015, the activities of the perimeter concerned will clear US dollars through a third party bank instead of clearing through BNP Paribas New York and all necessary measures are being taken to ensure smooth transition and no material impact for the clients concerned. BNP Paribas notes that part of the Group's USD clearing is already done today through third party banks.

Based on its estimates, BNP Paribas expects its fully loaded Basel III CET1 ratio as at 30 June 2014 to be at around 10%, consistent with the Group's targets announced within its 2014-2016 business development plan. This estimate takes into account in particular solid underlying second quarter net results and pro rata temporis the current intention of the bank to adapt its dividend for 2014 to a level equal to that of 2013 (1.50 euros per share).

In advance of the settlement, the bank designed new robust compliance and control procedures. Many of these are already in force and are working effectively, and involve important changes to the Group's procedures. Specifically:

- *a new department called Group Financial Security US, part of the Group Compliance function, will be headquartered in New York and will ensure that BNP Paribas complies globally with US regulation related to international sanctions and embargoes.*

- *all USD flows for the entire BNP Paribas Group will be ultimately processed and controlled via the branch in New York.*

As a result of BNP Paribas' internal review, a number of managers and employees from relevant business areas have been sanctioned, a number of whom have left the Group.

Jean-Laurent Bonnafe, CEO of BNP Paribas, said: "We deeply regret the past misconduct that led to this settlement. The failures that have come to light in the course of this investigation run contrary to the principles on which BNP Paribas has always sought to operate. We have announced today a comprehensive plan to strengthen our internal controls and processes, in ongoing close coordination with the US authorities and our home regulator to ensure that we do not fall below the high standards of responsible conduct we expect from everyone associated with BNP Paribas".

"Having this matter resolved is an important step forward for us. Apart from the impact of the fine, BNP Paribas will once again post solid results this quarter and we want to thank our clients, employees, shareholders and investors for their support throughout this difficult time".

"The Group remains focused on implementing its 2014-2016 business development plan. We confirm our ambition to meet the targets of this plan announced in March this year. In particular, North America remains a strategic market for the Group where we plan to further develop our retail, investment solutions and corporate & investment banking franchise over the coming years".

"BNP Paribas is a client-centric bank and we will continue to work every single day to earn the trust and respect of all our stakeholders in service of our clients and the economy"."

Following the settlement, the Bank expects its banking licenses to be maintained where it operates (although this settlement could provide the basis for a regulator to rescind a license), and has received confirmations or assurances in this regard from its principal regulators. The Bank expects that the settlement will have no impact on its operational or business capabilities to serve the vast majority of its clients. There can be no assurance, however, that unanticipated collateral consequences of the settlement will not adversely affect its business. Such unanticipated collateral consequences include the possibility that clients, counter-parties and other persons or entities with whom the Bank does business may choose to limit their future business with the Bank. It also includes for some limited activities, in particular in the United States, the possibility that an authority may refuse to grant the Bank a waiver needed to pursue a specific activity, or may withdraw an authorization to conduct a specific activity. Similarly, the Bank cannot be certain that the suspension of U.S. dollar clearing in respect of certain of its business lines will not lead to a loss of business.

There has been no significant change in the financial or trading position of BNPP B.V., BP2F or BGL since 31 December 2013 and there has been no material adverse change in the prospects of BNPP B.V., BP2F or BGL since 31 December 2013.";

BNP Paribas announces a comprehensive settlement regarding the review of certain USD transactions by US authorities

BNP Paribas today announced a comprehensive settlement of the pending investigation relating to US dollar transactions involving parties subject to US sanctions, including agreements with the U.S. Department of Justice, U.S. Attorney's Office for the Southern District of New York, the New York County District Attorney's Office, the Board of Governors of the U.S. Federal Reserve System (FED), the New York State Department of Financial Services (DFS), and the US Department of the Treasury's Office of Foreign Assets Control (OFAC).

The settlement includes guilty pleas entered into by BNP Paribas SA in relation to violations of certain US laws and regulations regarding economic sanctions against certain countries and related recordkeeping. BNP Paribas also agrees to pay a total of USD 8.97 billion (Euros 6.6 billion). Beyond what has already been provisioned, this will result in an exceptional charge of Euros 5.8 billion to be booked in the second quarter of 2014. BNP Paribas also accepts a temporary suspension of one year starting 1st January 2015 of the USD direct clearing focused mainly on the Oil & Gas Energy & Commodity Finance business line in certain locations.

BNP Paribas has worked with the US authorities to resolve these issues and the resolution of these matters was coordinated by its home regulator (Autorité de Contrôle Prudentiel et de Résolution - ACPR) with its lead regulators. BNP Paribas will maintain its licenses as part of the settlements, and expects no impact on its operational or business capabilities to serve the vast majority of its clients. During 2015, the activities of the perimeter concerned will clear US dollars through a third party bank instead of clearing through BNP Paribas New York and all necessary measures are being taken to ensure smooth transition and no material impact for the clients concerned. BNP Paribas notes that part of the Group's USD clearing is already done today through third party banks.

Based on its estimates, BNP Paribas expects its fully loaded Basel III CET1 ratio as at 30 June 2014 to be at around 10%, consistent with the Group's targets announced within its 2014-2016 business development plan. This estimate takes into account in particular solid

underlying second quarter net results and pro rata temporis the current intention of the bank to adapt its dividend for 2014 to a level equal to that of 2013 (1.50 euros per share).

In advance of the settlement, the bank designed new robust compliance and control procedures. Many of these are already in force and are working effectively, and involve important changes to the Group's procedures. Specifically:

- a new department called Group Financial Security US, part of the Group Compliance function, will be headquartered in New York and will ensure that BNP Paribas complies globally with US regulation related to international sanctions and embargoes.*
- all USD flows for the entire BNP Paribas Group will be ultimately processed and controlled via the branch in New York.*

As a result of BNP Paribas' internal review, a number of managers and employees from relevant business areas have been sanctioned, a number of whom have left the Group.

Jean-Laurent Bonnafe, CEO of BNP Paribas, said: "We deeply regret the past misconduct that led to this settlement. The failures that have come to light in the course of this investigation run contrary to the principles on which BNP Paribas has always sought to operate. We have announced today a comprehensive plan to strengthen our internal controls and processes, in ongoing close coordination with the US authorities and our home regulator to ensure that we do not fall below the high standards of responsible conduct we expect from everyone associated with BNP Paribas".

"Having this matter resolved is an important step forward for us. Apart from the impact of the fine, BNP Paribas will once again post solid results this quarter and we want to thank our clients, employees, shareholders and investors for their support throughout this difficult time".

"The Group remains focused on implementing its 2014-2016 business development plan. We confirm our ambition to meet the targets of this plan announced in March this year. In particular, North America remains a strategic market for the Group where we plan to further develop our retail, investment solutions and corporate & investment banking franchise over the coming years".

"BNP Paribas is a client-centric bank and we will continue to work every single day to earn the trust and respect of all our stakeholders in service of our clients and the economy".

Following the settlement, the Bank expects its banking licenses to be maintained where it operates (although this settlement could provide the basis for a regulator to rescind a license), and has received confirmations or assurances in this regard from its principal regulators. The Bank expects that the settlement will have no impact on its operational or business capabilities to serve the vast majority of its clients. There can be no assurance, however, that unanticipated collateral consequences of the settlement will not adversely affect its business. Such unanticipated collateral consequences include the possibility that clients, counter-parties and other persons or entities with whom the Bank does business may choose to limit their future business with the Bank. It also includes for some limited activities, in particular in the United States, the possibility that an authority may refuse to grant the Bank a waiver needed to pursue a specific activity, or may withdraw an authorization to conduct a specific activity. Similarly, the Bank cannot be certain that the suspension of U.S. dollar clearing in respect of certain of its business lines will not lead to a loss of business.

- (b) the following new paragraphs are inserted immediately below the first paragraph (which was included in the Base Prospectus by virtue of the First Supplement) under the heading "5. Material Adverse Change":

"As indicated in the Second Update to the BNPP 2013 Registration Document (filed with the *Autorités des Marchés Financiers* on 7 July 2014), on 30 June 2014 BNPP entered into a comprehensive settlement that included agreements with and orders issued by U.S. federal and New York state government agencies and regulatory authorities comprising the U.S. Department of Justice, the New York County District Attorney's Office, the U.S. Attorney's Office for the Southern District of New York, the Board of Governors of the Federal Reserve System, the Office of Foreign Assets Control of the U.S. Department of the Treasury and the New York State Department of Financial Services, in settlement of investigations into violations of U.S. laws and regulations regarding economic sanctions.

The fines and penalties imposed on BNPP as part of this settlement include, among other things, the payment of monetary penalties totaling approximately \$8.97 billion (€6.6 billion), guilty pleas by BNP Paribas S.A., the parent company of the BNP Paribas group, to charges of having violated U.S. federal criminal law (conspiracy to violate the Trading with the Enemy Act and the International Emergency Economic Powers Act) and New York State criminal law (conspiracy and falsifying business records), and the suspension of the New York branch of BNP Paribas for (a) a one-year period (2015) of the USD direct clearing focused mainly on the Oil & Gas Energy and Commodity Finance business line in certain locations and (b) a two-year period of U.S. dollar clearing as a correspondent bank for unaffiliated third party banks in New York and London.

Following the settlement, BNPP expects its banking licenses to be maintained where it operates (although this settlement could provide the basis for a regulator to rescind a license), and has received confirmations or assurances in this regard from its principal regulators. BNPP expects that the settlement will have no impact on its operational or business capabilities to serve the vast

majority of its clients. There can be no assurance, however, that unanticipated collateral consequences of the settlement will not adversely affect its business. Such unanticipated collateral consequences include the possibility that clients, counter-parties and other persons or entities with whom BNPP does business may choose to limit their future business with BNPP. It also includes for some limited activities, in particular in the United States, the possibility that an authority may refuse to grant BNPP a waiver needed to pursue a specific activity, or may withdraw an authorization to conduct a specific activity. Similarly, BNPP cannot be certain that the suspension of U.S. dollar clearing in respect of certain of its business lines will not lead to a loss of business.";

- (c) the paragraph under the heading "6. Legal and Arbitration Proceedings" on page 1222 of the Base Prospectus (which was included in the Base Prospectus by virtue of the First Supplement) is deleted and replaced with the following:

"Save as disclosed on pages 100 to 101 and 137 to 138 of the Third Update to the BNPP 2013 Registration Document, there have been no governmental, legal or arbitration proceedings (including any such proceedings which are pending or threatened of which BNPP is aware), during the period covering at least the twelve (12) months prior to 7 August 2014 which may have, or have had in the recent past, significant effects on BNPP and/or the Group's financial position or profitability.";

- (d) the first two paragraphs under the heading "7. Significant Change" on page 1223 of the Base Prospectus (which were included in the Base Prospectus by virtue of the First Supplement) are deleted and replaced with the following:

"There has been no significant change in the financial or trading position of the Group since 30 June 2014 (being the end of the last financial period for which interim financial statements have been published).";

- (e) the table under the heading "18. Capitalization of BNPP and the BNP Paribas Group" on page 1229 of the Base Prospectus is deleted and replaced with the following:

BNP Paribas annonce un accord global avec les autorités des Etats-Unis relatif à la revue de certaines transactions en dollars

BNP Paribas annonce aujourd'hui être parvenue à un règlement global relatif à l'enquête portant sur certaines transactions en dollars concernant des pays soumis aux sanctions des Etats-Unis. Ce règlement inclut des accords avec le US Department of Justice, le US Attorney's Office pour le district sud de New York, le District Attorney's Office du comté de New York, le Conseil des Gouverneurs de la Réserve fédérale américaine (FED), le Département des Services financiers de l'État de New York (DFS) et l'Office of Foreign Assets Control (OFAC) du Département du Trésor américain.

Dans le cadre de cet accord, BNP Paribas SA reconnaît sa responsabilité (« guilty plea ») pour avoir enfreint certaines lois et réglementations des Etats-Unis relatives à des sanctions économiques à l'encontre de certains pays et aux enregistrements des opérations liées. BNP Paribas accepte également de payer un total de 8,97 milliards de dollars (6,6 milliards d'euros). Compte tenu des sommes déjà provisionnées, ce montant donnera lieu à la comptabilisation d'une charge exceptionnelle de 5,8 milliards d'euros dans les comptes du 2ème trimestre 2014. Par ailleurs, BNP Paribas accepte une suspension temporaire, pour une durée d'un an à compter du 1er janvier 2015, de certaines opérations directes de compensation en dollars US, portant principalement sur le périmètre de l'activité de financement du négoce international de matières premières, pour la partie pétrole et gaz, dans certaines implantations.

BNP Paribas a travaillé avec les autorités des Etats-Unis pour aboutir à cet accord dont le règlement a été coordonné par son autorité de tutelle nationale (l'Autorité de Contrôle Prudentiel et de Résolution - ACPR), en lien avec ses principales autorités de tutelle à l'étranger. BNP Paribas conservera ses licences dans le cadre de ces accords, et n'anticipe aucune incidence sur sa capacité opérationnelle ou commerciale à répondre aux besoins de la quasi-totalité de ses clients. En 2015, les activités du périmètre concerné seront compensées en dollars via une banque tierce et non par l'intermédiaire de la succursale de BNP Paribas à New York. Toutes les mesures nécessaires sont prises pour assurer une transition sans difficulté et éviter tout impact significatif pour les clients concernés. BNP Paribas rappelle qu'une partie de l'activité de compensation en dollars US du Groupe est déjà réalisée via des banques tierces.

BNP Paribas estime que son ratio de fonds propres (CET1) de « Bâle 3 plein » devrait rester de l'ordre de 10% au 30 juin 2014, en ligne avec les objectifs annoncés dans le plan de développement 2014-2016. Cette estimation tient compte notamment d'un résultat net hors exceptionnels solide au 2ème trimestre et, prorata temporis, de l'intention de la banque d'ajuster le niveau de dividende pour 2014 au niveau de celui de 2013 (1,50 euros par action).

Sans attendre cet accord, la banque a mis au point un ensemble de procédures solides en matière de conformité et de contrôle. Nombre de ces procédures sont déjà en place et fonctionnent efficacement. Elles traduisent une évolution majeure des processus opérationnels du Groupe. En particulier :

- un nouveau département, baptisé « Sécurité Financière Groupe aux Etats-Unis » et faisant partie de la fonction « Conformité Groupe », sera localisé à New York et aura pour mission de veiller à ce que BNP Paribas respecte dans le monde entier les réglementations des Etats-Unis relatives aux sanctions internationales et aux embargos.
- la totalité des flux en dollars du Groupe BNP Paribas sera à terme traitée et contrôlée par la succursale de New York.

A l'issue de la revue interne menée par BNP Paribas, plusieurs cadres et collaborateurs des entités concernées ont été sanctionnés. D'autres ont quitté le Groupe.

Jean-Laurent Bonnafé, Administrateur Directeur général de BNP Paribas, a déclaré : « Nous exprimons nos regrets pour ces erreurs passées qui nous amènent aujourd'hui à cet accord. Certaines défaillances qui ont été identifiées lors de cette enquête sont contraires aux principes éthiques que BNP Paribas a toujours cherché à respecter. Nous avons annoncé aujourd'hui un plan d'envergure pour renforcer nos contrôles et nos processus internes, en étroite coopération avec les autorités américaines et notre régulateur national, pour veiller à ce que nos pratiques soient conformes aux standards élevés en matière de comportement responsable que nous attendons de chacun chez BNP Paribas».

« Cet accord constitue une étape importante pour nous. Au titre de ses activités courantes, BNP Paribas enregistrera à nouveau des résultats solides ce trimestre et nous tenons à remercier nos clients, nos collaborateurs, nos actionnaires et nos investisseurs pour leur soutien tout au long de cette période difficile ».

« Le Groupe reste mobilisé sur la mise en œuvre de son plan de développement 2014-2016. Nous confirmons notre ambition d'atteindre les objectifs prévus dans ce plan, annoncé en mars 2014. En particulier, les États-Unis demeurent un marché stratégique pour le Groupe et nous comptons continuer à y développer nos activités de banque de détail, d'investissement solutions et de banque de financement et d'investissement (BFI) au cours des années à venir ».

« BNP Paribas est une banque qui place les clients au cœur de ses priorités. Nous allons continuer à travailler chaque jour pour mériter la confiance et le respect de tous, au service de nos clients et de l'économie »."

A la suite de cet accord, la Banque s'attend à conserver ses licences bancaires là où elle opère (même si l'accord pourrait constituer un motif d'annulation d'une licence pour un régulateur), et a reçu des confirmations ou assurances dans ce sens de ses principaux régulateurs bancaires. La Banque ne s'attend pas à ce que l'accord ait une incidence sur sa capacité opérationnelle ou commerciale à répondre aux besoins de la quasi-totalité de ses clients. Cependant, il ne peut être exclu que des conséquences collatérales imprévisibles de cet accord impactent de manière négative son activité. Ces conséquences collatérales imprévisibles incluent le risque que des clients, contreparties et toute autre personne ou entité contractant avec la Banque, décident de limiter leur activité future avec la Banque. Cela inclut également pour certaines activités limitées, en particulier aux Etats-Unis, le risque qu'une autorité refuse d'accorder à la Banque une dispense nécessaire à la poursuite d'une activité déterminée ou ne retire une autorisation nécessaire à l'exercice d'une activité déterminée. De même, la Banque ne peut savoir avec certitude si la suspension de la compensation en dollars dans certains de ses activités conduira à une perte d'activité.

Il ne s'est produit aucun changement significatif dans la situation financière ou commerciale de BNPP B.V., BP2F ou BGL depuis le 31 décembre 2013 et il ne s'est produit aucun changement défavorable significatif dans les perspectives de BNPP B.V., BP2F ou BGL depuis le 31 décembre 2013.";

**AMENDMENTS TO THE PROGRAMME SUMMARY IN RELATION TO THE BASE
PROSPECTUS AND PRO FORMA ISSUE SPECIFIC SUMMARY OF THE PROGRAMME IN
RELATION TO THE BASE PROSPECTUS**

1. The "Pro Forma Issue Specific Summary of the Programme in relation to this Base Prospectus" on pages 63 to 113 of the Base Prospectus is amended as follows:
 - (a) In Element C.9 under the heading "[*Interest*" after the words "'**Coupon Switch Date(s)**" means [*specify*].]", the following is inserted:

"[Insert in the case of Credit Notes or Credit Certificates if applicable:

If an Event Determination Date (being the occurrence of a credit event and satisfaction of certain conditions) occurs in respect of any Reference Entity, interest will cease to accrue on the relevant portion of each Credit Security (corresponding to a pro rata share per Credit Security of the reference entity notional amount of the affected Reference Entity) with effect from and including the [[interest period end date] [interest payment date] immediately preceding such Event Determination Date or, in the case of the first interest period, the interest commencement date] [Event Determination Date]."

- (b) In Element C.18, the paragraph "[If the Securities are Credit Securities, redemption or settlement shall be subject to the Credit Security Conditions and the applicable Final Terms.]" immediately prior to the heading "*Final Payouts*" is deleted and replaced with the following:

"[If the Securities are Credit Securities and if an Event Determination Date occurs in respect of any Reference Entity, [the relevant portion of] each Credit Security [(corresponding to a pro rata share per Credit Security of the triggered portion of the reference entity notional amount of the affected Reference Entity)] will be redeemed [at its pro rata share of the [Auction Settlement Amount, subject to fallback settlement] [Credit Event Cash Settlement Amount]] [by physical settlement] [*specify other relevant redemption or settlement amount*]."

If no Event Determination Date occurs, each [[Credit Note] [Credit Certificate] will be redeemed at the [outstanding principal amount per Credit Note] [Cash Settlement Amount per Credit Certificate] [(or the relevant portion thereof)] [Credit Warrant will become void without payment].]"

RISK FACTORS

In relation to the amendments to the Risk Factors in this section: (i) text which, by virtue of this Fourth Supplement, is deleted from the Risk Factor is shown with a line drawn through the middle of the relevant deleted text; and (ii) text which, by virtue of this Fourth Supplement, is added to the Risk Factor is shown underlined.

The Risk Factors are amended as set out below:

- (a) The risk factor entitled "*Use of Auction Settlement may adversely affect returns to Holders*" is amended by deleting and replacing the third paragraph thereof on page 153 with the following:

"Following an M(M)R Restructuring Credit Event in relation to which ISDA sponsors multiple concurrent auctions, but where there is no relevant auction relating to credit derivative transactions with a maturity ~~of~~ corresponding to the Credit Securities, if the Calculation Agent exercises the right of the buyer or, as the case may be, seller of credit risk protection under the Credit Securities to elect that the Auction Final Price is determined by reference to an alternative Auction, the Auction Final Price so determined may be lower (in the case of Notes or Certificates) or higher (in the case of Warrants) than the amount which would have been determined based on quotations sought from third party dealers, thereby reducing the amount payable to Holders.";

- (b) The risk factor entitled "*Cheapest-to-Deliver risk for Notes and Certificates and conversely for Warrants*" on page 153 is deleted and replaced with the following:

"Since the Issuer, as buyer of protection in respect of the Notes or Certificates has discretion to choose the portfolio of obligations and/or assets to be valued or delivered following a Credit Event in respect of a Reference Entity, it is likely that the portfolio of obligations and/or assets selected will be obligations of the Reference Entity and/or assets with the lowest market value that are permitted to be selected pursuant to the terms of the Securities. This could result in a lower recovery value and hence greater losses for investors in the Notes or Certificates.

Conversely, the Issuer as seller of protection in respect of the Warrants has discretion to choose the portfolio of obligations and/or assets to be valued following a Credit Event in respect of a Reference Entity, and it is likely that the portfolio of obligations and/or assets selected will be obligations of the Reference Entity and/or assets with the highest market value that are permitted to be selected pursuant to the terms of the Warrants. This could result in a higher recovery value and hence a lower settlement amount for investors in the Warrants."

- (c) The following risk factor is added immediately after the risk factor entitled "*Cheapest-to-Deliver risk for Notes and Certificates and conversely for Warrants*" on page 153:

"Asset Package Delivery risks

The 2014 Definitions introduced the concept of asset package delivery. In certain circumstances where (a) "Financial Reference Entity Terms" and "Governmental Intervention" applies in respect of a Reference Entity and (i) there is a Governmental Intervention Credit Event; or (ii) a Restructuring Credit Event in respect of the Reference Obligation where such Restructuring does not constitute a Governmental Intervention or (b) a Restructuring Credit Event in respect of a Sovereign, then a related asset package resulting from a prior deliverable obligation (where "Financial Reference Entity Terms" apply) or package observable bond (where the Reference Entity is a sovereign) may also be deliverable. The asset package would be treated as having the same outstanding principal as the corresponding prior deliverable obligation or package observable bond.

If the resulting asset package is deemed to be zero where there are no resulting assets, the related credit loss will be 100 per cent. notwithstanding the recovery value on any other obligations of the Reference Entity.

The risk factors "*Use of Auction Settlement may adversely affect returns to Holders*" and "*Cheapest-to-Deliver risk for Notes and Certificates and conversely for Warrants*" above would apply to any asset or asset package.

If an asset in the asset package is a non-transferable instrument or non-financial instrument, the value of such asset will be the market value determined by reference to a specialist valuation or in accordance with methodology determined by the Credit Derivatives Determinations Committees. See "*Conflicts of Interest - Credit Derivatives Determinations Committees*" and "*Rights associated with Credit Derivatives Determinations Committees*" for risk factors relating to valuation in accordance with CDDC methodology.

- (d) The risk factor entitled "*The Calculation Agent may modify the terms of the Securities*" on pages 156 and 157 is deleted and replaced with the following:

"The Calculation Agent may, following its determination that there has been a change in the prevailing market standard terms or market trading conventions that affects any hedging transaction, modify the terms of the Securities to the extent reasonably necessary to ~~preserve any~~ ensure consistency ~~between the Securities and the hedging transaction~~ with the prevailing market standard terms or market trading conventions, without the consent of Holders or prior notice to Holders. The Calculation Agent is not obliged to make any such modifications. If the Calculation Agent modifies the terms of the Securities, it will do so without regard to the interests of the holders of the Securities and any such modification may be prejudicial to the interests of the holder of the Securities."

AMENDMENTS TO THE FORM OF FINAL TERMS FOR NOTES

The Form of Final Terms for the Notes on pages 202 to 259 of the Base Prospectus are amended as set out below:

	[In respect of [<i>specify relevant Reference Entity</i>], Trigger Percentage: [●] [As per the Credit Security Conditions]] [<i>Delete if CoCo Supplement is not applicable</i>]"

- (f) Paragraph 56(xx) (*Part B of Credit Security Conditions*) is amended by the insertion of the following at the end thereof:

- (c) Paragraph 34(g) (*Reference Obligation(s)*) is amended by the insertion of the following new lines immediately after the text "Original Issue Amount: [●]" at the end thereof:

"	[The obligation specified as the Reference Obligation above shall be the Original Non-Standard Reference Obligation notwithstanding that such obligation is not an obligation of the Reference Entity, and notwithstanding any contrary provision of the definition of "Original Non-Standard Reference Obligation" (and, for the avoidance of doubt, paragraph (a) of the definition thereof applies).] [Delete if not applicable or if Reference Obligation above is an obligation of the Reference Entity]

- (b) the Settlement Method (if not Auction Settlement) and, where Auction Settlement applies, the applicable Fallback Settlement Method;
- (c) the Reference Entity or Reference Entities in respect of which a Credit Event may occur;
- (d) the Reference Obligation(s) (if any) in respect of each Reference Entity;
- (e) the Trade Date and (in the case of Credit Notes) the Maturity Date, (in the case of Credit Certificates) the Redemption Date or (in the case of Credit Warrants) the Expiration Date;
- (f) the Transaction Type applicable to each Reference Entity; and
- (g) the Reference Entity Notional Amount in respect of each Reference Entity.

(b) Physical Settlement Matrix

Where a Transaction Type is specified in the Final Terms in respect of any Reference Entity, then the provisions of these Credit Security Conditions shall apply with respect to such Reference Entity in accordance with the Physical Settlement Matrix as it applies to such Transaction Type, as though such Physical Settlement Matrix were set out in full in the Final Terms.

(c) Additional Provisions

If, in accordance with the specified Transaction Type or otherwise, any Additional Provisions are applicable, these Credit Security Conditions shall take effect subject to the provisions thereof.

(d) Linear Basket Credit Securities

If the Credit Securities are Linear Basket Credit Securities, then the provisions of these Credit Security Conditions relating to redemption or settlement of Credit Securities following the occurrence of an Event Determination Date, extension of maturity of Credit Securities on delivery of an Extension Notice, cessation or suspension of accrual of interest or accrual and payment of interest following (in the case of Credit Certificates) the Redemption Date, (in the case of Credit Notes) the Maturity Date or (in the case of Credit Warrants) the Expiration Date shall apply separately with respect to each Reference Entity and a portion of each Credit Security corresponding to the Reference Entity Notional Amount divided by the number of Credit Securities then in issue. The remaining provisions of these Credit Security Conditions shall be construed accordingly.

2. Redemption

(a) Redemption or Expiration absent Event Determination Date

The Issuer will redeem each Credit Security (in the case of Notes or Certificates) on the related Credit Security Settlement Date (as such date may be extended in accordance with the definition thereof) by payment of an amount equal to (in the case of Certificates) the Cash Settlement Amount or (in the case of Notes) the outstanding principal amount of such Security (or, in the case of Linear Basket Credit Securities, the relevant portion thereof) (together with interest, if any, payable thereon) unless:

- (a) the Credit Securities have been previously redeemed or purchased and cancelled in full (including pursuant to Credit Security Conditions 2(b), 2(c) or 2(d)); or
- (b) an Event Determination Date has occurred, in which event the Issuer shall redeem the Credit Securities in accordance with Credit Security Condition 2(b).

Each Credit Warrant will become void on the related Credit Security Settlement Date (as such date may be extended in accordance with the definition thereof) unless:

- (c) the Credit Warrants have been previously settled or purchased and cancelled in full (including pursuant to Credit Security Conditions 2(b), 2(c) or 2(d)); or
- (d) an Event Determination Date has occurred, in which event the Credit Warrants shall be settled in accordance with Credit Security Condition 2(b).

(b) Redemption or Settlement following Event Determination Date

Upon the occurrence of an Event Determination Date in relation to any Reference Entity, then each Credit Note or Credit Certificate (or, in the case of Linear Basket Credit Securities, the relevant portion thereof) will be subject to redemption and each Credit Warrant (or, in the case of Linear Basket Credit Warrants, the

relevant portion thereof) will be deemed to have been automatically exercised on the Event Determination Date and will be subject to settlement:

- (a) if the applicable Settlement Method is Auction Settlement, by payment of its *pro rata* share (such amount to be apportioned *pro rata* amongst the outstanding (and in the case of Partly Paid Notes, paid-up) nominal amount or outstanding (and, in the case of Partly Paid Certificates, paid-up) notional amount of each Credit Security corresponding to the (in the case of Credit Notes) Calculation Amount or (in the case of Credit Certificates or Credit Warrants) Notional Amount) of the Auction Settlement Amount on the Auction Settlement Date, unless a Fallback Settlement Event occurs, in which event the Issuer shall perform its respective payment and/or delivery obligations in accordance with the applicable Fallback Settlement Method. If an Event Determination Date occurs with respect to a new Credit Event following the occurrence of a Fallback Settlement Event with respect to a first Credit Event and no Fallback Settlement Event occurs with respect to such new Credit Event, the Issuer shall, if it so elects on or prior to a related Valuation Date or Delivery Date, redeem or settle, as applicable, the Credit Securities in accordance with this Credit Security Condition 2(b)(a) by Auction Settlement;
- (b) if the applicable Settlement Method is Physical Settlement, in accordance with Credit Security Condition 4; and
- (c) if the applicable Settlement Method is Cash Settlement, by payment of its *pro rata* share (such amount to be apportioned *pro rata* amongst the outstanding (and in the case of Partly Paid Notes, paid-up) nominal amount or outstanding (and, in the case of Partly Paid Certificates, paid-up) notional amount of each Credit Security corresponding to the (in the case of Credit Notes) Calculation Amount or (in the case of Credit Certificates or Credit Warrants) Notional Amount) of the Credit Event Cash Settlement Amount on the Cash Settlement Date.

Where the Credit Securities are Nth-to-Default Credit Securities, an Event Determination Date shall be deemed not to occur with respect to the Credit Securities until an Event Determination Date occurs with respect to the Nth Reference Entity. Where the Credit Securities are Nth-to-Default Credit Securities and an Event Determination Date occurs with respect to more than one Reference Entity on the same day, the Calculation Agent shall determine the order in which such Event Determination Dates occurred.

(c) Redemption following a Merger Event

If this Credit Security Condition 2(c) is specified as applicable in the applicable Final Terms, in the event that in the determination of the Calculation Agent a Merger Event has occurred, the Issuer may give notice to the Holders in accordance with W&C Security Condition 10 or Note Condition 16, as applicable, and (in the case of Credit Notes or Credit Certificates) redeem or (in the case of Credit Warrants) cancel all but not some only of the Credit Securities on the Merger Event Redemption Date, and if the Credit Securities are so redeemed or, as the case may be, cancelled, the Issuer shall pay an amount to each Holder in respect of each Credit Security, which amount shall be the fair market value of the Credit Security taking into account the Merger Event less the cost to the Issuer and/or its Affiliates of unwinding any underlying related hedging arrangements (including without limitation any Unwind Costs), all as determined by the Calculation Agent in a commercially reasonable manner.

(d) Additional Credit Linked Security Disruption Events

If the Calculation Agent determines that an Additional Credit Linked Security Disruption Event has occurred, the Issuer may redeem (or settle, as applicable) the Credit Securities by giving notice to Holders in accordance with W&C Security Condition 10 or Note Condition 16, as applicable. If the Credit Securities are so redeemed (or settled, as applicable), the Issuer will pay an amount to each Holder in respect of each Credit Security equal to the fair market value of such Credit Security taking into account the Additional Credit Linked Security

Disruption Event, less the cost to the Issuer and/or its Affiliates of unwinding any underlying related hedging arrangements all as determined by the Calculation Agent in a commercially reasonable manner. Payments will be made in such manner as shall be notified to the Holders in accordance with W&C Security Condition 10 or Note Condition 16, as applicable.

(e) Suspension of Obligations

If there is a DC Credit Event Question in relation to any Reference Entity, then (unless the Issuer otherwise elects by notice to the Calculation Agent and the Holders) from the date of such DC Credit Event Question (and notwithstanding that the relevant Credit Derivatives Determinations Committee has yet to determine whether Publicly Available Information is available or that a Credit Event has occurred):

- (i) any obligation of the Issuer to redeem or settle any Credit Security (including pursuant to Credit Security Condition 2(b)) or pay any amount of interest which would otherwise be due thereon (and the timing requirements of the Cash Settlement Date, Valuation Date, Relevant Valuation Date, NOPS Cut-off Date, Physical Settlement Period and any other provisions pertaining to settlement) shall, insofar as it relates to the relevant Reference Entity;
- (ii) if the Final Terms specifies that "Calculation and Settlement Suspension" applies, any obligation of the Issuer to redeem or settle any Credit Security (including pursuant to Credit Security Condition 2(b)) (and the timing requirements of the Cash Settlement Date, Valuation Date, Relevant Valuation Date, NOPS Cut-off Date, Physical Settlement Period and any other provisions pertaining to settlement) insofar as it relates to the relevant Reference Entity, or pay any amount of interest which would otherwise be due thereon or any obligation of the Calculation Agent to calculate any amount of interest (in each case, regardless of whether any such interest relates to the relevant Reference Entity), shall,

be and remain suspended until the date of the relevant DC Credit Event Announcement, DC No Credit Event Announcement or DC Credit Event Question Dismissal.

During such suspension period, the Issuer shall not be obliged to, nor entitled to, take any action in connection with the settlement of the Credit Securities, in each case insofar as they relate to the relevant Reference Entity, or in connection with the payment of any applicable interest on the Credit Securities, nor, if the Final Terms specifies that "Calculation and Settlement Suspension" applies, shall the Calculation Agent be obliged to take any action in connection with the calculation of any amount of interest (in each case, if the Final Terms specifies that "Calculation and Settlement Suspension" applies, regardless of whether any such interest relates to the relevant Reference Entity). Once the relevant DC Credit Event Announcement, DC No Credit Event Announcement or DC Credit Event Question Dismissal has occurred, such suspension shall terminate and any obligations so suspended shall resume on the Credit Security Business Day following such public announcement by ISDA, with the Issuer and, as the case may be, the Calculation Agent having the benefit of the full day notwithstanding when the suspension began. Any amount of interest so suspended shall, subject always to Credit Security Condition 3(a), become due on a date selected by the Calculation Agent falling not later than fifteen Business Days following such public announcement by ISDA.

For the avoidance of doubt, no interest shall accrue on any payment of interest or any other amounts which are deferred in accordance with this Credit Security Condition 2(e).

(f) Miscellaneous provisions relating to Redemption or Settlement

If the Credit Securities are partially redeemed or settled, the relevant Credit Securities or, if the Credit Securities are represented by a Global Security, such Global Security, shall be endorsed to reflect such partial redemption or settlement. Upon such partial redemption or settlement, the outstanding notional amount or

outstanding principal amount of each Credit Security shall be reduced for all purposes (including accrual of interest thereon) accordingly.

Redemption or settlement of any Credit Security in accordance with this Credit Security Condition 2, together with payment of interest, if any, due thereon shall discharge all or the relevant portion of the obligations of the Issuer in relation thereto.

Any amount payable under Credit Security Condition 2(b) shall be rounded downwards to the nearest sub-unit of the relevant currency.

3. Interest (Credit Notes and Credit Certificates only)

(a) Cessation of Interest Accrual

Upon the occurrence of an Event Determination Date in respect of any Reference Entity, interest on such Credit Certificate or Note (or, in the case of Linear Basket Credit Securities, the relevant portion thereof) shall cease to accrue with effect from and including:

(a) either:

(i) the Interest Payment Date; or

(ii) if so specified in the Final Terms, the Interest Period End Date,

immediately preceding such Event Determination Date (or, in the case of the first Interest Period, the Interest Commencement Date); or

(b) if so specified in the Final Terms, such Event Determination Date.

(b) Interest following Scheduled Maturity

Subject always to Credit Security Condition 3(a), if an Extension Notice has been given (other than pursuant to paragraph (d) of the definition of "Extension Notice"), each Credit Security (or, in the case of Linear Basket Credit Securities, the relevant portion thereof) which is outstanding following the Redemption Date or Maturity Date, as the case may be, shall continue to bear interest from (and including) the Redemption Date or Maturity Date, as the case may be, to (but excluding) the related Credit Security Settlement Date at a rate of interest equal to either:

(a) the rate that BNP Paribas would pay to an independent customer in respect of overnight deposits in the currency of the Credit Certificates; or

(b) such other rate as shall be specified for such purpose in the Final Terms.

For the avoidance of doubt, if an Extension Notice has been given pursuant to paragraph (d) of the definition thereof, no interest shall accrue from (and including) the Redemption Date or Maturity Date, as the case may be, to (but excluding) the related Credit Security Settlement Date.

(c) Interest Payment Dates

If the Credit Securities are redeemed pursuant to the W&C Security Conditions or the Note Conditions, as applicable, or these Credit Security Conditions, the Redemption Date, the Maturity Date, the Credit Security Settlement Date (if not the Redemption Date or Maturity Date, as the case may be), the Auction Settlement Date, the Cash Settlement Date or the last Delivery Date, as the case may be, shall be an Interest Payment Date in respect of each Credit Security (or, in the case of Linear Basket Credit Securities, the relevant portion

thereof) and the Issuer shall pay any interest that has accrued in respect of each Credit Security (or, as applicable, the relevant portion thereof) on such Interest Payment Date.

4. Physical Settlement (Credit Notes and Credit Certificates only)

(a) Delivery and payment

If Physical Settlement applies to any Credit Certificate or Note, then, upon the occurrence of an Event Determination Date, the Issuer shall, on or prior to the related Physical Settlement Date and subject to Credit Security Conditions 4(b), 4(c) and 4(f), redeem such Credit Security (or, in the case of Linear Basket Credit Securities, the relevant portion thereof), respectively, by:

- (a) Delivering a *pro rata* share of the Deliverable Obligations specified in the related Notice of Physical Settlement or NOPS Amendment Notice, as applicable; and
- (b) paying such Security's *pro rata* portion of the related Physical Settlement Adjustment Rounding Amount.

(b) Partial Cash Settlement Due to Impossibility or Illegality

If, due to an event beyond the control of the Issuer, it is impossible or illegal for the Issuer to Deliver or, due to an event beyond the control of the Issuer or any Holder, it is impossible or illegal for the Issuer or the relevant Holder to accept Delivery of any of the Deliverable Obligations (other than a Deliverable Obligation described in paragraph (d) of the definition of "Deliverable Obligation") specified in a Notice of Physical Settlement or any NOPS Amendment Notice, as applicable, on the related Physical Settlement Date, then on such date the Issuer shall Deliver any of the Deliverable Obligations specified in the Notice of Physical Settlement or any NOPS Amendment Notice, as applicable, for which it is possible and legal to take Delivery. If any Undeliverable Obligations have not been delivered on or prior to the Latest Permissible Physical Settlement Date, then Partial Cash Settlement shall apply with respect to such Undeliverable Obligations and, accordingly, the Issuer shall pay the relevant Holders an amount equal to the Partial Cash Settlement Amount to be apportioned *pro rata* amongst the relevant Holders on the Partial Cash Settlement Date.

(c) Non-Delivery of Deliverable Obligations

If the Issuer does not Deliver any Deliverable Obligation specified in a Notice of Physical Settlement or NOPS Amendment Notice, as applicable, other than as a result of an event or circumstance contemplated in Credit Security Condition 4(b) above (including following the occurrence of a Hedge Disruption Event), such failure shall not constitute an Event of Default or breach of agreement for the purpose of the Securities and the Issuer may continue to attempt to Deliver the Deliverable Obligations that are Bonds or Loans until the Extended Physical Settlement Date.

If, as at the relevant Extended Physical Settlement Date, any such Deliverable Obligations have not been Delivered, then Partial Cash Settlement shall apply with respect to such Deliverable Obligations and the Issuer shall pay to the Holders an amount equal to the Partial Cash Settlement Amount to be apportioned *pro rata* amongst the Holders on the Partial Cash Settlement Date.

(d) Aggregation and Rounding

Where a Holder holds Credit Notes or Credit Certificates in an aggregate nominal amount outstanding (or, in the case of Partly Paid Notes, a paid-up aggregate nominal amount outstanding) or aggregate notional amount outstanding (or, in the case of Partly Paid Certificates, a paid-up aggregate notional amount outstanding) greater than the Specified Denomination or Notional Amount respectively, the Outstanding Principal Balance of the Deliverable Obligations to be Delivered in respect of the Credit Security shall be aggregated for the purposes of this Credit Security Condition 4. If the Outstanding Principal Balance of the Deliverable

Obligations to be Delivered in respect of each Credit Securities to be redeemed pursuant to this Credit Security Condition 4(d) on any occasion is not equal to an authorised denomination (or integral multiple thereof) of such Deliverable Obligations then the Outstanding Principal Balance of Deliverable Obligations to be Delivered will be rounded down to the nearest authorised denomination or multiple thereof, or, if none, to zero. In such circumstances, the Deliverable Obligations that were not capable of being Delivered shall, if and to the extent practicable, be sold by the Issuer or such other agent as may be appointed by the Issuer for such purpose and, if they are so sold, the Issuer shall make payment in respect of each Credit Security in an amount equal to its *pro rata* share of the related net sale proceeds as soon as reasonably practicable following receipt thereof.

(e) Delivery and Fees

The Delivery of any of the Deliverable Obligations pursuant to the provisions of this Credit Security Condition 4 shall be made in such manner as the Issuer shall determine in a commercially reasonable manner, to be appropriate for such Delivery. Subject as set out in the definition of "Deliver":

- (a) any recordation, processing or similar fee reasonably incurred by the Issuer and/or any of its Affiliates and payable to the agent under a Loan in connection with an assignment or novation (where Deliverable Obligations include Assignable Loans or Consent Required Loans) or participation (where Deliverable Obligations include Direct Loan Participations) shall be payable by the relevant Holders, and if any Stamp Tax or transaction tax is payable in connection with the Delivery of any Deliverable Obligations, payment thereof shall be made by the relevant Holders; and
- (b) any other expenses arising from the Delivery and/or transfer of the Deliverable Obligations shall be for the account of the Holders or the Issuer, as appropriate, determined by the Calculation Agent in accordance with then current market conventions.

Delivery and/or transfer of the Deliverable Obligations shall be delayed until all expenses relating to such Delivery or transfer payable by the Holders have been paid to the satisfaction of the Issuer.

(f) Asset Transfer Notice

A Holder will not be entitled to any of the amounts or assets specified as being due to it in this Credit Security Condition 4(f) upon the occurrence of an Event Determination Date and delivery of the Notice of Physical Settlement unless it has presented or surrendered (as is appropriate) the relevant Credit Security and delivered an Asset Transfer Notice in accordance with W&C Security Condition 35.2(a) (*Asset Transfer Notices*) or Note Condition 4(b)(i) (*Physical Delivery*), as applicable. For so long as the Credit Securities are held in any clearing system, any communication from such clearing system on behalf of the Holder containing the information required in an Asset Transfer Notice will be treated as an Asset Transfer Notice. For as long as Bearer Securities are represented by a Global Security, surrender of Credit Securities for such purpose will be effected by presentation of the Global Security and its endorsement to note the principal amount or notional amount of Credit Securities to which the relevant Asset Transfer Notice relates.

(g) Credit Warrants

Physical Settlement shall not apply in relation to any Credit Warrants.

5. Provisions relating to Obligation Category and Characteristics and Deliverable Obligation Category and Characteristics

(a) Obligation Characteristics

If either of the Obligation Characteristics "Listed" or "Not Domestic Issuance" is specified in the related Final Terms or is applicable in respect of the applicable Transaction Type, the Final Terms shall be construed as

though the relevant Obligation Characteristic had been specified as an Obligation Characteristic only with respect to Bonds.

(b) Deliverable Obligation Category and Characteristics

If:

- (i) any of the Deliverable Obligation Characteristics "Listed", "Not Domestic Issuance" or "Not Bearer" is specified in the related Final Terms or is applicable in respect of the applicable Transaction Type, such Final Terms shall be construed as though such Deliverable Obligation Characteristic had been specified as a Deliverable Obligation Characteristic only with respect to Bonds;
- (ii) the Deliverable Obligation Characteristic "Transferable" is specified in the applicable Final Terms or is applicable in respect of the applicable Transaction Type, the Final Terms shall be construed as though such Deliverable Obligation Characteristic had been specified as a Deliverable Obligation Characteristic only with respect to Deliverable Obligations that are not Loans;
- (iii) any of the Deliverable Obligation Characteristics "Assignable Loan", "Consent Required Loan" or "Direct Loan Participation" is specified in the applicable Final Terms or is applicable in respect of the applicable Transaction Type, the Final Terms shall be construed as though such Deliverable Obligation Characteristic had been specified as a Deliverable Obligation Characteristic only with respect to Loans; and
- (iv) more than one of "Assignable Loan", "Consent Required Loan" and "Direct Loan Participation" are specified in the applicable Final Terms as Deliverable Obligation Characteristics or is applicable in respect of the applicable Transaction Type, the Deliverable Obligations may include any Loan that satisfies any one of such Deliverable Obligation Characteristics specified and need not satisfy all such Deliverable Obligation Characteristics.

(c) Relevant Guarantee

If an Obligation or a Deliverable Obligation is a Relevant Guarantee, the following will apply:

- (i) For purposes of the application of the Obligation Category or the Deliverable Obligation Category, the Relevant Guarantee shall be deemed to be described by the same category or categories as those that describe the Underlying Obligation.
- (ii) For purposes of the application of the Obligation Characteristics or the Deliverable Obligation Characteristics, both the Relevant Guarantee and the Underlying Obligation must satisfy on the relevant date or dates each of the applicable Obligation Characteristics or Deliverable Obligation Characteristics, if any, specified in the applicable Final Terms or applicable in respect of the relevant Transaction Type from the following list: "Not Subordinated", "Specified Currency", "Not Sovereign Lender", "Not Domestic Currency" and "Not Domestic Law".
- (iii) For purposes of the application of the Obligation Characteristics or the Deliverable Obligation Characteristics, only the Underlying Obligation must satisfy on the relevant date or dates each of the applicable Obligation Characteristics or the Deliverable Obligation Characteristics, if any, specified in the applicable Final Terms or applicable in respect of the relevant Transaction Type from the following list: "Listed", "Not Domestic Issuance", "Assignable Loan", "Consent Required Loan", "Direct Loan Participation", "Transferable", "Maximum Maturity", "Accelerated or Matured" and "Not Bearer".

(iv) For purposes of the application of the Obligation Characteristics or the Deliverable Obligation Characteristics to an Underlying Obligation, references to the Reference Entity shall be deemed to refer to the Underlying Obligor.

(v) For the avoidance of doubt the provisions of this Credit Security Condition 5 apply in respect of the definitions of "Obligation" and "Deliverable Obligation" as the context admits.

(d) Maximum Maturity

For purposes of the application of the Deliverable Obligation Characteristic "Maximum Maturity", remaining maturity shall be determined on the basis of the terms of the Deliverable Obligation in effect at the time of making such determination and, in the case of a Deliverable Obligation that is due and payable, the remaining maturity shall be zero.

(e) Financial Reference Entity Terms and Governmental Intervention

If "Financial Reference Entity Terms" and "Governmental Intervention" are specified as applicable in respect of a Reference Entity, if an obligation would otherwise satisfy a particular Obligation Characteristic or Deliverable Obligation Characteristic, the existence of any terms in the relevant obligation in effect at the time of making the determination which permit the Reference Entity's obligations to be altered, discharged, released or suspended in circumstances which would constitute a Governmental Intervention, shall not cause such obligation to fail to satisfy such Obligation Characteristic or Deliverable Obligation Characteristic.

(f) Prior Deliverable Obligation or Package Observable Bond

For purposes of determining the applicability of Deliverable Obligation Characteristics and the requirements specified in Credit Security Condition 8(b) (Mod R) and Credit Security Condition 8(c) (Mod Mod R) to a Prior Deliverable Obligation or a Package Observable Bond, any such determination shall be made by reference to the terms of the relevant obligation in effect immediately prior to the Asset Package Credit Event.

(g) Subordinated European Insurance Terms

If "Subordinated European Insurance Terms" is specified as applicable in respect of the Reference Entity, if an obligation would otherwise satisfy the "Maximum Maturity" Deliverable Obligation Characteristic, the existence of any Solvency Capital Provisions in such obligation shall not cause it to fail to satisfy such Deliverable Obligation Characteristic.

(h) Accrued Interest

With respect to any Credit Securities for which:

(i) "Physical Settlement" is specified to be the Settlement Method in the related Final Terms (or for which Physical Settlement is applicable as the Fallback Settlement Method), the Outstanding Principal Balance of the Deliverable Obligations being Delivered will exclude accrued but unpaid interest, unless "Include Accrued Interest" is specified in the related Final Terms, in which case, the Outstanding Principal Balance of the Deliverable Obligations being Delivered will include accrued but unpaid interest;

(ii) "Cash Settlement" is specified to be the Settlement Method in the related Final Terms (or if Cash Settlement is applicable as the Fallback Settlement Method), and:

(A) "Include Accrued Interest" is specified in the related Final Terms, the Outstanding Principal Balance of the Reference Obligation or Valuation Obligation, as applicable, shall include accrued but unpaid interest;

- (B) "Exclude Accrued Interest" is specified in the related Final Terms, the Outstanding Principal Balance of the Reference Obligation or Valuation Obligation, as applicable, shall not include accrued but unpaid interest; or
- (C) neither "Include Accrued Interest" nor "Exclude Accrued Interest" is specified in the related Final Terms, the Calculation Agent shall determine based on the then current market practice in the market of the Reference Obligation or Valuation Obligation, as applicable, whether the Outstanding Principal Balance of the Reference Obligation or Valuation Obligation shall include or exclude accrued but unpaid interest and, if applicable, the amount thereof; or
- (iii) Credit Security Condition 4(b) (Partial Cash Settlement Due to Impossibility or Illegality) or Credit Security Condition 4(c) (Non-Delivery of Deliverable Obligations) is applicable, the Calculation Agent shall determine, based on the then current market practice in the market of the relevant Undeliverable Obligation, Undeliverable Loan Obligation, Undeliverable Participation or Unassignable Obligation, whether such Quotations shall include or exclude accrued but unpaid interest.

(i) **Asset Package Delivery**

"**Asset Package Delivery**" will apply if an Asset Package Credit Event occurs, unless (i) such Asset Package Credit Event occurs prior to the Credit Event Backstop Date determined in respect of the Credit Event specified in the Credit Event Notice or DC Credit Event Announcement applicable to the Event Determination Date, or (ii) if the Reference Entity is a Sovereign, no Package Observable Bond exists immediately prior to such Asset Package Credit Event.

If the "Sovereign No Asset Package Delivery Supplement" is applicable in respect of a Reference Entity, then, notwithstanding the above, it shall be deemed that no Package Observable Bond exists with respect to such Reference Entity that is a Sovereign (even if such a Package Observable Bond has been published by ISDA) and accordingly, Asset Package Delivery shall not apply thereto.

6. Successors

(a) **Provisions for determining a Successor**

- (i) The Calculation Agent may determine, following any succession (or, in relation to a Reference Entity that is a Sovereign, a Sovereign Succession Event) and with effect from the Succession Date, any Successor or Successors under the definition of "Successor"; provided that the Calculation Agent will not make such determination if, at the time of determination, the DC Secretary has publicly announced that the relevant Credit Derivatives Determinations Committee has Resolved that there is no Successor based on the relevant succession to Relevant Obligations.

The Calculation Agent will make all calculations and determinations required to be made under the definition of "Successor" (or the provisions relating to the determination of a Successor) on the basis of Eligible Information.

In calculating the percentages used to determine whether an entity qualifies as a Successor under the definition of "Successor", if there is a Steps Plan, the Calculation Agent shall consider all related successions in respect of such Steps Plan in aggregate as if forming part of a single succession.

- (ii) An entity may only be a Successor if:

- (I) either (A) the related Succession Date occurs on or after the Successor Backstop Date, or (B) such entity is a Universal Successor in respect of which the Succession Date occurred on or after January 1, 2014;

- (II) the Reference Entity had at least one Relevant Obligation outstanding immediately prior to the Succession Date and such entity succeeds to all or part of at least one Relevant Obligation of the Reference Entity; and
- (III) where the Reference Entity is a Sovereign, such entity succeeded to the Relevant Obligations by way of a Sovereign Succession Event.
- (iii) In the case of an exchange offer, the determination required pursuant to the definition of "Successor" shall be made on the basis of the outstanding principal balance of Relevant Obligations exchanged and not on the basis of the outstanding principal balance of the Exchange Bonds or Loans.
- (iv) If two or more entities (each, a "**Joint Potential Successor**") jointly succeed to a Relevant Obligation (the "**Joint Relevant Obligation**") either directly or as a provider of a Relevant Guarantee, then (i) if the Joint Relevant Obligation was a direct obligation of the Reference Entity, it shall be treated as having been succeeded to by the Joint Potential Successor (or Joint Potential Successors, in equal parts) which succeeded to such Joint Relevant Obligation as direct obligor or obligors, or (ii) if the Joint Relevant Obligation was a Relevant Guarantee, it shall be treated as having been succeeded to by the Joint Potential Successor (or Joint Potential Successors, in equal parts) which succeeded to such Joint Relevant Obligation as guarantor or guarantors, if any, or otherwise by each Joint Potential Successor in equal parts.

(b) Single Reference Entity

Where the Credit Securities are Single Reference Entity Credit Securities and a Succession Date has occurred and more than one Successor has been identified, each such Credit Security will be deemed for all purposes to have been divided, with effect from the Succession Date, into the same number of new Credit Securities as there are Successors with the following terms:

- (i) each Successor will be a Reference Entity for the purposes of one of the deemed new Credit Securities;
- (ii) in respect of each deemed new Credit Security, the Reference Entity Notional Amount will be the Reference Entity Notional Amount applicable to the original Reference Entity divided by the number of Successors; and
- (iii) all other terms and conditions of the original Credit Securities will be replicated in each deemed new Credit Security except that the Calculation Agent shall make such modifications as it determines are required in order to preserve the economic effects of the original Credit Securities in the deemed new Credit Securities (considered in aggregate).

(c) Nth-to-Default

Where the Credit Securities are Nth-to-Default Credit Securities:

- (i) where a Succession Date has occurred in respect of a Reference Entity (other than a Reference Entity in respect of which a Credit Event has occurred) and more than one Successor has been identified, each such Credit Security will be deemed for all purposes to have been divided, with effect from the Succession Date, into a number of new Credit Securities equal to the number of Successors. Each such new Credit Security shall include a Successor and each and every one of the unaffected Reference Entities and the provisions of Credit Security Condition 6(b)(i) to (iii) (inclusive) shall apply thereto;
- (ii) if "Substitution" is specified as not being applicable in the Final Terms, where any Reference Entity (the "**Surviving Reference Entity**") (other than a Reference Entity that is subject to the Succession

Date) would be a Successor to any other Reference Entity (the "**Legacy Reference Entity**") pursuant to a Succession Date, such Surviving Reference Entity shall be deemed to be a Successor to the Legacy Reference Entity; and

(iii) if "Substitution" is specified as being applicable in the Final Terms, where the Surviving Reference Entity (other than a Reference Entity that is subject to the Succession Date) would be a Successor to a Legacy Reference Entity pursuant to a Succession Date:

(A) such Surviving Reference Entity shall be deemed not to be a Successor to the Legacy Reference Entity; and

(B) the Replacement Reference Entity shall be deemed to be a Successor to the Legacy Reference Entity.

(d) Linear Basket

Where the Credit Securities are Linear Basket Credit Securities, and one or more Successors have been identified in respect of a Reference Entity that has been the subject of a related Succession Date (the "**Affected Entity**"), then, with effect from the Succession Date:

(i) the Affected Entity will no longer be a Reference Entity (unless it is a Successor as described in (ii) below);

(ii) each Successor will be deemed a Reference Entity (in addition to each Reference Entity which is not an Affected Entity);

(iii) the Reference Entity Notional Amount for each such Successor will equal the Reference Entity Notional Amount of the Affected Entity divided by the number of Successors;

(iv) the Calculation Agent may make any modifications to the terms of the Credit Securities which it determines may be required to preserve the economic effects of the Credit Securities prior to the Succession Date (considered in the aggregate); and

(v) for the avoidance of doubt, a Reference Entity may, as a result of a Succession Date, be represented in the basket with respect to multiple Reference Entity Notional Amounts for the Successor(s) of such Reference Entity.

7. Provisions relating to LPN Reference Entities and CoCo Supplement

(a) LPN Reference Entities

The following provisions shall apply if the relevant Final Terms provide that "LPN Reference Entity" is applicable:

(i) Multiple Holder Obligation will not be applicable with respect to any Reference Obligation and any Underlying Loan;

(ii) each Reference Obligation will be an Obligation notwithstanding anything to the contrary in these Credit Security Conditions, and in particular, that the obligation is not an obligation of the Reference Entity;

(iii) each Reference Obligation will be a Deliverable Obligation notwithstanding anything to the contrary in these Credit Security Conditions, and in particular, that the obligation is not an obligation of the Reference Entity;

- (iv) for the avoidance of doubt, with respect to any LPN Reference Obligation that specifies an Underlying Loan or an Underlying Finance Instrument, the outstanding principal balance shall be determined by reference to the Underlying Loan or Underlying Finance Instrument (as applicable) relating to such LPN Reference Obligation; and
- (v) the "Not Subordinated" Obligation Characteristic and Deliverable Obligation Characteristic shall be construed as if no Reference Obligation was specified in respect of the Reference Entity.

(b) Provisions relating to CoCo Supplement

The following provisions shall apply in respect of a Reference Entity if the "CoCo Supplement" is applicable:

- (i) If, with respect to one or more Obligations and in relation to an aggregate amount of not less than the Default Requirement, the operation of one or more CoCo Provisions results in (i) a permanent or temporary reduction of the amount of principal payable at redemption or (ii) a conversion of principal into shares or another instrument, such event shall be deemed to constitute a Governmental Intervention falling within paragraph (a) of the definition thereof.
- (ii) A CoCo Provision shall be deemed to be a provision which permits a Governmental Intervention for all purposes.
- (iii) The following terms shall have the following meanings:

"Coco Provision" means, with respect to an Obligation, a provision which requires (i) a permanent or temporary reduction of the amount of principal payable at redemption or (ii) a conversion of principal into shares or another instrument, in each case, if the Capital Ratio is at or below the Trigger Percentage.

"Trigger Percentage" means the trigger percentage specified in respect of the Reference Entity (or if no such trigger percentage is specified, 5.25 per cent.).

"Capital Ratio" means the ratio of capital to risk weighted assets applicable to the Obligation, as described in the terms thereof in effect from time to time.

(a) Multiple Credit Event Notices (Credit Notes and Credit Certificates only)

Upon the occurrence of an M(M)R Restructuring with respect to a Reference Entity:

- (i) the Calculation Agent may deliver multiple Credit Event Notices with respect to such M(M)R Restructuring, each such notice setting forth the amount of the relevant Reference Entity Notional Amount to which such notice applies (the **"Exercise Amount"**) provided that if the Credit Event Notice does not specify an Exercise Amount, the then outstanding Reference Entity Notional Amount (and not a portion thereof) will be deemed to have been specified as the Exercise Amount;
- (ii) the provisions of these Credit Security Conditions shall be deemed to apply to an aggregate outstanding principal amount or aggregate outstanding notional amount equal to the Exercise Amount only and all the provisions shall be construed accordingly; and
- (iii) the Exercise Amount in connection with a Credit Event Notice describing an M(M)R Restructuring must be an amount that is at least 1,000,000 units of the Specified Currency (or, if Japanese Yen, 100,000,000 units) in which the Reference Entity Notional Amount is denominated or any integral multiple thereof or the entire relevant Reference Entity Notional Amount.

In the case of an Nth-to-Default Credit Security, once an Event Determination Date has occurred in respect of the Nth Reference Entity where the Credit Event is an M(M)R Restructuring, no further Credit Event Notices may be delivered in respect of any other Reference Entity (save to the extent that the Credit Securities are deemed to have been divided into new Credit Securities pursuant to Credit Security Condition 6).

If any Credit Security is subject to partial settlement in accordance with this Credit Security Condition 8, the relevant Credit Security or, if the Credit Securities are represented by a Global Security, such Global Security shall be endorsed to reflect such partial settlement.

This Credit Security Condition 8(a) shall not apply in relation to any Credit Warrants.

(b) Mod R

If (i) "Physical Settlement" or "Cash Settlement" is specified to be the Settlement Method in the related Final Terms (or is applicable as the Fallback Settlement Method), (ii) "Mod R" is specified as applicable in respect of the Reference Entity and (iii) Restructuring is the only Credit Event specified in a Credit Event Notice, then unless the Deliverable Obligation or, as applicable, Valuation Obligation is a Prior Deliverable Obligation and Asset Package Delivery applies due to a Governmental Intervention, a Deliverable Obligation or, as applicable, Valuation Obligation may only be specified (or deemed specified) in the Notice of Physical Settlement or in any NOPS Amendment Notice or selected by the Issuer to form part of the related Valuation Obligations Portfolio, as applicable, if such Deliverable Obligation or, as applicable, Valuation Obligation:

(A) is a Fully Transferable Obligation; and

(B) has a final maturity date not later than the applicable Restructuring Maturity Limitation Date,

in each case, as of both the NOPS Effective Date and the Delivery Date or, as applicable, as of the Relevant Valuation Date.

(c) Mod Mod R

If (i) "Physical Settlement" or "Cash Settlement" is specified to be the Settlement Method in the related Final Terms (or is applicable as the Fallback Settlement Method), (ii) "Mod Mod R" is specified as applicable in respect of the Reference Entity and (iii) Restructuring is the only Credit Event specified in a Credit Event Notice, then unless the Deliverable Obligation or, as applicable, Valuation Obligation is a Prior Deliverable Obligation and Asset Package Delivery applies due to a Governmental Intervention, a Deliverable Obligation or, as applicable, Valuation Obligation may only be specified (or deemed specified) in the Notice of Physical Settlement or in any NOPS Amendment Notice or selected by the Issuer to form part of the related Valuation Obligations Portfolio, as applicable, if it (A) is a Conditionally Transferable Obligation and (B) has a final maturity date not later than the applicable Modified Restructuring Maturity Limitation Date, in each case, as of both the NOPS Effective Date and the Delivery Date or, as applicable, as of the Relevant Valuation Date. Notwithstanding the foregoing, for purposes of this paragraph, in the case of a Restructured Bond or Loan with a final maturity date on or prior to the 10-year Limitation Date, the final maturity date of such Bond or Loan shall be deemed to be the earlier of such final maturity date or the final maturity date of such Bond or Loan immediately prior to the relevant Restructuring.

If the relevant Deliverable Obligation specified in the Notice of Physical Settlement (or in any NOPS Amendment Notice, as applicable) or, as applicable, the relevant Valuation Obligation selected, is a Conditionally Transferable Obligation with respect to which consent is required to novate, assign or transfer and the requisite consent is refused (whether or not a reason is given for such refusal and, where a reason is given for such refusal, regardless of that reason), or is not received by the Physical Settlement Date or, as applicable, the Relevant Valuation Date (in which case it shall be deemed to have been refused), the Issuer shall, as soon as reasonably practicable, notify the relevant Holders of such refusal (or deemed refusal) and:

- (i) each such Holder may designate a third party (which may or may not be an Affiliate of such Holder) to take Delivery of the Deliverable Obligation on its behalf; and
- (ii) if a Holder does not designate a third party that takes Delivery on or prior to the date which is three Credit Security Business Days after the Physical Settlement Date, then the Issuer will redeem the Credit Securities for which Delivery has not occurred, by payment of the relevant Partial Cash Settlement Amount to such Holder. For the avoidance of doubt Credit Security Condition 4(b) will not apply to this paragraph.

(d) General Terms relating to Mod R and Mod Mod R

For the purposes of making a determination pursuant to "Mod R" and "Mod Mod R", final maturity date shall, subject to Credit Security Condition 8(c) (Mod Mod R), be determined on the basis of the terms of the Deliverable Obligation or, as applicable, Valuation Obligation in effect at the time of making such determination and, in the case of a Deliverable Obligation or, as applicable, Valuation Obligation that is due and payable, the final maturity date shall be deemed to be the date on which such determination is made.

(e) Multiple Holder Obligations

Notwithstanding anything to the contrary in the definition of "Restructuring" and related provisions, the occurrence of, agreement to, or announcement of, any of the events described in sub-paragraph (a)(i) to (a)(v) (inclusive) thereof shall not be a Restructuring unless the Obligation in respect of any such events is a Multiple Holder Obligation, provided that any obligation that is a Bond shall be deemed to satisfy the requirements of sub-paragraph (b) of the definition of "Multiple Holder Obligation".

9. Miscellaneous Provisions relating to Credit Securities

(a) Determinations of the Calculation Agent

The determination by the Calculation Agent of any amount or of any state of affairs, circumstance, event or other matter, or the formation of any opinion or the exercise of any discretion required or permitted to be determined, formed or exercised by the Calculation Agent pursuant to the Credit Security Conditions shall (in the absence of manifest error) be final and binding on the Issuer, the Guarantor (if applicable) and the Holders. Unless otherwise expressly stated, the Calculation Agent is not bound to follow or act in accordance with any determination of the relevant Credit Derivatives Determinations Committee. Whenever the Calculation Agent is required to make any determination it may, *inter alia*, decide issues of construction and legal interpretation. If the Calculation Agent chooses to rely on the determinations of the relevant Credit Derivatives Determinations Committee it may do so without liability. Any delay, deferral or forbearance by the Calculation Agent in the performance or exercise of any of its obligations or its discretion under the Credit Securities including, without limitation, the giving of any notice by it to any person, shall not affect the validity or binding nature of any later performance or exercise of such obligation or discretion, and none of the Calculation Agent, the Issuer or the Guarantor (if applicable) shall, in the absence of wilful misconduct and gross negligence, bear any liability in respect of, or consequent upon, any such delay, deferral or forbearance.

(b) Reversal of DC Resolutions

If, where a calculation or determination with respect to the Credit Securities has been made by the Calculation Agent in reliance upon a DC Resolution or otherwise resulted from a DC Resolution, ISDA publicly announces that such DC Resolution has been reversed by a subsequent DC Resolution, such reversal will be taken into account for the purposes of any subsequent calculations, provided that the ISDA public announcement occurs prior to the DC Resolution Reversal Cut-off Date (or where redeemed or settled in part, save to the extent of any such redemption or settlement). The Calculation Agent, acting in a commercially reasonable manner, will make any adjustment to any future payments as are required to take account of such

reversal, including any payment of additional interest or any reduction in any interest or any other amount payable under the Credit Securities. For the avoidance of doubt, no accruals of interest shall be taken into account when calculating any such adjustment payment.

(c) Change in Standard Terms and Market Conventions

The Calculation Agent, acting reasonably, may (but shall not be obligated to) modify these Credit Security Conditions from time to time with effect from a date designated by the Calculation Agent to the extent reasonably necessary to ensure consistency with prevailing market standards or market trading conventions, which are, pursuant to the agreement of leading dealers in the credit derivatives market or any relevant ISDA committee, a market-wide protocol, any applicable law or regulation or the rules of any applicable exchange or clearing system, applicable to any Notional Credit Derivative Transaction or Hedge Transaction entered into prior to such date or terms thereof. The Calculation Agent shall notify the Issuer and the Holders as soon as reasonably practicable upon making any such determination. For the avoidance of doubt, the Calculation Agent may not, without the consent of the Issuer and the Trustee, amend, pursuant to this Credit Security Condition 9(c) any of the terms and conditions of the Credit Securities other than the Credit Security Conditions.

In particular, the Calculation Agent may make such modifications as may be necessary to ensure consistency with any successor provisions ("**Successor Provisions**") which are published by ISDA and which supersede the 2003 ISDA Credit Derivatives Definitions, the 2003 ISDA Credit Derivatives Definitions as supplemented by the July 2009 Supplement and/or the 2014 ISDA Credit Derivatives Definitions, as the case may be, for the purposes of credit derivatives transactions generally (including with respect to transactions which are entered into prior to the relevant date of publication and which are outstanding as of that date) and/or may apply and rely on determinations of the Credit Derivatives Determinations Committee made in respect of a relevant Reference Entity under any such Successor Provisions notwithstanding any discrepancy between the terms of such Successor Provisions and these Credit Security Conditions.

This Credit Security Condition 9(c) shall apply unless the related Final Terms specifies that "Change in Standard Terms and Market Conventions" is not applicable.

(d) Delivery of Notices

As soon as reasonably practicable after receiving a Credit Event Notice or Notice of Publicly Available Information from the Calculation Agent, the Issuer shall promptly inform, or shall procure that the Calculation Agent informs the Holders in accordance with W&C Security Condition 10 or Note Condition 16, as applicable. Resolutions of the Credit Derivatives Determinations Committee are, as of the date hereof, available on ISDA's website (www.isda.org) (or any successor website thereto).

(e) Effectiveness of Notices

A notice given by telephone by the Issuer or the Calculation Agent will be deemed to have been delivered at the time the telephone conversation takes place.

(f) Excess Amounts

If, on a Business Day, the Calculation Agent reasonably determines that an Excess Amount has been paid to Holders on or prior to such day, then following notification of the determination of an Excess Amount to the Issuer and Holders in accordance with W&C Security Condition 10 or Note Condition 16, as applicable, the

Issuer may deduct any such Excess Amount from future payments in relation to the Credit Securities (whether interest or principal) or may reduce the amount of any assets deliverable under the terms of the Credit Securities to the extent that it determines, acting reasonably, to be necessary to compensate for such Excess Amount.

(g) Provisions Relating to Timing

Subject to Credit Security Condition 9(e) and Credit Security Condition 9(h), in order to determine the day on which an event occurs for purposes of the Credit Security Conditions, the demarcation of days shall be made by reference to Greenwich Mean Time (or, if the Transaction Type of the Reference Entity relates to Japan, Tokyo time), irrespective of the time zone in which such event occurred. Any event occurring at midnight shall be deemed to have occurred immediately prior to midnight.

(h) Payment Timing

Notwithstanding the "Credit Event Notice" definition and Credit Security Condition 9(g) (Provisions Relating to Timing), if a payment is not made by the Reference Entity on its due date or, as the case may be, on the final day of the relevant Grace Period, then such failure to make a payment shall be deemed to have occurred on such day prior to midnight Greenwich Mean Time (or, if the Transaction Type of the Reference Entity relates to Japan, Tokyo time), irrespective of the time zone of its place of payment.

(i) Business Day Convention

If the last day of any period calculated by reference to calendar days falls on a day that is not a Business Day, such last day shall be subject to adjustment in accordance with the applicable Business Day Convention; provided that if the last day of any period is the Credit Event Backstop Date or the Successor Backstop Date, such last day shall not be subject to any adjustment in accordance with any Business Day Convention.

(j) No Frustration

In the absence of other reasons, the Credit Securities will not be considered frustrated, or otherwise void or voidable (whether for mistake or otherwise) solely because:

- (i) the Reference Entity does not exist on, or ceases to exist on or following, the Trade Date; and/or
- (ii) Obligations, Deliverable Obligations or the Reference Obligation do not exist on, or cease to exist on or following, the Trade Date.

- (a) The Calculation Agent shall identify the Substitute Reference Obligation in accordance with paragraphs (c), (d) and (e) below to replace the Non-Standard Reference Obligation; provided that the Calculation Agent will not identify an obligation as the Substitute Reference Obligation if, at the time of the determination, such obligation has already been rejected as the Substitute Reference Obligation by the relevant Credit Derivatives Determinations Committee and such obligation has not changed materially since the date of the relevant DC Resolution.
- (b) If any of the events set forth under paragraphs (i) or (iii) of the definition of "Substitution Event" have occurred with respect to the Non-Standard Reference Obligation, the Non-Standard Reference Obligation will cease to be the Reference Obligation (other than for purposes of the "Not Subordinated" Obligation Characteristic or "Not Subordinated" Deliverable Obligation Characteristic and paragraph (c)(ii) below). If the event set forth in paragraph (ii) of the definition of "Substitution Event" has occurred with respect to the Non-Standard Reference Obligation and no Substitute Reference Obligation is available, the Non-Standard Reference Obligation will continue to be the

Reference Obligation until the Substitute Reference Obligation is identified or, if earlier, until any of the events set forth under paragraphs (i) or (iii) of the definition of "Substitution Event" occur with respect to such Non-Standard Reference Obligation.

- (c) The Substitute Reference Obligation shall be an obligation that on the Substitution Date:
- (i) is a Borrowed Money obligation of the Reference Entity (either directly or as provider of a guarantee);
 - (ii) satisfies the Not Subordinated Deliverable Obligation Characteristic as of the date it was issued or incurred (without reflecting any change to the priority of payment after such date) and on the Substitution Date; and
 - (iii) (A) if the Non-Standard Reference Obligation was a Conforming Reference Obligation when issued or incurred and immediately prior to the Substitution Event Date:
 - (I) is a Deliverable Obligation (other than a Loan) determined in accordance with paragraph (a) of the definition of "Deliverable Obligation"; or if no such obligation is available,
 - (II) is a Loan (other than a Private-side Loan) which constitutes a Deliverable Obligation determined in accordance with paragraph (a) of the definition of "Deliverable Obligation";
 - (B) if the Non-Standard Reference Obligation was a Bond (or any other Borrowed Money obligation other than a Loan) which was a Non-Conforming Reference Obligation when issued or incurred and/or immediately prior to the Substitution Event Date:
 - (I) is a Non-Conforming Substitute Reference Obligation (other than a Loan); or if no such obligation is available,
 - (II) is a Deliverable Obligation (other than a Loan) determined in accordance with paragraph (a) of the definition of "Deliverable Obligation"; or if no such obligation is available,

 - (C) if the Non-Standard Reference Obligation was a Loan which was a Non-Conforming Reference Obligation when incurred and/or immediately prior to the Substitution Event Date:
 - (I) is a Non-Conforming Substitute Reference Obligation which is a Loan (other than a Private-side Loan); or if no such obligation is available,

The Substitute Reference Obligation determined by the Calculation Agent shall, without further action, replace the Non-Standard Reference Obligation.
- (e) If a Substitution Event has occurred with respect to the Non-Standard Reference Obligation and the Calculation Agent determines that no Substitute Reference Obligation is available for the Non-Standard Reference Obligation, then, subject to paragraph (a) and notwithstanding the fact that the Non-Standard Reference Obligation may have ceased to be the Reference Obligation in accordance with paragraph (b), the Calculation Agent shall continue to attempt to identify the Substitute Reference Obligation.

For purposes of identification of the Non-Standard Reference Obligation, any change in the Non-Standard Reference Obligation's CUSIP or ISIN number or other similar identifier will not, in and of itself, constitute a Substitution Event.

(c) Additional Provisions

If, in accordance with the specified Transaction Type or otherwise, any Additional Provisions are applicable, these Credit Security Conditions shall take effect subject to the provisions thereof.

(d) Linear Basket Credit Securities

If the Credit Securities are Linear Basket Credit Securities, then the provisions of these Credit Security Conditions relating to redemption or settlement of Credit Securities following satisfaction of Conditions to Settlement, extension of maturity of Credit Securities on delivery of an Extension Notice, cessation or suspension of accrual of interest or accrual and payment of interest following (in the case of Credit Certificates) the Redemption Date, (in the case of Credit Notes) the Maturity Date or (in the case of Credit Warrants) the Expiration Date shall apply separately with respect to each Reference Entity and a portion of each Credit Security corresponding to the Reference Entity Notional Amount divided by the number of Credit Securities then in issue. The remaining provisions of these Credit Security Conditions shall be construed accordingly.

2. Redemption

(a) Redemption or Expiration absent Satisfaction of Conditions to Settlement

The Issuer will redeem each Credit Security (in the case of Notes or Certificates) on the related Credit Security Settlement Date (as such date may be extended in accordance with the definition thereof) by payment of an amount equal to (in the case of Certificates) the Cash Settlement Amount or (in the case of Notes) the outstanding principal amount of such Security (or, in the case of Linear Basket Credit Securities, the relevant portion thereof) (together with interest, if any, payable thereon) unless:

- (a) if the applicable Settlement Method is Auction Settlement, by payment of its *pro rata* share (such amount to be apportioned *pro rata* amongst the outstanding (and in the case of Partly Paid Notes, paid-up) nominal amount or outstanding (and, in the case of Partly Paid Certificates, paid-up) notional amount of each Credit Security corresponding to the (in the case of Credit Notes) Calculation Amount or (in the case of Credit Certificates or Credit Warrants) Notional Amount) of the Auction Settlement Amount on the Auction Settlement Date, unless a Fallback Settlement Event occurs, in which event the Issuer shall perform its respective payment and/or delivery obligations in accordance with the applicable Fallback Settlement Method. If the Conditions to Settlement with respect to a new Credit Event are satisfied following the occurrence of a Fallback Settlement Event with respect to a first Credit Event and no Fallback Settlement Event occurs with respect to such new Credit Event, the Issuer shall, if it so elects on or prior to a related Valuation Date or Delivery Date, redeem or settle, as applicable, the Credit Securities in accordance with this Credit Security Condition 2(b)(a) by Auction Settlement;

Notes, paid-up) nominal amount or outstanding (and, in the case of Partly Paid Certificates, paid-up) notional amount of each Credit Security corresponding to the (in the case of Credit Notes) Calculation Amount or (in the case of Credit Certificates or Credit Warrants) Notional Amount) of the Credit Event Cash Settlement Amount on the Cash Settlement Date.

Where the Credit Securities are Nth-to-Default Credit Securities, the Conditions to Settlement shall not be satisfied with respect to the Credit Securities until the Conditions to Settlement are satisfied with respect to the Nth Reference Entity. Where the Credit Securities are Nth-to-Default Credit Securities and the Conditions to Settlement are satisfied with respect to more than one Reference Entity on the same day, the Calculation Agent shall determine the order in which such Conditions to Settlement were satisfied.

(c) Redemption following a Merger Event

If this Credit Security Condition 2(c) is specified as applicable in the applicable Final Terms, in the event that in the determination of the Calculation Agent a Merger Event has occurred, the Issuer may give notice to the Holders in accordance with W&C Security Condition 10 or Note Condition 16, as applicable, and (in the case of Credit Notes or Credit Certificates) redeem or (in the case of Credit Warrants) cancel all but not some only of the Credit Securities on the Merger Event Redemption Date, and if the Credit Securities are so redeemed or, as the case may be, cancelled, the Issuer shall pay an amount to each Holder in respect of each Credit Security, which amount shall be the fair market value of the Credit Security taking into account the Merger Event less the cost to the Issuer and/or its Affiliates of unwinding any underlying related hedging arrangements (including without limitation any Unwind Costs), all as determined by the Calculation Agent in a commercially reasonable manner.

(d) Additional Credit Linked Security Disruption Events

If the Calculation Agent determines that an Additional Credit Linked Security Disruption Event has occurred, the Issuer may redeem (or settle, as applicable) the Credit Securities by giving notice to Holders in accordance with W&C Security Condition 10 or Note Condition 16, as applicable. If the Credit Securities are so redeemed (or settled, as applicable), the Issuer will pay an amount to each Holder in respect of each Credit Security equal to the fair market value of such Credit Security taking into account the Additional Credit Linked Security Disruption Event, less the cost to the Issuer and/or its Affiliates of unwinding any underlying related hedging arrangements all as determined by the Calculation Agent in a commercially reasonable manner. Payments will be made in such manner as shall be notified to the Holders in accordance with W&C Security Condition 10 or Note Condition 16, as applicable.

(e) Suspension of Obligations

If a Credit Event Resolution Request Date occurs or if a notice is delivered to ISDA as contemplated in the definition of "Credit Event Resolution Request Date" in relation to any Reference Entity, then (unless the Issuer otherwise elects by notice to the Calculation Agent and the Holders) from the date delivery of such notice is effective (and notwithstanding that the relevant Credit Derivatives Determinations Committee has yet to determine whether Publicly Available Information is available or that a Credit Event has occurred):

- (i) any obligation of the Issuer to redeem or settle any Credit Security (including pursuant to Credit Security Condition 2(b)) or pay any amount of interest which would otherwise be due thereon shall, insofar as it relates to the relevant Reference Entity; or

- (ii) if the Final Terms specifies that "Calculation and Settlement Suspension" applies, any obligation of the Issuer to redeem or settle any Credit Security (including pursuant to Credit Security Condition 2(b)) insofar as it relates to the relevant Reference Entity, or pay any amount of interest which would otherwise be due thereon or any obligation of the Calculation Agent to calculate any amount of interest (in each case, regardless of whether any such interest relates to the relevant Reference Entity), shall,

be and remain suspended until such time as ISDA subsequently publicly announces that the relevant Credit Derivatives Determinations Committee has Resolved with respect to such Reference Entity:

- (a) the matters described in sub-paragraphs (a) and (b) of the definition of "Credit Event Resolution Request Date"; or
- (b) not to determine such matters.

During such suspension period, the Issuer shall not be obliged to, nor entitled to, take any action in connection with the settlement of the Credit Securities, in each case insofar as they relate to the relevant Reference Entity, or in connection with the payment of any applicable interest on the Credit Securities, nor, if the Final Terms specifies that "Calculation and Settlement Suspension" applies, shall the Calculation Agent be obliged to take any action in connection with the calculation of any amount of interest (in each case, if the Final Terms specifies that "Calculation and Settlement Suspension" applies, regardless of whether any such interest relates to the relevant Reference Entity). Once ISDA has publicly announced that the relevant Credit Derivatives Determinations Committee has Resolved the matters set out in sub-paragraphs (a) and (b) above, such suspension shall terminate and any obligations so suspended shall resume on the basis of such Resolution on the Credit Security Business Day following such public announcement by ISDA, with the Issuer and, as the case may be, the Calculation Agent having the benefit of the full day notwithstanding when the suspension began. Any amount of interest so suspended shall, subject always to Credit Security Condition 3(a), become due on a date selected by the Calculation Agent falling not later than fifteen Business Days following such public announcement by ISDA.

For the avoidance of doubt, no interest shall accrue on any payment of interest or other amounts which are deferred in accordance with this Credit Security Condition 2(e).

(f) Miscellaneous provisions relating to Redemption or Settlement

If the Credit Securities are partially redeemed or settled, the relevant Credit Securities or, if the Credit Securities are represented by a Global Security, such Global Security, shall be endorsed to reflect such partial redemption or settlement. Upon such partial redemption or settlement, the outstanding notional amount or outstanding principal amount of each Credit Security shall be reduced for all purposes (including accrual of interest thereon) accordingly.

Redemption or settlement of any Credit Security in accordance with this Credit Security Condition 2, together with payment of interest, if any, due thereon shall discharge all or the relevant portion of the obligations of the Issuer in relation thereto.

Any amount payable under Credit Security Condition 2(b) shall be rounded downwards to the nearest sub-unit of the relevant currency.

3. Interest (Credit Notes and Certificates only)

(a) Cessation of Interest Accrual

Upon the occurrence of an Event Determination Date in respect of any Reference Entity, interest on such Credit Certificate or Note (or, in the case of Linear Basket Credit Securities, the relevant portion thereof) shall cease to accrue with effect from and including either:

(a) the:

(i) Interest Payment Date; or

(ii) if so specified in the Final Terms, Interest Period End Date,

immediately preceding such Event Determination Date (or, in the case of the first Interest Period, the Interest Commencement Date); or

(b) if so specified in the Final Terms, such Event Determination Date.

(b) Interest following Scheduled Maturity

Subject always to Credit Security Condition 2(a), if an Extension Notice has been given (other than pursuant to paragraph (d) of the definition of "Extension Notice"), each Credit Security (or, in the case of Linear Basket Credit Securities, the relevant portion thereof) which is outstanding following the Redemption Date or Maturity Date, as the case may be, shall continue to bear interest from (and including) the Redemption Date or Maturity Date, as the case may be, to (but excluding) the related Credit Security Settlement Date at a rate of interest equal to either:

(a) the rate that BNP Paribas would pay to an independent customer in respect of overnight deposits in the currency of the Credit Certificates; or

(b) such other rate as shall be specified for such purpose in the Final Terms.

For the avoidance of doubt, if an Extension Notice has been given pursuant to paragraph (d) of the definition thereof, no interest shall accrue from (and including) the Redemption Date or Maturity Date, as the case may be, to (but excluding) the related Credit Security Settlement Date.

(c) Interest Payment Dates

If the Credit Securities are redeemed pursuant to the W&C Security Conditions or the Note Conditions, as applicable, or these Credit Security Conditions, the Redemption Date, the Maturity Date, the Credit Security Settlement Date (if not the Redemption Date or Maturity Date, as the case may be), the Auction Settlement Date, the Cash Settlement Date or the last Delivery Date, as the case may be, shall be an Interest Payment Date in respect of each Credit Security (or, in the case of Linear Basket Credit Securities, the relevant portion thereof) and the Issuer shall pay any interest that has accrued in respect of each Credit Security (or, as applicable, the relevant portion thereof) on such Interest Payment Date.

4. Physical Settlement (Credit Notes and Certificates only)

(a) Delivery and payment

If Physical Settlement applies to any Credit Certificate or Credit Note, then, upon the satisfaction of the related Conditions to Settlement, the Issuer shall, on or prior to the related Physical Settlement Date

and subject to Credit Security Conditions 4(b), 4(c) and 4(f), redeem such Credit Security (or, in the case of Linear Basket Credit Securities, the relevant portion thereof), respectively, by:

- (a) Delivering a *pro rata* share of the Deliverable Obligations specified in the related Notice of Physical Settlement; and
- (b) paying such Security's *pro rata* portion of the related Physical Settlement Adjustment Rounding Amount.

(b) Partial Cash Settlement Due to Impossibility or Illegality

If, due to an event beyond the control of the Issuer, it is impossible or illegal for the Issuer to Deliver or, due to an event beyond the control of the Issuer or any Holder, it is impossible or illegal for the Issuer or the relevant Holder to accept Delivery of any of the Deliverable Obligations specified in a Notice of Physical Settlement on the related Physical Settlement Date, then on such date the Issuer shall Deliver any of the Deliverable Obligations specified in the Notice of Physical Settlement for which it is possible and legal to take Delivery. If any Undeliverable Obligations have not been delivered on or prior to the Latest Permissible Physical Settlement Date, then Partial Cash Settlement shall apply with respect to such Undeliverable Obligations and, accordingly, the Issuer shall pay the relevant Holders an amount equal to the Partial Cash Settlement Amount to be apportioned *pro rata* amongst the relevant Holders on the Partial Cash Settlement Date.

(c) Non-Delivery of Deliverable Obligations

If the Issuer does not Deliver any Deliverable Obligation specified in a Notice of Physical Settlement other than as a result of an event or circumstance contemplated in Credit Security Condition 4(b) above (including following the occurrence of a Hedge Disruption Event), such failure shall not constitute an Event of Default for the purpose of the Securities and the Issuer may continue to attempt to Deliver the Deliverable Obligations that are Bonds or Loans until the Extended Physical Settlement Date.

If, as at the relevant Extended Physical Settlement Date, any such Deliverable Obligations have not been Delivered, then Partial Cash Settlement shall apply with respect to such Deliverable Obligations and the Issuer shall pay to the Holders an amount equal to the Partial Cash Settlement Amount to be apportioned *pro rata* amongst the Holders on the Partial Cash Settlement Date.

(d) Aggregation and Rounding

Where a Holder holds Credit Notes or Certificates in an aggregate nominal amount outstanding (or, in the case of Partly Paid Notes, a paid-up aggregate nominal amount outstanding) or aggregate notional amount outstanding (or, in the case of Partly Paid Certificates, a paid-up aggregate notional amount outstanding) greater than the Specified Denomination or Notional Amount respectively, the Outstanding Principal Balance of the Deliverable Obligations to be Delivered in respect of the Credit Security shall be aggregated for the purposes of this Credit Security Condition 4. If the Outstanding Principal Balance of the Deliverable Obligations to be Delivered in respect of each Credit Securities to be redeemed pursuant to this Credit Security Condition 4(d) on any occasion is not equal to an authorised denomination (or integral multiple thereof) of such Deliverable Obligations then the Outstanding Principal Balance of Deliverable Obligations to be Delivered will be rounded down to the nearest authorised denomination or multiple thereof, or, if none, to zero. In such circumstances, the Deliverable Obligations that were not capable of being Delivered shall, if and to the extent practicable, be sold by the Issuer or such other agent as may be appointed by the Issuer for such purpose and, if they are so sold, the Issuer shall make payment in respect of each Credit Security in an amount equal to

its *pro rata* share of the related net sale proceeds as soon as reasonably practicable following receipt thereof.

(e) Delivery and Fees

The Delivery of any of the Deliverable Obligations pursuant to the provisions of this Credit Security Condition 4 shall be made in such manner as the Issuer shall determine in a commercially reasonable manner, to be appropriate for such Delivery. Subject as set out in the definition of "Deliver":

- (a) any recordation, processing or similar fee reasonably incurred by the Issuer and/or any of its Affiliates and payable to the agent under a Loan in connection with an assignment (where Deliverable Obligations include Assignable Loans or Consent Required Loans) shall be payable by the relevant Holders, and if any Stamp Tax is payable in connection with the Delivery of any Deliverable Obligations, payment thereof shall be made by the relevant Holders; and
- (b) any other expenses arising from the Delivery and/or transfer of the Deliverable Obligations shall be for the account of the Holders or the Issuer, as appropriate, determined in accordance with then current market conventions.

Delivery and/or transfer of the Deliverable Obligations shall be delayed until all expenses relating to such Delivery or transfer payable by the Holders have been paid to the satisfaction of the Issuer.

(f) Asset Transfer Notice

A Holder will not be entitled to any of the amounts or assets specified as being due to it in this Credit Security Condition 4(f) upon the satisfaction of the Conditions to Settlement unless it has presented or surrendered (as is appropriate) the relevant Credit Security and delivered an Asset Transfer Notice in accordance with W&C Security Condition 35.2(a) (*Asset Transfer Notices*) or Note Condition 4(b)(i) (*Physical Delivery*), as applicable. For so long as the Credit Securities are held in any clearing system, any communication from such clearing system on behalf of the Holder containing the information required in an Asset Transfer Notice will be treated as an Asset Transfer Notice. For as long as Bearer Securities are represented by a Global Security, surrender of Credit Securities for such purpose will be effected by presentation of the Global Security and its endorsement to note the principal amount or notional amount of Credit Securities to which the relevant Asset Transfer Notice relates.

(g) Credit Warrants

Physical Settlement shall not apply in relation to any Credit Warrants.

5. Provisions relating to Obligation Category and Characteristics and Deliverable Obligation Category and Characteristics

(a) Obligation Characteristics

If the Obligation Characteristic "Listed" is specified in the applicable Final Terms or is applicable in respect of the applicable Transaction Type, the Final Terms shall be construed as though Listed had been specified as an Obligation Characteristic only with respect to Bonds and shall only be relevant if Bonds are covered by the selected Obligation Category.

(b) Deliverable Obligation Category and Characteristics

If:

- (i) either of the Deliverable Obligation Characteristics "Listed" or "Not Bearer" is specified in the applicable Final Terms or is applicable in respect of the applicable Transaction Type, the Final Terms shall be construed as though such Deliverable Obligation Characteristic had been specified as a Deliverable Obligation Characteristic only with respect to Bonds and shall only be relevant if Bonds are covered by the selected Deliverable Obligation Category;
 - (ii) the Deliverable Obligation Characteristic "Transferable" is specified in the applicable Final Terms or is applicable in respect of the applicable Transaction Type, the Final Terms shall be construed as though such Deliverable Obligation Characteristic had been specified as a Deliverable Obligation Characteristic only with respect to Deliverable Obligations that are not Loans (and shall only be relevant to the extent that obligations other than Loans are covered by the selected Deliverable Obligation Category);
 - (iii) any of the Deliverable Obligation Characteristics "Assignable Loan", "Consent Required Loan" or "Direct Loan Participation" is specified in the applicable Final Terms or is applicable in respect of the applicable Transaction Type, the Final Terms shall be construed as though such Deliverable Obligation Characteristic had been specified as a Deliverable Obligation Characteristic only with respect to Loans and shall only be relevant if Loans are covered by the selected Deliverable Obligation Category; and
 - (iv) any of Payment, Borrowed Money, Loan or Bond or Loan is specified as the Deliverable Obligation Category and more than one of Assignable Loan, Consent Required Loan and Direct Loan Participation are specified in the applicable Final Terms as Deliverable Obligation Characteristics or is applicable in respect of the applicable Transaction Type, the Deliverable Obligations may include any Loan that satisfies any one of such Deliverable Obligation Characteristics specified and need not satisfy all such Deliverable Obligation Characteristics.
- (c) Qualifying Guarantee

If an Obligation or a Deliverable Obligation is a Qualifying Guarantee, the following will apply:

- (i) For purposes of the application of the Obligation Category or the Deliverable Obligation Category, the Qualifying Guarantee shall be deemed to be described by the same category or categories as those that describe the Underlying Obligation.
- (ii) For purposes of the application of the Obligation Characteristics or the Deliverable Obligation Characteristics, both the Qualifying Guarantee and the Underlying Obligation must satisfy on the relevant date each of the applicable Obligation Characteristics or the Deliverable Obligation Characteristics, if any, specified in the applicable Final Terms or applicable in respect of the relevant Transaction Type from the following list: Specified Currency, Not Sovereign Lender, Not Domestic Currency and Not Domestic Law. For these purposes, unless otherwise specified in the applicable Final Terms, (A) the lawful currency of any of Canada, Japan, Switzerland, the United Kingdom or the United States of America or the euro shall not be a Domestic Currency and (B) the laws of England and the laws of the State of New York shall not be a Domestic Law.
- (iii) For purposes of the application of the Obligation Characteristics or the Deliverable Obligation Characteristics, only the Qualifying Guarantee must satisfy on the relevant date the Obligation Characteristic or the Deliverable Obligation Characteristic of Not Subordinated, if specified in the applicable Final Terms or if applicable in respect of the relevant Transaction Type.

- (iv) For purposes of the application of the Obligation Characteristics or the Deliverable Obligation Characteristics, only the Underlying Obligation must satisfy on the relevant date each of the applicable Obligation Characteristics or the Deliverable Obligation Characteristics, if any, specified in the applicable Final Terms or applicable in respect of the relevant Transaction Type from the following list: Listed, Not Contingent, Not Domestic Issuance, Assignable Loan, Consent Required Loan, Direct Loan Participation, Transferable, Maximum Maturity, Accelerated or Matured and Not Bearer.
- (v) For purposes of the application of the Obligation Characteristics or the Deliverable Obligation Characteristics to an Underlying Obligation, references to the Reference Entity shall be deemed to refer to the Underlying Obligor.
- (vi) The terms "Outstanding Principal Balance" and "Due and Payable Amount" (as they are used in the Terms and Conditions, including without limitation, the definitions of "Credit Event Cash Settlement Amount" and "Quotation Amount"), when used in connection with Qualifying Guarantees are to be interpreted to be the then "Outstanding Principal Balance" or "Due and Payable Amount", as applicable, of the Underlying Obligation which is supported by a Qualifying Guarantee.
- (vii) For the avoidance of doubt the provisions of this Credit Security Condition 5 apply in respect of the definitions of "Obligation" and "Deliverable Obligation" as the context admits.

6. Succession Event

(a) Single Reference Entity

Where the Credit Securities are Single Reference Entity Credit Securities and a Succession Event has occurred and more than one Successor has been identified, each such Credit Security will be deemed for all purposes to have been divided into the same number of new Credit Securities as there are Successors with the following terms:

- (i) each Successor will be a Reference Entity for the purposes of one of the deemed new Credit Securities;
- (ii) in respect of each deemed new Credit Security, the Reference Entity Notional Amount will be the Reference Entity Notional Amount applicable to the original Reference Entity divided by the number of Successors; and
- (iii) all other terms and conditions of the original Credit Securities will be replicated in each deemed new Credit Security except to the extent that modification is required, as determined by the Calculation Agent, to preserve the economic effects of the original Credit Securities in the deemed new Credit Securities (considered in the aggregate).

(b) Nth-to-Default

Where the Credit Securities are Nth-to-Default Credit Securities:

- (i) where a Succession Event has occurred in respect of a Reference Entity (other than a Reference Entity in respect of which a Credit Event has occurred) and more than one Successor has been identified, each such Credit Security will be deemed for all purposes to have been divided into a number of new Credit Securities equal to the number of Successors. Each such new Credit Security shall include a Successor and each and every one of the

Reference Entities unaffected by such Succession Event and the provisions of Credit Security Condition 6(b)(i) to (iii) (inclusive) shall apply thereto;

- (ii) if "Substitution" is specified as not being applicable in the Final Terms, where any Reference Entity (the "**Surviving Reference Entity**") (other than a Reference Entity that is subject to the Succession Event) would be a Successor to any other Reference Entity (the "**Legacy Reference Entity**") pursuant to a Succession Event, such Surviving Reference Entity shall be deemed to be a Successor to the Legacy Reference Entity; and
- (iii) if "Substitution" is specified as being applicable in the Final Terms, where the Surviving Reference Entity (other than a Reference Entity that is subject to the Succession Event) would be a Successor to a Legacy Reference Entity pursuant to a Succession Event:
 - (A) such Surviving Reference Entity shall be deemed not to be a Successor to the Legacy Reference Entity; and
 - (B) the Replacement Reference Entity shall be deemed to be a Successor to the Legacy Reference Entity.

(c) Linear Basket

Where the Credit Securities are Linear Basket Credit Securities, and one or more Successors have been identified in respect of a Reference Entity that has been the subject of a related Succession Event (the "**Affected Entity**"):

- (i) the Affected Entity will no longer be a Reference Entity (unless it is a Successor as described in (ii) above);
- (ii) each Successor will be deemed a Reference Entity (in addition to each Reference Entity which is not an Affected Entity);
- (iii) the Reference Entity Notional Amount for each such Successor will equal the Reference Entity Notional Amount of the Affected Entity divided by the number of Successors;
- (iv) the Calculation Agent may make any modifications to the terms of the Credit Securities which may be required to preserve the economic effects of the Credit Securities prior to the Succession Event (considered in the aggregate); and
- (v) for the avoidance of doubt, a Reference Entity may, as a result of a Succession Event, be represented in the basket with respect to multiple Reference Entity Notional Amounts for the Successor(s) of such Reference Entity.

(d) Substitute Reference Obligations

Where:

- (i) a Reference Obligation is specified in the applicable Final Terms;
- (ii) one or more Successors to the Reference Entity have been identified; and
- (iii) any one or more such Successors have not assumed the Reference Obligation,

a Substitute Reference Obligation will be determined in accordance with the definition of "Substitute Reference Obligation".

7. Provisions relating to LPN Reference Entities

The following provisions shall apply if the relevant Final Terms provide that "LPN Reference Entity" is applicable:

- (a) Multiple Holder Obligation will not be applicable with respect to any Reference Obligation and any Underlying Loan;
- (b) each Reference Obligation will be an Obligation notwithstanding anything to the contrary in these Credit Security Conditions, and in particular, that the obligation is not an obligation of the Reference Entity;
- (c) each Reference Obligation will be a Deliverable Obligation notwithstanding anything to the contrary in these Credit Security Conditions, and in particular, that the obligation is not an obligation of the Reference Entity;
- (d) for the avoidance of doubt, with respect to any LPN Reference Obligation that specifies an Underlying Loan or an Underlying Financial Instrument, the outstanding principal balance shall be determined by reference to the Underlying Loan or Underlying Finance Instrument (as applicable) relating to such LPN Reference Obligation; and
- (e) the "Not Subordinated" Obligation Characteristic and Deliverable Obligation Characteristic shall be construed as if no Reference Obligation was specified in respect of the Reference Entity.

8. Restructuring Credit Event

- (a) Multiple Credit Event Notices (Credit Notes and Certificates only)

Upon the occurrence of a Restructuring Credit Event with respect to a Reference Entity for which Restructuring is an applicable Credit Event and either "Restructuring Maturity Limitation and Fully Transferable Obligation Applicable" or "Modified Restructuring Maturity Limitation and Conditionally Transferable Obligation Applicable" is specified in the Final Terms or is applicable in respect of the relevant Transaction Type:

- (i) the Calculation Agent may deliver multiple Credit Event Notices with respect to such Restructuring Credit Event, each such notice setting forth the amount of the relevant Reference Entity Notional Amount to which such Restructuring Credit Event applies (the "**Exercise Amount**") provided that if the Credit Event Notice does not specify an Exercise Amount, the then outstanding Reference Entity Notional Amount (and not a portion thereof) will be deemed to have been specified as the Exercise Amount;
- (ii) the provisions of these Credit Security Conditions shall be deemed to apply to an aggregate outstanding principal amount or aggregate outstanding notional amount equal to the Exercise Amount only and all the provisions shall be construed accordingly;
- (iii) the Exercise Amount in connection with a Credit Event Notice describing a Credit Event other than a Restructuring must be equal to the relevant Reference Entity Notional Amount (and not a portion thereof); and
- (iv) the Exercise Amount in connection with a Credit Event Notice describing a Restructuring must be an amount that is at least 1,000,000 units of the Specified Currency (or, if Japanese

Yen, 100,000,000 units) in which the Reference Entity Notional Amount is denominated or any integral multiple thereof or the entire relevant Reference Entity Notional Amount.

In the case of an Nth-to-Default Credit Security, once the Conditions to Settlement have been satisfied in respect of the Nth Reference Entity where the Credit Event is a Restructuring Credit Event, no further Credit Event Notices may be delivered in respect of any other Reference Entity (save to the extent that the Credit Securities are deemed to have been divided into new Credit Securities pursuant to Credit Security Condition 6).

If any Credit Security is subject to partial settlement in accordance with this Credit Security Condition 8, the relevant Credit Security or, if the Credit Securities are represented by a Global Security, such Global Security shall be endorsed to reflect such partial settlement.

For the avoidance of doubt, this Credit Security Condition 8 shall not be applicable in respect of a Reference Entity for which Restructuring is an applicable Credit Event and neither "Restructuring Maturity Limitation and Fully Transferable Obligation Applicable" nor "Modified Restructuring Maturity Limitation and Conditionally Transferable Obligation Applicable" is specified in the Final Terms or is applicable in respect of the relevant Transaction Type.

This Credit Security Condition 8(a) shall not apply in relation to any Credit Warrants.

(b) Restructuring Maturity Limitation and Fully Transferable Obligation

In respect of any Reference Entity for which Restructuring is an applicable Credit Event, if "Restructuring Maturity Limitation and Fully Transferable Obligation Applicable" is specified in the Final Terms or is applicable in respect of the Transaction Type, and Restructuring is the only Credit Event specified in a Credit Event Notice, then a Deliverable Obligation or, as applicable, Valuation Obligation, may be specified in a Notice of Physical Settlement, any NOPS Amendment Notice or, as applicable, selected by the Issuer to form part of the related Valuation Obligations Portfolio only if it:

- (i) is a Fully Transferable Obligation; and
- (ii) has a final maturity date not later than the Restructuring Maturity Limitation Date.

(c) Modified Restructuring Maturity Limitation and Conditionally Transferable Obligation Applicable

In respect of any Reference Entity for which Restructuring is an applicable Credit Event, if "Modified Restructuring Maturity Limitation and Conditionally Transferable Obligation Applicable" is specified in the Final Terms or is applicable in respect of the applicable Transaction Type, and Restructuring is the only Credit Event specified in a Credit Event Notice, then a Deliverable Obligation or, as applicable, Valuation Obligation, may be specified in the Notice of Physical Settlement, any NOPS Amendment Notice or, as applicable, selected by the Issuer to form part of the related Valuation Obligations Portfolio, only if it:

- (i) is a Conditionally Transferable Obligation; and
- (ii) has a final maturity date not later than the applicable Modified Restructuring Maturity Limitation Date.

In the event that the requisite consent in relation to a Deliverable Obligation which is a Conditionally Transferable Obligation is refused (whether or not a reason is given for such refusal and, where a reason is given for such refusal, regardless of that reason) or is not received by the Physical Settlement

Date, the Issuer shall, as soon as reasonably practicable, notify the relevant Holders of such refusal (or deemed refusal) and:

- (iii) each such Holder may designate a third party (which may or may not be an Affiliate of such Holder) to take Delivery of the Deliverable Obligation on its behalf; and
- (iv) if a Holder does not designate a third party that takes Delivery on or prior to the date which is three Credit Security Business Days after the Physical Settlement Date, then the Issuer will redeem the Credit Securities which have not been Delivered by payment of the relevant Partial Cash Settlement Amount to such Holder. For the avoidance of doubt Credit Security Condition 4(b) will not apply to this paragraph.

(d) Multiple Holder Obligations

Notwithstanding anything to the contrary in the definition of "Restructuring" and related provisions, the occurrence of, agreement to, or announcement of, any of the events described in sub-paragraph (a)(i) to (a)(v) (inclusive) thereof shall not be a Restructuring unless the Obligation in respect of any such events is a Multiple Holder Obligation, provided that any obligation that is a Bond shall be deemed to satisfy the requirements of sub-paragraph (b) of the definition of "Multiple Holder Obligation".

9. Miscellaneous Provisions relating to Credit Securities

(a) Determinations of the Calculation Agent

The determination by the Calculation Agent of any amount or of any state of affairs, circumstance, event or other matter, or the formation of any opinion or the exercise of any discretion required or permitted to be determined, formed or exercised by the Calculation Agent pursuant to the Credit Security Conditions shall (in the absence of manifest error) be final and binding on the Issuer, the Guarantor (if applicable) and the Holders. Unless otherwise expressly stated, the Calculation Agent is not bound to follow or act in accordance with any determination of the relevant Credit Derivatives Determinations Committee. Whenever the Calculation Agent is required to make any determination it may, *inter alia*, decide issues of construction and legal interpretation. If the Calculation Agent chooses to rely on the determinations of the relevant Credit Derivatives Determinations Committee it may do so without liability. Any delay, deferral or forbearance by the Calculation Agent in the performance or exercise of any of its obligations or its discretion under the Credit Securities including, without limitation, the giving of any notice by it to any person, shall not affect the validity or binding nature of any later performance or exercise of such obligation or discretion, and none of the Calculation Agent, the Issuer or the Guarantor (if applicable) shall, in the absence of wilful misconduct and gross negligence, bear any liability in respect of, or consequent upon, any such delay, deferral or forbearance.

If, where the Calculation Agent has relied upon a DC Resolution for the purposes of making a calculation or determination with respect to the Credit Securities, ISDA publicly announces that such DC Resolution has been reversed by a subsequent DC Resolution, such reversal will be taken into account for the purposes of any subsequent calculations, provided that the ISDA public announcement occurs prior to the DC Resolution Reversal Cut-off Date (or where redeemed or settled in part, to the extent of any such redemption or settlement). The Calculation Agent, acting in a commercially reasonable manner, will make any adjustment to any future payments as are required to take account of such reversal, including any payment of additional interest or any reduction in any interest or any other amount payable under the Credit Securities. For the avoidance of doubt, no accruals of interest shall be taken into account when calculating any such adjustment payment.

(b) Change in Standard Terms and Market Conventions

The Calculation Agent, acting reasonably, may (but shall not be obligated to) modify these Credit Security Conditions from time to time with effect from a date designated by the Calculation Agent to the extent reasonably necessary to ensure consistency with prevailing market standards or market trading conventions, which are, pursuant to the agreement of leading dealers in the credit derivatives market or any relevant ISDA committee, a market-wide protocol, any applicable law or regulation or the rules of any applicable exchange or clearing system, applicable to any Notional Credit Derivative Transaction or Hedge Transaction entered into prior to such date or terms thereof. The Calculation Agent shall notify the Issuer and the Holders as soon as reasonably practicable upon making any such determination. For the avoidance of doubt, the Calculation Agent may not, without the consent of the Issuer and the Trustee, amend, pursuant to this Credit Security Condition 9(c) any of the terms and conditions of the Credit Securities other than the Credit Security Conditions.

In particular, the Calculation Agent may make such modifications as may be necessary to ensure consistency with any successor provisions which are published by ISDA and which supersede the 2003 ISDA Credit Derivatives Definitions and/or the 2003 ISDA Credit Derivatives Definitions as supplemented by the July 2009 Supplement ("**Successor Provisions**") for the purposes of credit derivatives transactions generally (including with respect to transactions which are entered into prior to the relevant date of publication and which are outstanding as of that date) and/or may apply and rely on determinations of the Credit Derivatives Determinations Committee made in respect of a relevant Reference Entity under any such Successor Provisions notwithstanding any discrepancy between the terms of such Successor Provisions and these Credit Security Conditions.

This Credit Security Condition 9(c) shall apply unless the related Final Terms specifies that "Change in Standard Terms and Market Conventions" is not applicable.

(c) Delivery of Notices

As soon as reasonably practicable after receiving a Credit Event Notice or Notice of Publicly Available Information from the Calculation Agent, the Issuer shall promptly inform, or shall procure that the Calculation Agent informs the Holders in accordance with W&C Security Condition 10 or Note Condition 16, as applicable. Resolutions of the Credit Derivatives Determinations Committee are, as of the date hereof, available on ISDA's website (www.isda.org/credit).

(d) Effectiveness of Notices

Any notice referred to in Credit Security Condition 9(d) above which is delivered on or prior to 5.00 p.m. (London time) on a London Business Day is effective on such date and if delivered after such time or on a day that is not a London Business Day, is deemed effective on the next following London Business Day.

(e) Excess Amounts

If, on a Business Day, the Calculation Agent reasonably determines that an Excess Amount has been paid to Holders on or prior to such day, then following notification of the determination of an Excess Amount to the Issuer and Holders in accordance with W&C Security Condition 10 or Note Condition 16, as applicable, the Issuer may deduct any such Excess Amount from future payments in relation to the Credit Securities (whether interest or principal) or may reduce the amount of any assets deliverable under the terms of the Credit Securities to the extent that it determines, acting reasonably, to be necessary to compensate for such Excess Amount.

10. Definitions

In these Credit Security Conditions:

"Accelerated or Matured" means an obligation under which the total amount owed, whether at maturity, by reason of acceleration, upon termination or otherwise (other than amounts in respect of default interest, indemnities, tax gross-ups and other similar amounts), is, or on, or prior to the Delivery Date will be, due and payable in full in accordance with the terms of such obligation, or would have been but for, and without regard to, any limitation imposed under any applicable insolvency laws.

"Accreted Amount" means, with respect to an Accreting Obligation, an amount equal to:

- (a) the sum of:
 - (i) the original issue price of such obligation; and
 - (ii) the portion of the amount payable at maturity that has accreted in accordance with the terms of the obligation (or as otherwise described below); less
- (b) any cash payments made by the obligor thereunder that, under the terms of such obligation, reduce the amount payable at maturity (unless such cash payments have been accounted for in (a)(ii) above), in each case calculated as of the earlier of:
 - (A) the date on which any event occurs that has the effect of fixing the amount of a claim in respect of principal; and
 - (B) the Delivery Date or applicable Valuation Date, as the case may be.

Such Accreted Amount shall include any accrued and unpaid periodic cash interest payments (as determined by the Calculation Agent) only if "Include Accrued Interest" is specified as being applicable in the relevant Final Terms. If an Accreting Obligation is expressed to accrete pursuant to a straight-line method or if such Obligation's yield to maturity is not specified in, nor implied from, the terms of such Obligation, then, for the purposes of (a)(ii) above, the Accreted Amount shall be calculated using a rate equal to the yield to maturity of such Obligation. " paid-up average daily outstanding amount of such Certificates".

- (g) In Condition 32(h) (Accrual of Interest), the second sentence thereof shall be deleted and replaced with the following:

"If such Certificate is redeemed early, (i) if the applicable Final Terms specify that Accrual to Redemption is applicable, interest will cease to accrue on the due date for redemption or (ii) if the applicable Final Terms specify that Accrual to Redemption is not applicable, no interest shall accrue or be payable in respect of which the relevant payment date has not occurred on or prior to the due date for redemption of such Certificate (or if the applicable Final Terms specify that Accrual to Preceding IPED is applicable, interest will cease to accrue from and including the Interest Period End Date immediately preceding (A) the date on which notice is given for the early redemption of such Certificate or (B) if there is no such notice, the due date

for early redemption of such Certificate), unless in either case payment of principal and/or delivery of all assets deliverable is improperly withheld or refused."

ANNEX A TO THE ADDITIONAL TERMS AND CONDITIONS FOR CREDIT SECURITIES

AUCTION SETTLEMENT TERMS ANNEX

If an Event Determination Date occurs with respect to the Credit Securities and Auction Settlement applies, the Auction Settlement Amount with respect to the Credit Securities will be calculated based on the Auction Final Price for the Reference Entity (if any). This Annex contains a summary of certain provisions of the Form of Credit Derivatives Auction Settlement Terms set forth at Annex B to the 2009 ISDA Credit Derivatives Determinations Committees and Auction Settlement Supplement to the 2003 ISDA Credit Derivatives Definitions, published by the International Swaps and Derivatives Association, Inc. ("**ISDA**") on 12 March 2009 (the "**Form of Auction Settlement Terms**") and is qualified by reference to the detailed provisions thereof and is subject to amendment from time to time of the Rules, including any amendment following the 2009 ISDA Credit Derivatives Determinations Committees, Auction Settlement and Restructuring Supplement dated 14 July 2009, as published by ISDA (the "**July 2009 Supplement**"). The July 2009 Supplement extended the auction hardwiring process to Restructuring credit events. Following certain Restructuring credit events, more than one auction may be held and there may be more than one Auction Final Price and credit default swaps are grouped into buckets by maturity and depending on which party triggers the credit default swap. Deliverable obligations will be identified for each bucket (any deliverable obligations included in a shorter bucket will also be deliverable for all longer buckets). If the Credit Derivatives Determinations Committee determines to hold an auction for a particular bucket, then that auction will be held according to the existing auction methodology that has previously been used for Bankruptcy and Failure to Pay credit events as described in the summary below, except that the deliverable obligations will be limited to those falling within the relevant maturity bucket.

The following does not purport to be a complete summary and prospective investors must refer to the Form of Auction Settlement Terms for detailed information regarding the auction methodology set forth therein (the "**Auction Methodology**"). The Auction and the Auction Methodology apply to credit default swaps on the Reference Entity and do not apply specifically to the Credit Securities. A copy of the Form of Auction Settlement Terms may be inspected at the offices of the Issuer and is also currently available at www.isda.org (or any successor website thereto).

Holders should also be aware that this summary of the Form of the Auction Settlement Terms is accurate only as of the date hereof and the Form of Auction Settlement Terms may be amended from time to time without consultation with Holders. At any time after the date of this annex, the latest Form of the Auction Settlement Terms will be available on the ISDA website at www.isda.org (or any successor website thereto). Further, notwithstanding the fact that the form of Auction Settlement Terms (as may be amended from time to time) appears on the ISDA website, Holders should note that the Credit Derivatives Determinations Committees have the power to amend the form of Credit Derivatives Auction Settlement Terms for a particular auction and that this summary may therefore not be accurate in all cases.

Capitalized terms used but not defined in this summary have the meaning specified in the Rules and the Form of Auction Settlement Terms. All times of day in this summary refer to such times in London.

Publication of Credit Derivatives Auction Settlement Terms

Pursuant to the Credit Derivatives Determinations Committees Rules set forth in Annex A to the 2009 ISDA Credit Derivatives Determinations Committees and Auction Settlement Supplement to the 2003 ISDA Credit Derivatives Definitions (published on March 12, 2009) (the "**Rules**"), a Credit Derivatives Determinations Committee may determine that a Credit Event has occurred in respect of a Reference Entity (such entity, an "**Affected Reference Entity**") and that one or more auctions will be held in order to settle affected transactions referencing such Affected Reference Entity based upon an Auction Final Price determined in accordance with an auction procedure as set forth in the Form of Auction Settlement Terms (each, an "**Auction**"). If an Auction

is to be held, the Credit Derivatives Determinations Committee will publish Credit Derivatives Auction Settlement Terms in respect of the relevant Affected Reference Entity, based upon the Form of Auction Settlement Terms. In doing so, the Credit Derivatives Determinations Committee will make several related determinations, including the date on which the Auction will be held (the "**Auction Date**"), the institutions that will act as participating bidders in the Auction (the "**Participating Bidders**") and the supplemental terms that are detailed in Schedule 1 to the Form of Auction Settlement Terms. The Credit Derivatives Determinations Committee may also amend the Form of Auction Settlement Terms for a particular auction and may determine that a public comment period is necessary in order to effect such an amendment if such amendment is not contemplated by the Rules.

Auction Methodology

Determining the Auction Currency Rate

On the Auction Currency Fixing Date, the Administrators will determine the rate of conversion (each, an "**Auction Currency Rate**") as between the Relevant Currency and the currency of denomination of each Deliverable Obligation (each, a "**Relevant Pairing**") by reference to a Currency Rate Source or, if such Currency Rate Source is unavailable, by seeking mid-market rates of conversion from Participating Bidders (determined by each such Participating Bidder in a commercially reasonable manner) for each such Relevant Pairing. If rates of conversion are sought from Participating Bidders and more than three such rates are obtained by the Administrators, the Auction Currency Rate will be the arithmetic mean of such rates, without regard to the rates having the highest and lowest values. If exactly three rates are obtained, the Auction Currency Rate will be the rate remaining after disregarding the rates having the highest and lowest values. For this purpose, if more than one rate has the same highest or lowest value, then one of such rates shall be disregarded. If fewer than three rates are obtained, it will be deemed that the Auction Currency Rate cannot be determined for such Relevant Pairing.

Initial Bidding Period

During the Initial Bidding Period, Participating Bidders will submit to the Administrators: (a) Initial Market Bids; (b) Initial Market Offers; (c) Dealer Physical Settlement Requests; and (d) Customer Physical Settlement Requests (to the extent received from customers).

Initial Market Bids and Initial Market Offers are firm quotations, expressed as percentages, to enter into credit derivative transactions in respect of the Affected Reference Entity on terms equivalent to the Representative Auction-Settled Transaction.

The Initial Market Bid and Initial Market Offer submitted by each Participating Bidder must differ by no more than the designated Maximum Initial Market Bid-Offer Spread and must be an integral multiple of the Relevant Pricing Increment (each as determined by the Credit Derivatives Determinations Committee and specified in the Credit Derivatives Auction Settlement Terms in respect of the relevant Affected Reference Entity). The Initial Market Bid must be less than the Initial Market Offer.

Dealer Physical Settlement Requests and Customer Physical Settlement Requests are firm commitments, submitted by a Participating Bidder, on its own behalf or on behalf of a customer, as applicable, to enter into a Representative Auction-Settled Transaction, in each case, as seller (in which case, such commitment will be a "**Physical Settlement Buy Request**") or as buyer (in which case, such commitment will be a "**Physical Settlement Sell Request**"). Each Dealer Physical Settlement Request must be, to the best of such Participating Bidder's knowledge and belief, in the same direction as, and not in excess of, its Market Position. Each Customer Physical Settlement Request must be, to the best of the relevant customer's knowledge and belief (aggregated with all Customer Physical Settlement Requests submitted by such customer), in the same direction as, and not in excess of, its Market Position.

If the Administrators do not receive valid Initial Market Bids and Initial Market Offers from at least a minimum number of Participating Bidders (as determined by the Credit Derivatives Determinations Committee and specified in the Credit Derivatives Auction Settlement Terms in respect of the relevant Affected Reference Entity), the timeline will be adjusted and the Initial Bidding Period extended, with the Auction recommencing at such time(s) specified by the Administrators, otherwise it will proceed as follows.

Determination of Open Interest, Initial Market Midpoint and Adjustment Amounts

The Administrators will calculate the Open Interest, the Initial Market Midpoint and any Adjustment Amounts in respect of the Auction.

The Open Interest is the difference between all Physical Settlement Sell Requests and all Physical Settlement Buy Requests.

To determine the Initial Market Midpoint, the Administrators will: (a) sort the Initial Market Bids in descending order and the Initial Market Offers in ascending order, identifying non-tradeable markets for which bids are lower than offers; (b) sort non-tradeable markets in terms of tightness of spread between Initial Market Bid and Initial Market Offer; and (c) identify that half of the non-tradeable markets with the tightest spreads. The Initial Market Midpoint is determined as the arithmetic mean of the Initial Market Bids and Initial Market Offers contained in the half of non-tradeable markets with the tightest spreads.

Any Participating Bidder whose Initial Market Bid or Initial Market Offer forms part of a tradeable market will be required to make a payment to ISDA on the third Business Day after the Auction Final Price Determination Date (an "**Adjustment Amount**"), calculated in accordance with the Auction Methodology. Any payments of Adjustment Amounts shall be used by ISDA to defray any costs related to any auction that ISDA has coordinated, or that ISDA will in the future coordinate, for purposes of settlement of credit derivative transactions.

If for any reason no single Initial Market Midpoint can be determined, the procedure set out above may be repeated.

At or prior to the Initial Bidding Information Publication Time on any day on which the Initial Bidding Period has successfully concluded, the Administrators publish the Open Interest, the Initial Market Midpoint and the details of any Adjustment Amounts in respect of the Auction.

If the Open Interest is zero, the Auction Final Price will be the Initial Market Midpoint.

Submission of Limit Order Submissions

In the event that the Open Interest does not equal zero, a subsequent bidding period will be commenced during the Initial Bidding Period which: (a) if the Open Interest is an offer to sell Deliverable Obligations, Participating Bidders submit Limit Bids; or (b) if the Open Interest is a bid to purchase Deliverable Obligations, Limit Offers, in each case, on behalf of customers and for their own account.

Matching bids and offers

If the Open Interest is a bid to purchase Deliverable Obligations, the Administrators will match the Open Interest against all Initial Market Offers and Limit Offers, as further described in the Auction Methodology. If the Open Interest is an offer to sell Deliverable Obligations, the Administrators will match the Open Interest against all Initial Market Bids and Limit Bids, as further described in the Auction Methodology.

(a) Auction Final Price when the Open Interest is Filled

The Auction Final Price will be the price associated with the matched Initial Market Bids and Limit Bids or Initial Market Offers and Limit Offers, as applicable, that is the highest offer or the lowest bid, as applicable, provided that: (a) if the Open Interest is an offer to sell and the price associated with the lowest matched bid exceeds the Initial Market Midpoint by more than the "Cap Amount" (being the percentage that is equal to one half of the Maximum Initial Market Bid-Offer Spread (rounded to the nearest Relevant Pricing Increment)), then the Auction Final Price will be the Initial Market Midpoint plus the Cap Amount; and (b) if the Open Interest is a bid to purchase and the Initial Market Midpoint exceeds the price associated with the highest offer by more than the Cap Amount, then the Auction Final Price will be the Initial Market Midpoint minus the Cap Amount.

(b) Auction Final Price when the Open Interest is Not Filled

If, once all the Initial Market Bids and Limit Bids or Initial Market Offers and Limit Offers, as applicable, have been matched to the Open Interest, part of the Open Interest remains, the Auction Final Price will be: (a) if the Open Interest is a bid to purchase Deliverable Obligations, the greater of (i) zero, and (ii) the highest Limit Offer or Initial Market Offer received; or (b) if the Open Interest is an offer to sell Deliverable Obligations, zero.

100 per cent. Cap to Auction Final Price

In all cases, if the Auction Final Price determined pursuant to the Auction Methodology is greater than 100 per cent., then the Auction Final Price will be deemed to be 100 per cent.

Publication of Auction Final Price

At or prior to the Subsequent Bidding Information Publication Time on any day on which the subsequent bidding period has successfully concluded, the Administrators will publish on their websites: (a) the Auction Final Price; (b) the names of the Participating Bidders who submitted bids, offers, valid Dealer Physical Settlement Requests and valid Customer Physical Settlement Requests, together with the details of all such bids and offers submitted by each; and (c) the details and size of all matched trades.

Execution of Trades Formed in the Auction

Each Participating Bidder whose Limit Bid or Initial Market Bid (or Limit Offer or Initial Market Offer if applicable) is matched against the Open Interest, and each Participating Bidder that submitted a Customer Physical Settlement Request or Dealer Physical Settlement Request, is deemed to have entered into a Representative Auction-Settled Transaction, and each customer that submitted such a Limit Bid, Limit Offer, or Physical Settlement Request is deemed to have entered into a Representative Auction-Settled Transaction with the dealer through whom the customer submitted such bid or offer. Accordingly, each such Participating Bidder or customer that is a seller of Deliverable Obligations pursuant to a trade formed in the auction must deliver to the buyer to whom such Participating Bidder or customer has been matched a Notice of Physical Settlement indicating the Deliverable Obligations that it will deliver, and such Deliverable Obligations will be sold to the buyer in exchange for payment of the Auction Final Price.

Timing of Auction Settlement Provisions

If an Auction is held in respect of an Affected Reference Entity, it is expected that the relevant Auction Date will occur on the third Business Day immediately prior to the 30th calendar day after which the relevant Credit Derivatives Determinations Committee received the request from an eligible market participant (endorsed by a

member of the relevant Credit Derivatives Determinations Committee) to resolve whether a Credit Event has occurred with respect to such Reference Entity.

In respect of an Affected Reference Entity for which an Auction is held, the Auction Settlement Date will occur on a Business Day following the Auction Final Price Determination Date, as determined by the Credit Derivatives Determinations Committee and specified in the Credit Derivatives Auction Settlement Terms in respect of the relevant Affected Reference Entity.

ANNEX B TO THE ADDITIONAL TERMS AND CONDITIONS FOR CREDIT SECURITIES

CREDIT DERIVATIVES DETERMINATIONS COMMITTEES

In making certain determinations with respect to the Credit Securities, the Calculation Agent may but is not bound to follow or act in accordance with any determination of the relevant Credit Derivatives Determinations Committees. This Annex sets forth a summary of the Credit Derivatives Determinations Committees Rules, as published by ISDA on its website at www.isda.org (or any successor website thereto) as of 16 September 2014 (the "**Rules**") and is subject to the rules as published by ISDA from time to time and as amended from time to time. This summary is not intended to be exhaustive and prospective investors should also read the Rules and reach their own views prior to making any investment decisions. A copy of the Rules published by ISDA is available at: www.isda.org (or any successor website thereto).

Capitalised terms used but not defined in this summary have the meaning specified in the applicable Final Terms or the Rules, as applicable.

Establishment of the Credit Derivatives Determinations Committees

In accordance with the Rules, a Credit Derivatives Determinations Committee has been formed for each of the regions of (a) the Americas, (b) Asia Ex-Japan, (c) Australia-New Zealand, (d) Europe, Middle East and Africa and (e) Japan. As of the date hereof, the Calculation Agent (or one of its Affiliates) is a voting member on each of the Credit Derivatives Determinations Committees. See "Risk Factors – Conflicts of Interest – Credit Derivatives Determinations Committees" for additional information regarding conflicts of interest. The Credit Derivatives Determinations Committees will act in accordance with the Rules and will make determinations that are relevant for Credit Derivative Transactions that incorporate, or are deemed to incorporate, the 2014 ISDA Credit Derivatives Definitions (the "**2014 Definitions**") or the 2003 ISDA Credit Derivatives Definitions, as supplemented by the March 2009 Supplement or the 2003 ISDA Credit Derivatives Definitions, as supplemented by the July 2009 Supplement (the "**Updated 2003 Definitions**"). ISDA will serve as the secretary of each Credit Derivatives Determinations Committee and will perform administrative duties and make certain determinations as provided for under the Rules.

Decision-making Process of the Credit Derivatives Determinations Committees

Each DC Resolution by a Credit Derivatives Determinations Committee will apply to Credit Derivative Transactions that incorporate, or are deemed to incorporate, the 2014 Definitions or the Updated 2003 Definitions (depending on the applicable "Coverage Election" and subsequent determinations of the Credit Derivatives Determinations Committee) and for which the relevant provisions are not materially inconsistent with the provisions with respect to which the Credit Derivatives Determinations Committee bases its determination. As a result, determinations by the Credit Derivatives Determinations Committees are not applicable to the Holders, unless specified otherwise in the terms of the Credit Securities. The Credit Derivatives Determinations Committees shall have no ability to amend the terms of the Credit Securities. Furthermore, the institutions on the Credit Derivatives Determinations Committees owe no duty to the Holders. See "Risk Factors - Rights Associated with Credit Derivatives Determinations Committees" for further information. The terms of the Credit Securities provide that the Holders will be subject to certain determinations by the Credit Derivatives Determinations Committees. The Credit Derivatives Determinations Committees will be able to make determinations without action or knowledge by the Holders.

A Credit Derivatives Determinations Committee will be convened upon referral of (i) a question to ISDA by an identified eligible market participant and the agreement of at least one of the voting members of the relevant Credit Derivatives Determinations Committee to deliberate the question, or (ii) a question to ISDA by an unidentified eligible market participant and the agreement of at least two of the voting members of the relevant Credit Derivatives Determinations Committee to deliberate the question, or (iii) a question to ISDA by an eligible market participant which is an Eligible CCP (being an eligible clearing entity) and such question is not designated as a "General Interest

Question" and relates to an eligible cleared Reference Entity with respect to such Eligible CCP and to certain specified matters such as a Credit Event, Potential Repudiation/Moratorium and/or Successor. ISDA will convene the Credit Derivatives Determinations Committee for the region to which the referred question relates, as determined in accordance with the Rules. Any party to a transaction that incorporates, or is deemed to incorporate, the 2014 Definitions or the Updated 2003 Definitions may refer a question to ISDA for a Credit Derivatives Determinations Committee to consider. Therefore, a binding determination may be made with respect to the Credit Securities without any action by the Holders. Holders (in their capacity as holders of the Credit Securities) will not be able to refer questions to the Credit Derivatives Determinations Committees.

Once a question is referred to a Credit Derivatives Determinations Committee, a DC Resolution may result quickly, as a binding vote usually must occur within two business days of the first meeting held with respect to such question unless the timeframe is extended by agreement of at least 80% of the voting members participating in a vote held in accordance with the Rules. In addition, voting members of the Credit Derivatives Determinations Committees are required to participate in each binding vote, subject only to limited abstention rights. Notices of questions referred to the Credit Derivatives Determinations Committees, meetings held to deliberate such questions, meeting statements and the results of binding votes will be published on the ISDA website and neither the Issuer, the Calculation Agent nor any of their respective Affiliates shall be obliged to inform the Holders of such information (other than as expressly provided in the Final Terms). Holders shall therefore be responsible for obtaining such information. See "Risk Factors – Rights Associated with Credit Derivatives Determinations Committees".

The Credit Derivatives Determinations Committees have the ability to make determinations that may materially affect the Holders. The Credit Derivatives Determinations Committees will be able to make a broad range of determinations in accordance with the Rules that may be relevant to the Credit Securities and materially affect the Holders. For each of the general types of questions discussed below, the Credit Derivatives Determinations Committees may determine component questions that arise under the 2014 Definitions or the Updated 2003 Definitions, or the Rules and that are related to the initial question referred. Since the terms governing the credit-linked elements of the Credit Securities are substantially similar to the 2014 Definitions or, as the case may be, the Updated 2003 Definitions, such determinations may affect the Holders, as further described below.

Credit Events

The Credit Derivatives Determinations Committees will be able to determine whether a Credit Event has occurred and, if applicable, the date of such Credit Event. Related questions that are also within the scope of the Credit Derivatives Determinations Committees are whether a Potential Failure to Pay or a Potential Repudiation/Moratorium has occurred. In addition, the Credit Derivatives Determinations Committees will also determine, where necessary, whether the required Publicly Available Information has been provided. Each of these determinations, other than whether the required Publicly Available Information has been provided, requires the agreement of at least 80% of the voting members participating in a binding vote held in accordance with the Rules in order to avoid the referral of the question to the external review process, as described further below. The determination of whether the required Publicly Available Information has been provided requires the agreement of at least a majority of the voting members participating in a binding vote held in accordance with the Rules and is not eligible for external review. Each of these determinations may affect whether an Event Determination Date will occur under the Credit Securities. If the Credit Derivatives Determinations Committee Resolves that a Credit Event has occurred with respect to one of the Reference Entity(ies) on or after the Credit Event Backstop Date, then an Event Determination Date is deemed to have occurred in respect of the Credit Securities.

Successors

The Credit Derivatives Determinations Committees will be able to determine whether there are any Successor or Successors to a Reference Entity and the relevant Succession Date. In addition, the Credit Derivatives Determinations Committees will also determine the identity of the Successor(s) in accordance with the Rules. For a Reference Entity

that is not a Sovereign, the Credit Derivatives Determinations Committees will determine the Relevant Obligation(s) of the Reference Entity (including any adjustments required to be made if there is a Steps Plan), the proportion of the Relevant Obligation(s) to which each purported Successor succeeds and the Succession Date. For a Reference Entity that is a Sovereign, the Credit Derivatives Determinations Committees will determine the Relevant Obligation(s) of the Reference Entity (including any adjustments to be made if there is a Steps Plan), whether a Sovereign Succession Event has occurred, if so the proportion of the Relevant Obligation(s) to which each purported Successor succeeds, and the Succession Date. Each of these determinations requires the agreement of at least 80% of the voting members participating in a binding vote held in accordance with the Rules in order to avoid the referral of the question to the external review process, as described further below, except for the actual identification of the Successor(s) for a Reference Entity (which only requires a majority and is not eligible for external review). The Calculation Agent may use the relevant DC Resolutions of the Credit Derivatives Determinations Committees in order to determine Successor(s) to the Reference Entity(ies).

Other Questions

The Credit Derivatives Determinations Committees will be able to determine whether circumstances have occurred that require a Substitute Reference Obligation to be identified and, if so, the appropriate Substitute Reference Obligation. In addition, the Credit Derivatives Determinations Committees will be able to determine whether an entity that acts as seller of protection under one or more transactions (such entity, the "**Relevant Seller**") or a Reference Entity has consolidated or amalgamated with, or merged into, or transferred all or substantially all its assets to, the Reference Entity or the Relevant Seller, as applicable, or that the Relevant Seller and the Affected Reference Entity have become Affiliates. Each of these determinations requires the agreement of at least 80% of the voting members participating in a binding vote held in accordance with the Rules in order to avoid the referral of the question to the external review process, as described further below. The Calculation Agent may follow such DC Resolutions in making the equivalent determinations with respect to the Credit Securities.

The Credit Derivatives Determinations Committees will be able to determine other referred questions that are relevant to the credit derivatives market as a whole and are not merely a matter of bilateral dispute. Such questions require the agreement of at least 80% of the voting members participating in a binding vote held in accordance with the Rules for each Credit Derivatives Determinations Committee implicated by the relevant question, as determined in accordance with the Rules, in order to avoid the possible referral of the question to the external review process, as described further below. Furthermore, the question relating to such DC Resolution may also be referred to the external review process if at least a majority of the voting members participating in a binding vote held in accordance with the Rules agree. Any guidance given by the Credit Derivatives Determinations Committees with respect to questions of interpretation of the 2014 Definitions or, as the case may be, the Updated 2003 Definitions are likely to influence the Calculation Agent in interpreting equivalent provisions under the Notes.

Any such question can be submitted to the Credit Derivatives Determinations Committees by an unidentified eligible market participant for deliberation. The relevant Credit Derivatives Determinations Committee(s) will deliberate such question upon the agreement of at least two of the voting members of the relevant Credit Derivatives Determinations Committee to deliberate the question. Once the deliberations on such question have commenced, the relevant Credit Derivatives Determinations Committee will proceed in accordance with the procedures described above with respect to the relevant question category, except that the identity of the eligible market participant who submitted the question will not be revealed to the members of the Credit Derivatives Determinations Committees or the general public.

External Review

As described immediately above, certain questions deliberated by the Credit Derivatives Determinations Committees are subject to an external review process if the required threshold is not met during the binding vote held with respect to such question. For such questions, if at least 80% of the voting members participating in a binding vote held in accordance with the Rules fail to agree, the question will be automatically referred to the external review process.

Questions that are not eligible for external review often require only a simple majority of participating voting members to agree in order to reach a DC Resolution.

Questions referred to external review will be considered by a panel of three independent individuals who will be selected by either the relevant Credit Derivatives Determinations Committee or by ISDA at random. The default duration of the external review process (which can be modified by the relevant Credit Derivatives Determinations Committee in accordance with the Rules) is twelve business days from the referral of the question and contemplates the receipt of both written submissions and oral argument. Any member of ISDA may provide written submissions to the external reviewers, which will be made available to the public on the ISDA website, and the conclusion reached in accordance with the external review process will be binding on the Holders. In instances where the vote of the relevant Credit Derivatives Determinations Committee was less than or equal to 60%, the decision of a majority of the external reviewers will be determinative. However, in instances where the vote of the relevant Credit Derivatives Determinations Committee was between 60% and 80%, all three external reviewers must agree in order to overturn the vote of the Credit Derivatives Determinations Committee.

Holders should be aware that the external reviewers may not consider new information that was not available to the relevant Credit Derivatives Determinations Committee at or prior to the time of the binding vote and questions may be returned to the Credit Derivatives Determinations Committee for another vote if new information becomes available. In addition, if the external reviewers fail to arrive at a decision for any reason, the entire process will be repeated. As a result, the external review process may be elongated in certain situations, leaving questions that may materially affect the Holders unresolved for a period of time.

The Composition of the Credit Derivatives Determinations Committees

Each Credit Derivatives Determinations Committee is composed of fifteen voting members and three non-voting consultative members. Ten of the voting members are dealer institutions, with eight serving across all regions and two potentially varying by region. The other five voting members are non-dealer institutions that serve across all regions. The three non-voting consultative members consist of one dealer institution and one non-dealer institution that serve across all regions and one dealer institution that could potentially vary by region. For the first composition of the Credit Derivatives Determinations Committees only, an additional non-voting dealer institution has been selected to serve across all regions.

Holders will have no role in the composition of the Credit Derivatives Determinations Committees. Separate criteria applies with respect to the selection of dealer and non-dealer institutions to serve on the Credit Derivatives Determinations Committees and the Holders will have no role in establishing such criteria. In addition, the composition of the Credit Derivatives Determinations Committees will change from time to time in accordance with the Rules, as the term of an institution may expire or an institution may be required to be replaced. The Holders will have no control over the process for selecting institutions to participate on the Credit Derivatives Determinations Committees and, to the extent provided for in the Credit Securities, will be subject to the determinations made by such selected institutions in accordance with the Rules.

Ability of the Calculation Agent or its Affiliates to influence the Credit Derivatives Determinations Committees

As of the date hereof, the Calculation Agent (or one of its Affiliates) is a voting member on each of the Credit Derivatives Determinations Committees. In such capacity, it may take certain actions that may influence the process and outcome of decisions of the Credit Derivatives Determinations Committees, including (without limitation): (a) agreeing to deliberate a question referred to ISDA, (b) voting on the resolution of any question being deliberated by a Credit Derivatives Determinations Committee and (c) advocating a certain position during the external review process. In addition, as a party to transactions which incorporate, or are deemed to incorporate, the 2014 Definitions or the Updated 2003 Definitions, the Calculation Agent may refer a question to ISDA for a Credit Derivatives Determinations Committee to deliberate. In deciding whether to take any such action, the Calculation Agent (or its Affiliate) shall be

under no obligation to consider the interests of any Holder. See "Potential conflicts of interest of the Calculation Agent" below for additional information.

Potential Conflicts of interest of the Calculation Agent

Since, as of the date hereof, the Calculation Agent (or one of its Affiliates) is a voting member on each of the Credit Derivatives Determinations Committees and is a party to transactions which incorporate, or are deemed to incorporate, the 2014 Definitions or the Updated 2003 Definitions, it may take certain actions which may influence the process and outcome of decisions of the Credit Derivatives Determinations Committees. See "Ability of the Calculation Agent or its Affiliates to influence the Credit Derivatives Determinations Committees" above for additional information. Such action may be adverse to the interests of the Holders and may result in an economic benefit accruing to the Calculation Agent. In taking any action relating to the Credit Derivatives Determinations Committees or performing any duty under the Rules, the Calculation Agent shall have no obligation to consider the interests of the Holders and may ignore any conflict of interest arising due to its responsibilities under the Credit Securities.

Holders will have no recourse against either the institutions serving on the Credit Derivatives Determinations Committees or the external reviewers. Institutions serving on the Credit Derivatives Determinations Committees and the external reviewers, among others, disclaim any duty of care or liability arising in connection with the performance of duties or the provision of advice under the Rules, except in the case of gross negligence, fraud or wilful misconduct. Furthermore, the institutions on the Credit Derivatives Determinations Committees do not owe any duty to the Holders and the Holders will be prevented from pursuing claims with respect to actions taken by such institutions under the Rules.

Holders should also be aware that institutions serving on the Credit Derivatives Determinations Committees have no duty to research or verify the veracity of information on which a specific determination is based. In addition, the Credit Derivatives Determinations Committees are not obligated to follow previous determinations and, therefore, could reach a conflicting determination for a similar set of facts.

Holders shall be responsible for obtaining information relating to deliberations of the Credit Derivatives Determinations Committees. Notices of questions referred to the Credit Derivatives Determinations Committees, meetings held to deliberate such questions and the results of binding votes will be published on the ISDA website and neither the Issuer, the Calculation Agent nor any of their respective Affiliates shall be obliged to inform the Holders of such information (other than as expressly provided in the applicable Final Terms). Failure by the Holders to be aware of information relating to deliberations of a Credit Derivatives Determinations Committee will have no effect under the applicable Final Terms and Holders are solely responsible for obtaining any such information.

Amendments to the Rules

The Rules may be amended from time to time without the consent or input of the Holders and the powers of the Credit Derivatives Determinations Committees may be expanded or modified as a result.

PART B

This PART B shall only apply if the Final Terms of the Securities specify that PART B of Annex 1 (Additional Terms and Conditions for Credit Securities) applies. Where this PART B applies, for the avoidance of doubt, the terms of Part APart A of Annex 12 shall not apply to the Securities. This PART B shall not apply to Credit Warrants.

The Issuer will redeem each Credit Certificate or Note on the related Credit Security Settlement Date (as such date may be extended in accordance with the definition thereof) by payment of an amount equal to the Cash Settlement Amount of such Certificate unless:

- (i) an Automatic Early Redemption Event has occurred (if applicable);
- (ii) the Credit Securities have been previously redeemed or purchased or cancelled in full (including pursuant to Credit Security Condition 2(b)); or
- (iii) an Event Determination Date occurs, in which event the Issuer shall redeem the Credit Securities in accordance with Credit Security 2(b).

(c) Miscellaneous provisions relating to Redemption

Any amount payable under Credit Security Condition 2(b) shall be rounded downwards to the nearest sub-unit of the relevant currency.

3. Interest

(a) Cessation of Interest Accrual

Upon the occurrence of a Credit Event Determination Date in respect of the Reference Entity, interest shall cease to accrue with effect from, and including, either:

- (i) the Interest Payment Date immediately preceding such Credit Event Determination Date (or, in the case of the first Interest Period, the Interest Commencement Date); or
- (ii) if so specified in the applicable Final Terms, such Credit Event Determination Date.

(b) **Interest following Scheduled Maturity**

Subject always to Credit Security Condition 3(a), if an Extension Notice has been given, no interest will accrue on each Credit Security which is outstanding from, and including, the Maturity Date or Redemption Date (as applicable) to, and including, the related Credit Security Settlement Date.

(c) **Interest Payment Dates**

If the Credit Securities are redeemed pursuant to the W&C Security Conditions or the Note Conditions as applicable or these Credit Security Conditions, the Redemption Date, or the Maturity Date, the Credit Security Settlement Date (if not the Redemption Date or the Maturity Date) or the Cash Settlement Date, as the case may be, shall be an Interest Payment Date in respect of each Credit Security and the Issuer shall pay any interest that has accrued (and is unpaid) in respect of each Credit Security on such Interest Payment Date.

Subject as provided below and in the relevant Guarantee, the relevant Guarantor has unconditionally and irrevocably (a) guaranteed to each Noteholder all obligations of the relevant Issuer in respect of such Notes as and when such obligations become due, and (b) agreed that if and each time that the Issuer fails to satisfy any obligations under such Notes as and when such obligations become due, the relevant Guarantor will after a demand has been made on the relevant Guarantor (without requiring the relevant Noteholder first to take steps against the Issuer or any other person) make or cause to be made such payment or satisfy or cause to be satisfied such obligations as though the relevant Guarantor were the principal obligor in respect of such obligations, provided that in the case of Notes (other than Credit Securities) where the obligations of the relevant Issuer which fall to be satisfied by the relevant Guarantor constitute the delivery of the Entitlement to the holders of such Notes if such delivery is not practicable by reason of (x) a Settlement Disruption Event (as defined in Condition 4(b)(i)(E)) or (y) if "Failure to Deliver due to Illiquidity" is specified as applying in the applicable Final Terms, a Failure to Deliver due to Illiquidity (as defined in Condition 4(b)(i)(F)), in lieu of such delivery the relevant Guarantor will make payment in respect of each such Note of, in the case of (x) above, the Disruption Cash Redemption Amount (as defined in Condition 4(b)(i)(E)) or in the case of (y) above, the Failure to Deliver Redemption Amount (as defined in Condition 4(b)(i)(F)). Any payment of the Disruption Cash Redemption Amount or the Failure to Deliver Redemption Amount, as the case may be, in respect of a Note shall constitute a complete discharge of the relevant Guarantor's obligations in respect of the delivery of the Relevant Assets affected by the Settlement Disruption Event or Failure to Deliver due to Illiquidity, as the case may be.

2.3 Negative Pledge of BGL

If the Notes are issued by BGL, the Issuer undertakes that, so long as any of the Notes or the Coupons relating to them remain outstanding (as defined in the Note Agency Agreement), it shall not create or have outstanding any mortgage, charge, pledge, lien (other than a lien arising solely by operation of law in the ordinary course of business) or other encumbrance, upon or with respect to, the whole or any part of, its present or future property, assets or revenues to secure repayment of, or to secure any guarantee of or indemnity in respect of, any external indebtedness unless such Notes and Coupons are, at the same time, secured equally and rateably therewith, or have the benefit of such other security or other arrangement as shall be approved by an Extraordinary Resolution (as defined in the Note Agency Agreement) of the Noteholders. 3. INTEREST

3.1 Interest on Fixed Rate Notes

Each Fixed Rate Note bears interest from (and including) the Interest Commencement Date at the rate(s) per annum equal to the Rate(s) of Interest. Interest will accrue in respect of each Interest Period (which expressions shall in these Terms and Conditions mean the period from (and including) an Interest Period End Date (or if none the Interest Commencement Date) to (but excluding) the next (or first) Interest Period End Date (each such latter date the "**Interest Period End Final Date**" for the relevant Interest Period)). Interest will be payable in arrear on the Interest Payment Date(s) in each year up to (and including) the Maturity Date. If an Interest Payment Date falls after the Interest Period End Final Date in respect of the relevant Interest Period, no additional interest or other amount shall be payable as a result of such interest being payable on such later date. If a Business Day Convention is specified in the applicable Final Terms as applying to an Interest Period End Date or an Interest Payment Date and (x) if there is no numerically corresponding day in the calendar month in which an Interest Period End Date or Interest Payment Date, as the case may be, should occur or (y) if any Interest Period End Date or Interest Payment Date, as the case may be, would otherwise fall on a day which is not a Business Day, then, if the Business Day Convention specified is:

- (a) the Following Business Day Convention, such Interest Period End Date or Interest Payment Date, as the case may be, shall be postponed to the next day which is a Business Day; or
- (b) the Modified Following Business Day Convention, such Interest Period End Date or Interest Payment Date, as the case may be, shall be postponed to the next day which is a Business Day unless it would thereby fall into the next calendar month, in which event such Interest Period End Date or Interest Payment Date, as the case may be shall be brought forward to the immediately preceding Business Day; or
- (c) the Preceding Business Day Convention, such Interest Period End Date or Interest Payment Date, as the case may be, shall be brought forward to the immediately preceding Business Day.

If no Business Day Convention is specified as applicable to an Interest Period End Date in the applicable Final Terms and the Notes are in definitive form:

- (i) the amount of interest payable on each Interest Payment Date in respect of the Interest Period ending on (but excluding) the Interest Period End Final Date in respect of such Interest Period, will amount to the Fixed Coupon Amount; and
- (ii) the amount of interest payable on any other Interest Payment Date will, if so specified in the applicable Final Terms, amount to the Broken Amount so specified.

Interest shall be calculated by applying the Rate of Interest to: (A) in the case of Fixed Rate Notes which are represented by a Global Note, the aggregate outstanding nominal amount of the Fixed Rate Notes represented by such Global Note (or, if they are Partly Paid Notes, the aggregate amount paid up); ~~or~~ (B) in the case of Fixed Rate Notes in definitive form, the Calculation Amount; or (C) in the case of Fixed Rate Notes which are represented by Italian Dematerialised Notes, the aggregate outstanding nominal amount of such Italian

Dematerialised Notes, multiplying such sum by the applicable Day Count Fraction, ~~and~~-rounding the resultant figure to the nearest sub-unit of the relevant Specified Currency, half of any such sub-unit being rounded upwards or otherwise in accordance with applicable market convention, and, in the case of Dual Currency Interest Notes, converting the resulting figure into the Settlement Currency as provided in Condition 3.14 below.

Where the Specified Denomination of a Fixed Rate Note in definitive form comprises more than one Calculation Amount, the amount of Interest payable in respect of such Fixed Rate Note shall be the aggregate of the amounts (determined in the manner provided above) for each Calculation Amount comprising the Specified Denomination without any further rounding.

"**sub-unit**" means, with respect to any currency other than euro, the lowest amount of such currency that is available as legal tender in the country of such currency and, with respect to euro, means one cent.

3.2 Interest on Floating Rate Notes

(a) Interest Period End Dates and Interest Payment Dates

Each Floating Rate Note bears interest on its nominal amount (or, if it is a Partly Paid Note, in accordance with Condition 3.11) or pays interest in respect of each Interest Period (which expression shall in these Terms and Conditions mean the period from (and including) an Interest Period End Date (or if none the Interest Commencement Date to (but excluding) the next (or first) Interest Period End Date (each such latter date the "**Interest Period End Final Date**" for the relevant Interest Period)). For the purposes of this Condition 3.2 "**Interest Period End Date**" shall mean either:

- (i) the specified Interest Period End Date(s) in each year specified in the applicable Final Terms; or
- (ii) if no Interest Period End Date(s) is/are specified in the applicable Final Terms, each date which falls the number of months or other period specified as the Specified Period in the applicable Final Terms after the preceding Interest Period End Date or, in the case of the first Interest Period End Date, after the Interest Commencement Date.

Interest will be payable in arrear on the Interest Payment Date(s) in each year up to (and including) the Maturity Date. If an Interest Payment Date falls after an Interest Period End Final Date in respect of the relevant Interest Period, no additional interest or other amount shall be payable as a result of such interest being payable on such later date.

If a Business Day Convention is specified in the applicable Final Terms as applying to an Interest Period End Date or an Interest Payment Date and (x) if there is no numerically corresponding day in the calendar month in which an Interest Period End Date or Interest Payment Date, as the case may be, should occur or (y) if any Interest Period End Date or Interest Payment Date, as the case may be, would otherwise fall on a day which is not a Business Day, then, if the Business Day Convention specified is:

- (A) In any case where Specified Periods are specified in accordance with Condition 3.2(a)(ii) above, the Floating Rate Convention, such Interest Period End Date or Interest Payment Date, as the case may be, (i) in the case of (x) above, shall be the last day that is a Business Day in the relevant month and the provisions of (B) below shall apply *mutatis mutandis* or (ii) in the case of (y) above, shall be postponed to the next day which is a Business Day unless it would thereby fall into the next calendar month, in which event (aa) such Interest Period End Date or Interest Payment Date, as the case may be, shall be brought forward to the immediately preceding Business Day and (bb) each subsequent Interest Period End Date

or Interest Payment Date, as the case may be, shall be the last Business Day in the month which falls the Specified Period after the preceding applicable Interest Period End Date or Interest Payment Date, as the case may be, occurred; or

- (B) The Following Business Day Convention, such Interest Period End Date or Interest Payment Date, as the case may be, shall be postponed to the next day which is a Business Day; or
- (C) The Modified Following Business Day Convention, such Interest Period End Date or Interest Payment Date, as the case may be, shall be postponed to the next day which is a Business Day unless it would thereby fall into the next calendar month, in which event such Interest Period End Date or Interest Payment Date, as the case may be, shall be brought forward to the immediately preceding Business Day; or
- (D) The Preceding Business Day Convention, such Interest Period End Date or Interest Payment Date, as the case may be, shall be brought forward to the immediately preceding Business Day.

(b) Rate of Interest

The Rate of Interest payable from time to time in respect of Floating Rate Notes will be determined in the manner specified in the applicable Final Terms.

(c) Determination of Rate of Interest and Calculation of Interest Amount

The Principal Paying Agent will, on or as soon as practicable after each date on which the Rate of Interest is to be determined (the "**Interest Determination Date**"), determine the Rate of Interest (subject to any Minimum Interest Rate or Maximum Interest Rate specified in the applicable Final Terms) for the relevant Interest Period.

The Principal Paying Agent will calculate the amount of interest (the "**Interest Amount**") payable on the Notes for the relevant Interest Period by applying the Rate of Interest to:

- (i) in the case of Floating Rate Notes which are represented by a Global Note, the aggregate outstanding nominal amount of the Notes represented by such Global Note (or, if they are Partly Paid Notes, the aggregate amount paid up); ~~or~~

(ii) in the case of Floating Rate Notes in definitive form, the Calculation Amount; or

~~(ii)~~(iii) in the case of Floating Rate Notes which are represented by Italian Dematerialised Notes, the aggregate outstanding nominal amount of such Italian Dematerialised Notes,

~~and~~, in each case, multiplying such sum by the Day Count Fraction specified in the applicable Final Terms and rounding the resultant figure to the nearest sub-unit (as defined above) of the relevant Specified Currency, one half of such a sub-unit being rounded upwards or otherwise in accordance with applicable market convention and, in the case of Dual Currency Interest Notes, converting the resulting figure into the Settlement Currency as provided in Condition 3.14 below. Where the Specified Denomination of a Floating Rate Note in definitive form comprises more than one Calculation Amount, the Interest Amount payable in respect of such Note shall be the aggregate of the amounts (determined in the manner provided above) for each Calculation Amount comprising the Specified Denomination without any further rounding.

(d) Linear Interpolation

Where Linear Interpolation is specified as applicable in respect of an Interest Period in the applicable Final Terms, the Rate of Interest for such Interest Period shall be calculated by the Principal Paying Agent by straight line linear interpolation by reference to two rates based on the relevant Reference Rate (where Screen Rate Determination is specified as applicable in the applicable Final Terms), the FBF Rate (if specified as applicable in the applicable Final Terms) or the relevant Floating Rate Option (where ISDA Determination is specified as applicable in the applicable Final Terms), one of which shall be determined as if the Designated Maturity were the period of time for which rates are available next shorter than the length of the relevant Interest Period and the other of which shall be determined as if the Designated Maturity were the period of time for which rates are available next longer than the length of the relevant Interest Period provided however that if there is no rate available for a period of time next shorter or, as the case may be, next longer, then the Principal Paying Agent shall determine such rate at such time and by reference to such sources as it determines appropriate.

"Designated Maturity" means (i) in relation to Screen Rate Determination, the period of time designated in the Reference Rate or (ii) in relation to FBF Determination, the period of time specified in the relevant FBF Rate.

3.3 **Interest on Linked Interest Notes**

(a) Interest Period End Dates and Interest Payment Dates

Each Linked Interest Note bears interest on its nominal amount (or, if it is a Partly Paid Note, in accordance with Condition 3.11) or pays interest in respect of each Interest Period (which expression shall in these Terms and Conditions mean the period from (and including) an Interest Period End Date (or if none the Interest Commencement Date to (but excluding) the next (or first) Interest Period End Date (each such latter date the **"Interest Period End Final Date"** for the relevant Interest Period)). For the purposes of this Condition 3.3 **"Interest Period End Date"** shall mean either:

- (i) the specified Interest Period End Date(s) in each year specified in the applicable Final Terms; or
- (ii) if no Interest Period End Date(s) is/are specified in the applicable Final Terms, each date which falls the number of months or other period specified as the Specified Period in the applicable Final Terms after the preceding Interest Period End Date or, in the case of the first Interest Period End Date, after the Interest Commencement Date.

Interest will be payable in arrear on the Interest Payment Date(s) in each year up to (and including) the Maturity Date. If an Interest Payment Date falls after an Interest Period End Final Date in respect of the relevant Interest Period, no additional interest or other amount shall be payable as a result of such interest being payable on such later date.

If a Business Day Convention is specified in the applicable Final Terms as applying to an Interest Period End Date or an Interest Payment Date and (x) if there is no numerically corresponding day in the calendar month in which an Interest Period End Date or Interest Payment Date, as the case may be, should occur or (y) if any Interest Period End Date or Interest Payment Date, as the case may be, would otherwise fall on a day which is not a Business Day, then, if the Business Day Convention specified is:

- (A) In any case where Specified Periods are specified in accordance with Condition 3.3(a)(ii) above, the Floating Rate Convention, such Interest Period End Date or Interest Payment Date, as the case may be, (i) in the case of (x) above, shall be the last day that is a Business Day in the relevant month and the provisions of (B) below shall apply *mutatis mutandis* or

(ii) in the case of (y) above, shall be postponed to the next day which is a Business Day unless it would thereby fall into the next calendar month, in which event (aa) such Interest Period End Date or Interest Payment Date, as the case may be, shall be brought forward to the immediately preceding Business Day and (bb) each subsequent Interest Period End Date or Interest Payment Date, as the case may be, shall be the last Business Day in the month which falls the Specified Period after the preceding applicable Interest Period End Date or Interest Payment Date, as the case may be, occurred; or

- (B) The Following Business Day Convention, such Interest Period End Date or Interest Payment Date, as the case may be, shall be postponed to the next day which is a Business Day; or
- (C) The Modified Following Business Day Convention, such Interest Period End Date or Interest Payment Date, as the case may be, shall be postponed to the next day which is a Business Day unless it would thereby fall into the next calendar month, in which event such Interest Period End Date or Interest Payment Date, as the case may be, shall be brought forward to the immediately preceding Business Day; or
- (D) The Preceding Business Day Convention, such Interest Period End Date or Interest Payment Date, as the case may be, shall be brought forward to the immediately preceding Business Day.

(b) Rate of Interest

The Rate of Interest payable from time to time in respect of Linked Interest Notes will be the Coupon Rate determined in the manner specified in the applicable Final Terms which Coupon Rate may comprise one or more Additional Coupons determined in the manner specified in the applicable Final Terms.

(c) Determination of Rate of Interest and Calculation of Interest Amount

The Calculation Agent will, on or as soon as practicable after each date on which the Rate of Interest is to be determined (the "**Interest Determination Date**"), determine the Rate of Interest (subject to any Minimum Interest Rate or Maximum Interest Rate specified in the applicable Final Terms) for the relevant Interest Period. The Calculation Agent will notify the Principal Paying Agent of the Rate of Interest for the relevant Interest Period as soon as practicable after calculating the same.

The Calculation Agent will calculate the amount of interest (the "**Interest Amount**") payable on the Notes for the relevant Interest Period by applying the Rate of Interest to:

- (i) in the case of Linked Interest Notes which are represented by a Global Note, the aggregate outstanding nominal amount of the Notes represented by such Global Note (or, if they are Partly Paid Notes, the aggregate amount paid up); ~~or~~

(ii) in the case of Linked Interest Notes in definitive form, the Calculation Amount; ~~i~~ or

~~(ii)~~(iii) in the case of Linked Interest Notes which are represented by Italian Dematerialised Notes, the aggregate outstanding nominal amount of such Italian Dematerialised Notes,

~~and~~, in each case, multiplying such sum by the Day Count Fraction (if any) specified in the applicable Final Terms and rounding the resultant figure to the nearest sub-unit (as defined above) of the relevant Specified Currency, one half of such sub-unit being rounded upwards or otherwise in accordance with applicable market convention and, in the case of Dual Currency Interest Notes, converting the resulting figure into the Settlement Currency as provided in Condition 3.14 below. Where the Specified Denomination of a Linked Interest Note in definitive form comprises more than one Calculation Amount, the Interest Amount payable in respect of

such Note shall be the aggregate of the amounts (determined in the manner provided above) for each Calculation Amount comprising the Specified Denomination without any further rounding.

3.4 ISDA, FBF and Screen Rate Determination

(a) ISDA Determination

Where ISDA Determination is specified in the applicable Final Terms as the manner in which a Rate of Interest or Rate, as applicable, is to be determined, such Rate of Interest or Rate, as the case may be, for each Interest Period will be the relevant ISDA Rate plus or minus (as indicated in the applicable Final Terms) the Margin (if any). For the purposes of this subparagraph (a), "**ISDA Rate**" for an Interest Period means a rate equal to the Floating Rate that would be determined by the Principal Paying Agent under an interest rate swap transaction if the Principal Paying Agent were acting as Calculation Agent for that swap transaction under the terms of an agreement incorporating the 2006 ISDA Definitions as published by the International Swaps and Derivatives Association, Inc. and as amended and updated as at the Issue Date of the first Tranche of the Notes (the "**ISDA Definitions**") and under which:

- (i) the Floating Rate Option is as specified in the applicable Final Terms;
- (ii) the Designated Maturity is a period specified in the applicable Final Terms; and
- (iii) the relevant Reset Date is either (x) if the applicable Floating Rate Option is based on the London interbank offered rate ("**LIBOR**") or on the Euro-zone inter-bank offered rate ("**EURIBOR**") for a currency, the first day of that Interest Period or (y) in any other case, as specified in the applicable Final Terms.

For the purposes of this sub-paragraph (a), "**Floating Rate**", "**Calculation Agent**", "**Floating Rate Option**", "**Designated Maturity**" and "**Reset Date**" have the meanings given to those terms in the ISDA Definitions.

(b) FBF Determination

Where so specified in the applicable Final Terms, interest will be payable on such dates, at such a rate (the "**FBF Rate**") and in such amounts, plus or minus (as indicated in the applicable Final Terms) the Margin (if any), as would have been payable (regardless of any event of default or termination event thereunder) by the Issuer if it had entered into an interest rate swap transaction governed by an agreement in the form of the Master Agreement relating to foreign exchange and derivatives transactions (an "**FBF Agreement**"), as in effect on the date of issue of the Notes, published by the *Association Française des Banques/Fédération Bancaire Française* and evidenced by a Confirmation (as defined in the FBF Agreement) with the holder of the relevant Note under which:

- (i) the Issuer was the Floating Amount Payer;
- (ii) the Principal Paying Agent (as defined herein) was the Agent (as defined in the FBF Agreement) or as otherwise specified in the applicable Final Terms;
- (iii) the Interest Commencement Date was the Transaction Date;
- (iv) the lowest Specified Denomination was the Notional Amount;
- (v) the Interest Payment Dates were the Floating Amount Payment Dates; and
- (vi) all other terms were as specified in the applicable Final Terms.

When the preceding sentence applies, in respect of each relevant Interest Payment Date:

- (A) the amount of interest determined for such Interest Payment Date will be the Interest Amount for the relevant Interest Period for the purposes of these Terms and Conditions as though determined under sub-conditions 3.2(c) or 3.3(c) above, as applicable;
- (B) the Rate of Interest for such Interest Period will be the Floating Rate (as defined in the FBF Agreement) determined by the Principal Paying Agent in accordance with the preceding sentence; and
- (C) the Principal Paying Agent or Calculation Agent, as applicable, will be deemed to have discharged its obligations under sub-conditions 3.2(c) or 3.3(c) above, as applicable, if it has determined the Rate of Interest and the Interest Amount payable on such Interest Payment Date in the manner provided in the preceding sentence.

(c) **Screen Rate Determination**

Where Screen Rate Determination is specified in the applicable Final Terms as the manner in which a Rate of Interest or Rate is to be determined, such Rate of Interest or Rate, as the case may be, for each Interest Period will, subject as provided below, be either:

- (i) the offered quotation; or
- (ii) the arithmetic mean (rounded if necessary to the fifth decimal place, with 0.000005 being rounded upwards) of the offered quotations,

(expressed as a percentage rate per annum) for the Reference Rate(s) which appears or appear, as the case may be, on the Relevant Screen Page (or such replacement page on that service which displays the information) as at the Specified Time indicated in the applicable Final Terms (which will be 11.00 a.m., London time, in the case of LIBOR, or Brussels time, in the case of EURIBOR) on the Interest Determination Date in question plus or minus (as indicated in the applicable Final Terms) the Margin (if any), all as determined by the Principal Paying Agent. If five or more of such offered quotations are available on the Relevant Screen Page, the highest (or, if there is more than one such highest quotation, one only of such quotations) and the lowest (or, if there is more than one such lowest quotation, one only of such quotations) shall be disregarded by the Principal Paying Agent for the purpose of determining the arithmetic mean (rounded as provided above) of such offered quotations.

The Note Agency Agreement contains provisions for determining the Rate of Interest or Rate in the event that the Relevant Screen Page is not available or if, in the case of (A) above, no such offered quotation appears or, in the case of (B) above, fewer than three such offered quotations appear, in each case as at the Specified Time indicated above or in the applicable Final Terms.

If the Reference Rate from time to time is specified in the applicable Final Terms as being other than LIBOR or EURIBOR, the Rate of Interest or Rate in respect of such Notes will be determined as provided in the applicable Final Terms.

3.5 Minimum and/or Maximum Interest Rate

If the applicable Final Terms specifies a Minimum Interest Rate for any Interest Period, then, in the event that the Rate of Interest in respect of such Interest Period determined in accordance with the provisions of Condition 3.2(b), 3.2(d), 3.3(b) or 3.4 (as appropriate) is less than such Minimum Interest Rate, the Rate of Interest for such Interest Period shall be such Minimum Interest Rate.

If the applicable Final Terms specifies a Maximum Interest Rate for any Interest Period, then, in the event that the Rate of Interest in respect of such Interest Period determined in accordance with the provisions of

Condition 3.2(b), 3.2(d), 3.3(b) or 3.4 (as appropriate) is greater than such Maximum Interest Rate, the Rate of Interest for such Interest Period shall be such Maximum Interest Rate.

3.6 **Notification of Rate of Interest and Interest Amount**

The Principal Paying Agent will cause the Rate of Interest and each Interest Amount for each Interest Period and the relevant Interest Payment Date to be notified to the Issuer, the Guarantor (if applicable) (such notifications to occur no later than the Business Day following such determination), (in the case of Notes which are listed on Euronext Paris or on the Official List of the Luxembourg Stock Exchange and the rules of such stock exchange so require) Euronext Paris or the Luxembourg Stock Exchange, as applicable and, if applicable, to any other stock exchange on which the relevant Notes are for the time being listed. In addition, the Principal Paying Agent (except where the relevant Notes are unlisted and are in global form and held in their entirety on behalf of Euroclear, Clearstream, Luxembourg or the CMU, as the case may be in which event there may be substituted for such publication the delivery of such notice to Euroclear, Clearstream, Luxembourg or the CMU Lodging Agent, as the case may be for communication to the holders of the Notes) shall publish or cause to be published such Rate of Interest, Interest Amount and Interest Payment Date in accordance with Condition 16 as soon as possible after their determination but in no event later than the fourth Luxembourg Business Day thereafter. Each Interest Amount and Interest Payment Date so notified may subsequently be amended (or appropriate alternative arrangements made by way of adjustment) in the event of an extension or shortening of the Interest Period. Any such amendment will be promptly notified to each stock exchange on which the relevant Notes are for the time being listed and to the Noteholders in accordance with Condition 16. For the purposes of these Conditions, the expression "**Luxembourg Business Day**" means a day (other than a Saturday or a Sunday) on which commercial banks are open for business in Luxembourg.

3.7 **Certificates to be Final**

All certificates, communications, determinations, calculations and decisions made for the purposes of the provisions of Conditions 3.2 to 3.6 and/or Condition 3.13, by the Principal Paying Agent or, if applicable, Calculation Agent, shall (in the absence of wilful default, bad faith or manifest error) be binding on the Issuer, the Guarantor (if applicable), the Principal Paying Agent, the other Paying Agents, or, if applicable, the Calculation Agent and all Noteholders, and (in the absence as aforesaid) no liability to the Noteholders shall attach to the Principal Paying Agent or, if applicable, the Calculation Agent, in connection with the exercise or non-exercise by it of its powers, duties and discretions pursuant to such provisions.

As from the Maturity Date, any overdue principal of such Note shall bear interest at a rate per annum equal to the Accrual Yield specified in the applicable Final Terms. Such interest shall continue to accrue (as well after as before any judgment) until the day on which all sums due in respect of such Note up to that day are received by or on behalf of the holder of such Note. Such interest will be calculated on the basis of a 360-day year consisting of 12 months of 30 days each and in the case of an incomplete month the actual number of days elapsed in such incomplete month.

3.10 **Coupon Switch**

If Coupon Switch is specified as applicable in the applicable Final Terms:

- (i) if Coupon Switch Election is specified as applicable in the applicable Final Terms, the Issuer may in its sole and absolute discretion elect that the Rate of Interest for the Notes will be amended (a "**Coupon Switch**") from the Pre-Switch Coupon specified in the applicable Final Terms to the Post-Switch Coupon specified in the applicable Final Terms on and after the Coupon Switch Date; or

If Additional Switch Coupon is specified as applicable in the applicable Final Terms, following the occurrence of a Coupon Switch, an Additional Switch Coupon Amount will be payable on the Additional Switch Coupon Payment Date. The "**Additional Switch Coupon Amount**" in respect of each nominal amount of Notes equal to the Calculation Amount will be the amount specified as such in the applicable Final Terms. For the purposes of Conditions 1.1, 4 and 13 Additional Switch Coupon Amount shall be deemed to be interest. For the avoidance of doubt, the Additional Switch Coupon Amount will only be paid on the single Additional Switch Coupon Payment Date.

Interest will be paid subject to and in accordance with the provisions of Condition 4. Interest will cease to accrue on each Note (or, in the case of the redemption of part only of a Note, that part only of such Note) on the due date for redemption thereof unless such Note is redeemed early. If such Note is redeemed early (i) if the applicable Final Terms specify that Accrual to Redemption is applicable, interest will cease to accrue on the due date for redemption or (ii) if the applicable Final Terms specify that Accrual to Redemption is not applicable, no interest shall accrue or be payable in respect of which the relevant Interest Payment Date has not occurred on or prior to the due date for redemption of such Note. If the payment of principal or the payment, and/or delivery of the Entitlement (if applicable), is improperly withheld or refused, interest will continue to accrue (as well after as before any judgment) at the Fixed Rate or, as the case may be, the Rate of Interest or as otherwise provided in the applicable Final Terms until whichever is the earlier of (i) the day on which all sums due and/or assets deliverable in respect of such Note up to that day are received by or on behalf of the holder of such Note and (ii) the day on which the Principal Paying Agent or any agent appointed by the Issuer to deliver such assets to Noteholders has notified the holder thereof (either in accordance with Condition 16 or individually) of receipt of all sums due and/or assets deliverable in respect thereof up to that date.

3.14 Dual Currency Interest Notes

If the Notes are specified in the applicable Final Terms as Dual Currency Interest Notes, the amount of interest calculated in respect of any Interest Payment Date is not an amount in the Settlement Currency, it will be converted into the Settlement Currency at the Specified Exchange Rate specified in the applicable Final Terms or, if no Specified Exchange Rate is specified, the Settlement Currency Exchange Rate on the relevant Settlement Currency Exchange Rate Observation Date.

Any reference to "interest" in this Condition 3.14 shall be deemed to include, as applicable, any additional amounts which may be payable with respect to interest under Condition 6.

4. PAYMENTS, PHYSICAL DELIVERY AND EXCHANGE OF TALONS

For the purposes of this Condition 4, references to payment or repayment (as the case may be) of principal and/or interest and other similar expressions shall, where the context so admits, be deemed also to refer to delivery of any Entitlement(s).

(a) Method of Payment

Payments of principal (other than instalments of principal prior to the final instalment) in respect of each Registered Note (whether or not in global form) will be made against presentation and surrender (or, in the case of part payment of any sum due, endorsement) of the Registered Note at the specified office of the Registrar or any of the Paying Agents. Such payments will be made by transfer to the Designated Account (as defined below) of the holder (or the first named of joint holders) of the Registered Note appearing in the Register (i) where in global form, at the close of the business day (being for this purpose a day on which Euroclear, Clearstream, Luxembourg, the CMU and/or any other relevant Clearing System are open for business) before the relevant due date, and (ii) where in definitive form, at the close of business on the third business day (being for this purpose a day on which banks are open for business in the city where the specified office of the Registrar is located) before the relevant due date (the "**Record Date**"). Notwithstanding the previous sentence, if (i) a holder does not have a Designated Account or (ii) the principal amount of the Notes held by a holder is less than U.S.\$250,000 (or integral multiples of U.S.\$1,000 in excess thereof) (or its approximate equivalent in any other Specified Currency), payment will instead be made by a cheque in the Specified-Settlement Currency drawn on a Designated Bank (as defined below). For these purposes, "**Designated Account**" means the account maintained by a holder with a Designated Bank and identified as such in the Register and "**Designated Bank**" means (i) (in the case of payment in a Specified-Settlement Currency other than euro or CNY) a bank in the principal financial centre of the country of such Specified-Settlement Currency; (ii) (in the case of a payment in euro) any bank which processes payments in euro; and (iii) (in the case of a payment in CNY) in the CNY Settlement Centre(s).

Payments of interest and payments of instalments of principal (other than the final instalment) in respect of each Registered Note (whether or not in global form) will be made by a cheque in the Specified Settlement Currency drawn on a Designated Bank and mailed by uninsured mail on the business day in the city where the specified office of the Registrar is located immediately preceding the relevant due date to the holder (or the first named of joint holders) of the Registered Note appearing in the Register (i) where in global form, at the close of the business day (being for this purpose a day on which Euroclear, Clearstream, Luxembourg, the CMU and/or any other relevant Clearing System are open for business) before the relevant due date, and (ii) where in definitive form, at the close of business on the fifteenth day (whether or not such fifteenth day is a business day) before the Record Date at his address shown in the Register on the Record Date and at his risk. Upon application of the holder to the specified office of the Registrar not less than three business days in the city where the specified office of the Registrar is located before the due date for any payment of interest in respect of a Registered Note, the payment may be made by transfer on the due date in the manner provided in the preceding paragraph. Any such application for transfer shall be deemed to relate to all future payments of interest (other than interest due on redemption) and instalments of principal (other than the final instalment) in respect of the Registered Notes which become payable to the holder who has made the initial application until such time as the Registrar is notified in writing to the contrary by such holder. Payment of the interest due in respect of each Registered Note on redemption and the final instalment of principal will be made in the same manner as payment of the principal amount of such Registered Note. Notwithstanding anything to the contrary in this paragraph, payments of interest and payments of instalments of principal (other than the final instalment) in respect of each Registered Note denominated in CNY (whether or not in global form) will be made solely by transfer to the Designated Account of the holder (or the first named of joint holders) of the Registered Note appearing in the Register (i) where in global form, at the close of the business day (being for this purpose a day on which Euroclear, Clearstream, Luxembourg or the CMU and/or any other relevant Clearing System are open for business) before the relevant due date, and (ii) where in definitive form, at the close of business on the fifteenth day (whether or not such fifteenth day is a business day) before the Record Date.

Holders of Registered Notes will not be entitled to any interest or other payment for any delay in receiving any amount due in respect of any Registered Note as a result of a cheque posted in accordance with this Condition arriving after the due date for payment or being lost in the post. No commissions or expenses shall be charged to such holders by the Registrar in respect of any payments of principal or interest in respect of the Registered Notes.

Neither the Issuer, the Guarantor (if applicable) nor any of the Agents will have any responsibility or liability for any aspect of the records relating to, or payments made on account of, beneficial ownership interests in the Registered Global Notes or for maintaining, supervising or reviewing any records relating to such beneficial ownership interests.

Payments of principal and interest (if any) in respect of the definitive Bearer Notes will (subject as provided below) be made against presentation or surrender of such Bearer Notes or Coupons, as the case may be, at any specified office of any Paying Agent. Payments of principal in respect of instalments (if any), other than the last instalment, will (subject as provided below) be made against surrender of the relevant Receipt. Payment of the last instalment will be made against surrender of the relevant Bearer Note. Each Receipt must be presented for payment of such instalment together with the relevant definitive Bearer Note against which the amount will be payable in respect of that instalment. If any definitive Bearer Notes are redeemed or become repayable prior to the Maturity Date in respect thereof, principal will be payable on surrender of each such Note together with all unmaturing Receipts appertaining thereto. Unmaturing Receipts and Receipts presented without the

definitive Bearer Notes to which they appertain do not constitute obligations of the Issuer. All payments of interest and principal with respect to Bearer Notes will be made only against presentation and surrender of the relevant Bearer Notes, Coupons or Receipts outside the United States (which expression, as used herein, means the United States of America (including the States and the District of Columbia and its possessions)) except as otherwise provided in the third succeeding paragraph. No payments with respect to the Bearer Notes will be made by mail to an address in the United States or by transfer to an account maintained by the holder in the United States.

Subject as provided below, payments in respect of definitive Notes (other than Currency Securities) denominated in a Specified Currency (other than euro or CNY) or, in the case of Currency Securities, payable in a ~~Specified Settlement~~ Currency (other than euro or CNY) will (subject as provided below) be made by a cheque in the ~~Specified Settlement~~ Currency drawn on, or, at the option of the holder and upon 15 days' prior notice to the Principal Paying Agent, by transfer to an account in the ~~Specified Settlement~~ Currency maintained by the payee with, a bank in the principal financial centre of the country of the ~~Specified Settlement~~ Currency. Payments in euro will be made by credit or transfer to a euro account or any other account to which euro may be credited or transferred specified by the payee or, at the option of the payee, by euro-cheque. Payments in CNY will be made by credit or transfer to a CNY account within the CNY Settlement Centre(s) unless otherwise specified in the applicable Final Terms.

Payments of principal and interest (if any) in respect of the Notes represented by Italian Dematerialised Notes will be credited, according to the instructions of Monte Titoli, by the Italian Agent on behalf of the relevant Issuer or the Guarantor, as applicable, to the accounts of those intermediaries adhering to the clearing system whose accounts with Monte Titoli are credited with those Italian Dematerialised Notes and thereafter credited by intermediaries adhering to the clearing system from such aforementioned accounts to the accounts of the beneficial owners of those Italian Dematerialised Notes. The relevant Issuer or the Guarantor, as applicable, will be discharged by payment to, or to the order of, Monte Titoli in respect of the amount so paid. Each of the persons shown in the records of Monte Titoli as the holder of a particular amount of the Italian Dematerialised Notes must look solely to Monte Titoli for his share of each such payment so made to, or to the order of, Monte Titoli.

The applicable Final Terms may also contain provisions for variation of settlement where, for reasons beyond the control of the Issuer or any Noteholder (including, without limitation, unlawfulness, illegality, impossibility, *force majeure*, non-transferability or the like, each a "**Payment Disruption Event**"), the Issuer is not able to make, or any Noteholder is not able to receive, as the case may be, payment on the due date and in the ~~Specified Settlement~~ Currency of any amount of principal or interest due under the Notes.

If the applicable Final Terms specify "CNY Payment Disruption Event" to be applicable, in the event that the Calculation Agent determines, in its sole and absolute discretion, that a CNY Payment Disruption Event has occurred or is likely to occur and that such CNY Payment Disruption Event is material in relation to the Issuer's payment obligations under the Notes in respect of any forthcoming Interest Payment Date, Maturity Date or other date on which any amount in respect of the Notes shall be due and payable (each such date, an "**Affected Payment Date**"), then the Calculation Agent shall notify Noteholders as soon as practicable of the occurrence of such CNY Payment Disruption Event in accordance with Condition 16.

If the applicable Final Terms specify that "CNY Payment Disruption Event" is applicable to the Notes, upon the occurrence of a CNY Payment Disruption Event:

(i) *Postponement*

If the applicable Final Terms specify "Postponement" to be applicable in respect of the Notes, then the Affected Payment Date shall be postponed until the earlier of (A) the second Business Day following the day on which such CNY Payment Disruption Event ceases to exist, and (B) the date falling 14 calendar days following the original date on which the Affected Payment Date was scheduled to fall (the "**CNY Payment Disruption Cut-off Date**") and notice thereof shall be given to the relevant Noteholders in accordance with Condition 16. For the avoidance of doubt, no amount of interest shall be payable in respect of any delay in payment of any amount(s) due to the adjustment of any Affected Payment Date.

In the event that, pursuant to the preceding paragraph, the Affected Payment Date is adjusted to fall on the CNY Payment Disruption Cut-off Date and the Calculation Agent determines that a CNY Payment Disruption Event still exists on such day, then the Issuer shall make payment of the Equivalent Amount of the relevant Interest Amount, Final Redemption Amount or such other amount payable (if applicable) on the CNY Payment Disruption Cut-off Date and notice thereof shall be given to the relevant Noteholders in accordance with Condition 16. Any such payment made by the Issuer on the CNY Payment Disruption Cut-off Date shall be in full and final settlement of its obligations to pay such amount in respect of the Notes.

(ii) *Payment of Equivalent Amount*

If the applicable Final Terms specify "Payment of Equivalent Amount" to be applicable in respect of the Notes, the Issuer shall, upon giving notice prior to the relevant Affected Payment Date to the Noteholders in accordance with Condition 16, make payment of the Equivalent Amount of the relevant Interest Amount, Final Redemption Amount or such other amount payable (if applicable) on the relevant Affected Payment Date. Any such payment made by the Issuer on an Affected Payment Date shall be in full and final settlement of its obligations to pay such amount in respect of the Notes.

For these purposes:

"**CNY**" means Chinese Yuan or Renminbi, the lawful currency of the People's Republic of China (including any lawful successor currency to the CNY).

"**CNY Governmental Authority**" means any de facto or de jure government (or any agency or instrumentality thereof), court, tribunal, administrative or other governmental authority or any other entity (private or public) charged with the regulation of the financial markets (including the central bank) in the People's Republic of China, Hong Kong and any other CNY Settlement Centre(s).

"**CNY Payment Disruption Event**" means the occurrence of any of the following events:

- (A) an event which makes it impossible (where it had previously been possible) or impractical for the Issuer to convert any amounts due and payable in CNY under the Notes into or from the Equivalent Amount Settlement Currency in the general CNY foreign exchange market in the relevant CNY Settlement Centre(s), except where such impossibility or impracticality is due solely to the failure of the Issuer to comply with any law, rule or regulation enacted by any CNY Governmental Authority (unless such law, rule or regulation is enacted after the relevant Trade Date, and it is impossible or impractical for the Issuer, due to events beyond its

control, to comply with such law, rule or regulation) (a "**CNY Inconvertibility Event**"). For the avoidance of doubt, the inability of the Issuer to convert CNY solely due to issues relating to its creditworthiness shall not constitute a CNY Inconvertibility Event;

- (B) an event that makes it impossible (where it had previously been possible) or impractical for the Issuer to deliver (i) CNY between accounts inside the relevant CNY Settlement Centre(s), or (ii) from an account inside the relevant CNY Settlement Centre(s) to an account outside the relevant CNY Settlement Centre(s) (including, if applicable, to another CNY Settlement Centre) and outside Mainland China, or (iii) from an account outside the relevant CNY Settlement Centre(s) (including, if applicable, from an account inside another CNY Settlement Centre) and outside Mainland China to an account inside the relevant CNY Settlement Centre(s), except where such impossibility or impracticality is due solely to the failure of the Issuer to comply with any law, rule or regulation enacted by any CNY Governmental Authority (unless such law, rule or regulation is enacted after the relevant Trade Date, and it is impossible or impractical for the Issuer, due to events beyond its control, to comply with such law, rule or regulation) (a "**CNY Non-Transferability Event**"). For the purposes of determining whether a CNY Non-Transferability Event has occurred only, a segregated CNY fiduciary cash account with the People's Bank of China and operated by Bank of China (Hong Kong) Limited shall be deemed to be an account inside Hong Kong; and
- (C) an event that makes it impossible (where it had previously been possible) or impractical for the Issuer to obtain a firm quote of an offer price in respect of any amounts due and payable in CNY under the Notes (either in one transaction or a commercially reasonable number of transactions that, when taken together, is no less than such amount) in the general CNY foreign exchange market in the relevant CNY Settlement Centre(s) in order to perform its obligations under the Notes (a "**CNY Illiquidity Event**"). For the avoidance of doubt, the inability of the Issuer to obtain such firm quote solely due to issues relating to its creditworthiness shall not constitute a CNY Illiquidity Event.

"**CNY Settlement Centre**" means the financial centre(s) specified as such in the applicable Final Terms in accordance with applicable laws and regulations. If no CNY Settlement Centre is specified in the relevant Final Terms, the CNY Settlement Centre shall be deemed to be Hong Kong.

"**Equivalent Amount**" means, following the occurrence of a CNY Payment Disruption Event and in respect of the relevant Interest Amount, Final Redemption Amount or such other amount payable (if applicable) on the relevant Affected Payment Date or the relevant CNY Payment Disruption Cut-off Date, as the case may be (for these purposes, the "**Relevant CNY Amount**"), an amount in the Equivalent Amount Settlement Currency determined by the Calculation Agent (in its sole and absolute discretion), by converting the Relevant CNY Amount into the Equivalent Amount Settlement Currency using the Equivalent Amount Settlement Price for the relevant Affected Payment Date or the relevant CNY Payment Disruption Cut-off Date, as the case may be.

"**Equivalent Amount Settlement Currency**" means the currency specified as such in the applicable Final Terms.

"**Equivalent Amount Settlement Price**" means, in respect of any relevant day, the spot rate of exchange between CNY and the Equivalent Amount Settlement Currency on such day, appearing on the Equivalent Amount Settlement Price Source at the Equivalent Amount Settlement Valuation Time on such day (expressed

as a number of units (or part units) of CNY for which one unit of the Equivalent Amount Settlement Currency can be exchanged), or if such rate is not available, the arithmetic mean (rounded, if necessary, to four decimal places (with 0.00005 being rounded upwards)) as determined by or on behalf of the Calculation Agent of the bid and offer CNY/Equivalent Amount Settlement Currency exchange rates provided by two or more leading dealers on a foreign exchange market (as selected by the Calculation Agent) at the Equivalent Amount Settlement Valuation Time on such day. If less than two leading dealers provide the Calculation Agent with bid and offer CNY/Equivalent Amount Settlement Currency exchange rates on such day, the Calculation Agent shall determine the Equivalent Amount Settlement Price in its discretion.

"Equivalent Amount Settlement Price Source" means the price source specified in the applicable Final Terms.

"Equivalent Amount Settlement Valuation Time" means, unless otherwise specified in the applicable Final Terms, the time at which the Equivalent Amount Settlement Price Source publishes the Equivalent Amount Settlement Price.

"impossible" or **"impossibility"** in relation to a CNY Payment Disruption Event, shall include (but shall not be limited to) any act which, if done or performed by the Issuer (or any affiliate of the Issuer) would be or result in the breach of any applicable law, rule, or regulation.

"impractical" or **"impracticality"** means, in relation to a CNY Payment Disruption Event and in respect of any action to be taken by the Issuer, that the Issuer (or any of its affiliates) would incur a materially increased amount of taxes, duties, expenses or fees (as compared with circumstances existing on the Trade Date) to perform such action.

Payments of principal and interest (if any) in respect of Notes represented by any Global Note will be made in the manner specified above and otherwise in the manner specified in the relevant Global Note against presentation or surrender, as the case may be, of such Global Note at the specified office of any Paying Agent outside of the United States. A record of each payment made on such Global Note, distinguishing between any payment of principal and any payment of interest, will be made on such Global Note by the Paying Agent to which such Global Note is presented for the purpose of making such payment, and such record shall be *prima facie* evidence that the payment in question has been made.

Notwithstanding the foregoing, payments in respect of Bearer Notes denominated and payable in U.S. dollars will be made at the specified office of any Paying Agent in the United States if (a) the Issuer shall have appointed Paying Agents with specified offices outside the United States with the reasonable expectation that such Paying Agents would be able to make payment at such specified offices outside the United States of the full amount due on the Bearer Notes in the manner provided above when due and (b) payment of the full amount due at all such specified offices outside the United States is illegal or effectively precluded by exchange controls or other similar restrictions.

Notwithstanding the foregoing, payments in respect of Notes denominated and payable in CNY will be made solely by transfer to a CNY bank account maintained in the CNY Settlement Centre(s) in accordance with prevailing rules and regulations.

The holder of the relevant Global Note shall be the only person entitled to receive payments in respect of Notes represented by such Global Note and the payment obligations of the Issuer or the Guarantor (if applicable) will be discharged by payment to, or to the order of, the holder of such Global Note in respect of each amount so paid. Each of the persons shown in the records of Euroclear and/or Clearstream, Luxembourg or the CMU as the holder of a particular nominal amount of Notes must look solely to Euroclear and/or Clearstream, Luxembourg or the CMU, as the case may be, for his

share of each payment so made by the Issuer to, or to the order of, the holder of the relevant Global Note. No person other than the holder of the relevant Global Note shall have any claim against the Issuer or the Guarantor (if applicable) in respect of any payments due on that Global Note.

Fixed Rate Bearer Notes in definitive form should be presented for payment with all unmatured Coupons appertaining thereto (which expression shall include Coupons to be issued on exchange of Talons which will have matured on or before the relevant redemption date), failing which the full amount of any missing unmatured Coupon (or, in the case of payment not being made in full, that proportion of the full amount of such missing unmatured Coupon which the sum so paid bears to the total amount due) will be deducted from the sum due for payment. Any amount so deducted will be paid in the manner mentioned above against surrender of the relevant missing Coupon within a period of 10 years from the Relevant Date (as defined in Condition 6) for the payment of such sum due for payment, whether or not such Coupon has become void pursuant to Condition 13 or, if later, five years from the due date for payment of such Coupon. Upon any Fixed Rate Bearer Note becoming due and repayable prior to its Maturity Date, all unmatured Talons (if any) appertaining thereto will become void and no further Coupons will be issued in respect thereof.

Upon the due date for redemption of any Floating Rate Note, Dual Currency Interest Note, Dual Currency Redemption Note (each, a "Dual Currency Note"), Index Security, Share Security, Inflation Security, Commodity Security, Fund Security, Credit Security, ETI Security, Currency Security, Debt Security or Hybrid Security in definitive bearer form all unmatured Coupons relating to such Note (whether or not attached) shall become void and no payment shall be made in respect of them. Where any Floating Rate Note, Index Security, Share Security, Inflation Security, Commodity Security, Fund Security, Credit Security, ETI Security, Currency Security, Debt Security or Hybrid Security is presented for redemption without all unmatured Coupons appertaining thereto, payment of all amounts due in relation to such Note shall be made only against the provision of such indemnity of the Issuer or the Guarantor (if applicable).

If any date for payment of any amount in respect of any Note, Receipt or Coupon is not a Payment Day, then the holder thereof shall not be entitled to payment of the amount due until the next following Payment Day and shall not be entitled to any interest or other sum in respect of any such delay. If the due date for redemption of any interest bearing Note in definitive form is not a due date for the payment of interest relating thereto, interest accrued in respect of such Note from (and including) the last preceding due date for the payment of interest (or from the Interest Commencement Date) will be paid against surrender of such Note.

For these purposes, "**Payment Day**" means any day which (subject to Condition 13) is:

- (i) a day on which commercial banks and foreign exchange markets settle payments and are open for general business (including dealing in foreign exchange and foreign currency deposits) in:
 - (A) the relevant place of presentation;
 - (B) each Financial Centre specified in the applicable Final Terms; and
- (ii) either (A) in relation to any sum payable in euro, a day on which the TARGET2 System is open; or (B) in relation to any sum payable in CNY, a day on which commercial banks and foreign exchange markets settle payments and are open for general business (including dealing in foreign exchange and foreign currency deposits) in the CNY Settlement Centre(s).

On and after the Interest Payment Date on which the final Coupon comprised in any Coupon sheet matures, the Talon (if any) forming part of such Coupon sheet may be surrendered at the specified office of the Principal Paying Agent or any other Paying Agent in exchange for a further Coupon sheet including (if such further Coupon sheet does not include Coupons to, and including, the final date for the payment of interest due in respect of the Note to which it appertains) a further Talon, subject to the provisions of Condition 14. Each Talon shall, for the purposes of these Terms and Conditions, be deemed to mature on the Interest Payment Date on which the final Coupon comprised in the relative Coupon sheet matures.

If the determination of any amount (whether in respect of principal, interest or otherwise) due in respect of the Notes on an Interest Payment Date, Instalment Date, early redemption date or the Maturity Date (such date a "**Scheduled Payment Date**") is calculated by reference to the valuation of one or more Underlying Reference(s) and the date (or final date, as the case may be) for such valuation is postponed or delayed as provided in the Terms and Conditions or in the applicable Final Terms to a date (such date the "**Delayed Date**") falling after the day that is two Business Days preceding such Scheduled Payment Date, notwithstanding any provision to the contrary in the Terms and Conditions or in the applicable Final Terms, such Interest Payment Date, Instalment Date, early redemption date or the Maturity Date, as the case may be, shall be postponed to the day falling two Business Days following such Delayed Date and no interest or other amount shall be payable on the Notes in respect of such delay.

The names of the initial Principal Paying Agent and the other initial Paying Agents and their initial specified offices are set out below. The Issuer reserves the right at any time to vary or terminate the appointment of any Paying Agent and to appoint additional or other Paying Agents and/or to approve any change in the specified office of any Paying Agent, provided that:

- (i) so long as any Notes are listed on any stock exchange, there will at all times be a Paying Agent, which may be the Principal Paying Agent (in the case of Bearer Notes) and a Transfer Agent, which may be the Registrar (in the case of Registered Notes) with a specified office in the place required by the rules and regulations of the relevant stock exchange; and
- (ii) there will at all times be a Principal Paying Agent and a Registrar; and
- (iii) there will at all times be a Paying Agent in a jurisdiction within continental Europe other than the jurisdiction of the Issuer;

(C) Determinations and Delivery

Any determination as to whether an Asset Transfer Notice is duly completed and in proper form shall be made, in the case of Notes represented by a Global Note, by the relevant Clearing System or, in the case of Notes in definitive form, by the relevant Paying Agent or the Registrar, as the case may be, or in each case in consultation with the Principal Paying Agent, and shall be conclusive and binding on the Issuer, the Guarantor (if applicable), the Principal Paying Agent(s), any Delivery Agent and the relevant Noteholder. Subject as set out below, any Asset Transfer Notice so determined to be incomplete or not in proper form, or which is not copied to the Principal Paying Agent and any Delivery Agent immediately after being delivered or sent as provided in paragraph (A) above, shall be null and void.

No Asset Transfer Notice may be withdrawn after receipt thereof by the relevant Clearing System, the Registrar or a Paying Agent, as the case may be, as provided above. After delivery of an Asset Transfer Notice, the relevant Noteholder may not transfer the Notes which are the subject of such notice.

The Entitlement will be delivered at the risk of the relevant Noteholder, in the manner provided below on the date fixed for redemption (such date, subject to adjustment in accordance with this Condition, the "**Delivery Date**") or in the case of Credit Securities Delivered at the risk of the relevant Noteholder, in the manner provided below on the Settlement Date, provided that the Asset Transfer Notice is duly delivered as provided above on or prior to the Cut-Off Date.

If a Noteholder fails to give an Asset Transfer Notice as provided herein with a copy to the Principal Paying Agent and the Delivery Agent, on or prior to the Cut-Off Date, then the Entitlement will be delivered or, as the case may be, Delivered as

soon as practicable after the date fixed for redemption (in which case, such date of delivery shall be the Delivery Date) or (in the case of Credit Securities) the Settlement Date at the risk of such Noteholder in the manner provided below. For the avoidance of doubt, in such circumstances such Noteholder shall not be entitled to any payment, whether of interest or otherwise, as a result of such Delivery Date falling after the date fixed for redemption or the originally designated Settlement Date, as applicable and no liability in respect thereof shall attach to the Issuer or the Guarantor (if applicable), if any.

The Issuer (or any Delivery Agent on its behalf) shall at the risk of the relevant Noteholder, deliver or procure the delivery of the Entitlement for each Note or (in the case of Credit Securities) Deliver the Deliverable Obligations comprising the Entitlement, in such commercially reasonable manner as the Calculation Agent shall in its sole discretion determine and notify to the person designated by the Noteholder in the relevant Asset Transfer Notice or in such manner as is specified in the applicable Final Terms. (D) General

If Aggregation is specified as applicable in the applicable Final Terms, Notes held by the same Noteholder will be aggregated for the purpose of determining the aggregate Entitlements in respect of such Notes. The Entitlement or aggregate Entitlements in respect of the same Noteholder will be rounded down to the nearest whole unit of the Relevant Asset or each of the Relevant Assets, as the case may be, in such manner as the Calculation Agent shall determine. Therefore, fractions of the Relevant Asset or of each of the Relevant Assets, as the case may be, will not be delivered and in lieu thereof a cash adjustment calculated by the Calculation Agent in its sole and absolute discretion shall be paid to the Noteholder.

Following the Delivery Date of a Share or ETI Interest all dividends on the relevant Shares or ETI Interest to be delivered will be payable to the party that would receive such dividend according to market practice for a sale of the Shares or ETI Interests executed on the Delivery Date and to be delivered in the same manner as such relevant Shares or ETI Interests. Any such dividends to be paid to a Noteholder will be paid to the account specified by the Noteholder in the relevant Asset Transfer Notice as referred to in Condition 4(b)(i)(A).

For such period of time after delivery or Delivery of the Entitlement as the Issuer or any person acting on behalf of the Issuer shall continue to be the legal owner of the securities or Deliverable Obligations comprising the Entitlement (the "**Intervening Period**"), none of the Issuer, the Guarantor (if applicable), the Paying Agents, the Registrar, any Delivery Agent or any other person shall at any time (i) be under any obligation to deliver or procure delivery to any Noteholder any letter, certificate, notice, circular or any other document or, except as provided herein, payment

(E) Settlement Disruption

The provisions of this Condition 4(b)(i)(E) apply to Notes other than Credit Securities.

If, in the opinion of the Calculation Agent, delivery of the Entitlement using the method of delivery specified in the applicable Final Terms or such commercially reasonable manner as the Calculation Agent has determined is not practicable by reason of a Settlement Disruption Event (as defined below) having occurred and continuing on the Delivery Date, then the Delivery Date shall be postponed to the first following Settlement Business Day in respect of which there is no such Settlement Disruption Event, provided that, the Issuer may elect in its sole discretion to satisfy its obligations in respect of the relevant Note by delivering the Entitlement using such other commercially reasonable manner as it may select and in such event the Delivery Date shall be such day as the Issuer deems appropriate in connection with delivery of the Entitlement in such other commercially reasonable manner. For the avoidance of doubt, where a Settlement Disruption Event affects some but not all of the Relevant Assets comprising the Entitlement, the Delivery Date for the Relevant Assets not affected by the Settlement Disruption Event will be the originally designated Delivery Date. For so long as delivery of the Entitlement is not practicable by reason of a Settlement Disruption Event, then in lieu of physical settlement and notwithstanding any other provision hereof the Issuer may elect in its sole discretion to satisfy its obligations in respect of the relevant Note by payment to the relevant Noteholder of the Disruption Cash Redemption Amount (as defined below) on the fifth Business Day following the date that notice of such election is given to the Noteholders in accordance with Condition 16. Payment of the Disruption Cash Redemption Amount will be made in such manner as shall be notified to the Noteholders in accordance with Condition 16. The Calculation Agent shall give notice as soon as practicable to the Noteholders in accordance with Condition 16 that a Settlement Disruption Event has occurred. No Noteholder shall be entitled to any payment in respect of the relevant Note in the event of any delay in the delivery of the Entitlement due to the occurrence of a Settlement Disruption Event and no liability in respect thereof shall attach to the Issuer.

For the purposes hereof:

"Disruption Cash Redemption Amount", in respect of any relevant Note, shall be the fair market value of such Note (taking into account, where the Settlement Disruption Event affected some but not all of the Relevant Assets comprising the Entitlement and such non affected Relevant Assets have been duly delivered as provided above, the value of such Relevant Assets) less, except in the case of Italian Listed Notes, the cost to the Issuer and/or its affiliates of unwinding any underlying

related hedging arrangements, all as determined by the Issuer in its sole and absolute discretion;

"Settlement Business Day" has the meaning specified in the applicable Final Terms; and

"Settlement Disruption Event" means, in the opinion of the Calculation Agent or, if the proviso in Condition 2.2(c) applies, the Guarantor, an event beyond the control of the Issuer or the Guarantor, as the case may be, as a result of which the Issuer or the Guarantor, as the case may be, cannot make delivery of the Relevant Asset(s) using the method specified in the applicable Final Terms.

(F) Failure to Deliver due to Illiquidity

The provisions of this Condition 4(b)(i)(F) apply to the Notes other than Credit Securities.

If "Failure to Deliver due to Illiquidity" is specified as applying in the applicable Final Terms and in the opinion of the Calculation Agent, it is impossible or impracticable to deliver, when due, some or all of the Relevant Assets (the **"Affected Relevant Assets"**) comprising the Entitlement, where such failure to deliver is due to illiquidity in the market for the Relevant Assets (a **"Failure to Deliver due to Illiquidity"**), then:

- I. subject as provided elsewhere in the Terms and Conditions, any Relevant Assets which are not Affected Relevant Assets, will be delivered on the originally designated date of redemption in accordance with this Condition 4(b); and
- II. in respect of any Affected Relevant Assets, in lieu of physical settlement and notwithstanding any other provision hereof the Issuer may elect in its sole discretion to satisfy its obligations in respect of the relevant Note by payment to the relevant Noteholder of the Failure to Deliver Redemption Amount (as defined below) on the fifth Business Day following the date that notice of such election is given to the Noteholders in accordance with Condition 16. Payment of the Failure to Deliver Redemption Amount will be made in such manner as shall be notified to the Noteholders in accordance with Condition 16. The Calculation Agent shall give notice as soon as practicable to the Noteholders in accordance with Condition 16 that the provisions of this Condition 4(b)(i)(F) apply.

For the purposes hereof, **"Failure to Deliver Redemption Amount"** in respect of any relevant Note shall be the fair market value of such Note (taking into account, the Relevant Assets comprising the Entitlement which have been duly delivered as provided above, the value of such Relevant Assets), less, except in the case of Italian Listed Notes, the cost to the Issuer and/or its affiliates of unwinding any underlying related hedging arrangements, all as determined by the Issuer in its sole and absolute discretion.

(G) Additional Provisions for Credit Securities

In the case of Credit Securities, the provisions contained in Annex 12 – "Additional Terms and Conditions for Credit Securities" shall apply.

(ii) *Variation of Settlement*

(A) If the applicable Final Terms indicate that the Issuer has an option to vary settlement in respect of the Notes, the Issuer may at its sole and absolute discretion in respect of each such Note, elect not to pay the relevant Noteholders the Final Redemption Amount or to deliver or procure delivery of the Entitlement to the relevant Noteholders, as the case may be, but, in lieu thereof to deliver or procure delivery of the Entitlement or make payment of the Final Redemption Amount on the Maturity Date to the relevant Noteholders, as the case may be. Notification of such election will be given to Noteholders in accordance with Condition 16.

(B) If specified in the applicable Final Terms, the Issuer shall, in respect of each Note, in lieu of delivering or procuring the delivery of the Entitlement to the relevant Noteholders, make payment of the Final Redemption Amount on the Maturity Date to the relevant Noteholders.

(C) Condition 4(b)(ii) will not apply to Italian Dematerialised Notes.

(iii) *Issuer's Option to Substitute Assets or to pay the Alternate Cash Redemption Amount*

Notwithstanding any provision of these Conditions to the contrary, the Issuer may, in its sole and absolute discretion in respect of such Notes, if the Calculation Agent determines (in its sole and absolute discretion) that the Relevant Asset or Relevant Assets, as the case may be, comprises shares or ETI Interests which are not freely tradable, elect either (i) to substitute for the Relevant Asset or the Relevant Assets, as the case may be, an equivalent value (as determined by the Calculation Agent in its sole and absolute discretion) of such other shares or ETI Interests which the Calculation Agent determines, in its sole and absolute discretion, are freely tradable (the "**Substitute Asset**" or the "**Substitute Assets**", as the case may be) or (ii) not to deliver or procure the delivery of the Entitlement or the Substitute Asset or Substitute Assets, as the case may be, to the relevant Noteholders, but in lieu thereof to make payment to the relevant Noteholder on the Settlement Date of an amount equal to the fair market value of the Entitlement on the Valuation Date as determined by the Calculation Agent in its sole and absolute discretion by reference to such sources as it considers appropriate (the "**Alternate Cash Redemption Amount**"). Notification of any such election will be given to Noteholders in accordance with Condition 16 and in the event that the Issuer elects to pay the Alternate Cash Redemption Amount such notice shall give details of the manner in which such amount shall be paid.

For purposes hereof, a "**freely tradable**" share or an ETI Interest shall mean (i) with respect to the United States, a share or an ETI Interest, as the case may be, which is registered under the Securities Act or not restricted under the Securities Act and which is not purchased from the issuer of such share or an ETI Interest, as the case may be, and not purchased from an affiliate of the issuer of such share or an ETI Interest, as the case may be, or which otherwise

meets the requirements of a freely tradable share or an ETI Interest, as the case may be, for purposes of the Securities Act, in each case, as determined by the Calculation Agent in its sole and absolute discretion or (ii) with respect to any other jurisdiction, a share or an ETI Interest, as the case may be, not subject to any legal restrictions on transfer in such jurisdiction.

None of the Issuer, the Guarantor (if applicable), the Calculation Agent, any Delivery Agent and the Agents shall have any responsibility for any errors or omissions in any calculation or determination in respect of the Notes, unless, in the case of Italian Listed Notes, such errors or omissions are due to its own wilful misconduct or gross negligence.

The purchase of Notes does not confer on any holder of such Notes any rights (whether in respect of voting, distributions or otherwise) attaching to any Relevant Asset.

(v) *Commodity Securities*

Commodity Securities shall not be redeemed by physical delivery and the provisions of this Condition 4(b) shall not apply to Commodity Securities.

(vi) *Italian Dematerialised Notes*

The "**Optional Redemption Amount**", in respect of each nominal amount of Notes equal to the Calculation Amount, shall be an amount calculated by the Calculation Agent equal to:

(i) Calculation Amount x the percentage or (ii) the Call Payout, as specified in the applicable Final Terms,

Provided That if the product of the Call Payout is zero, no amount shall be payable on redemption of such Note.

In the case of a partial redemption of Notes, the Notes to be redeemed ("**Redeemed Notes**") will (i) in the case of Redeemed Notes represented by definitive Notes, be selected individually by lot, not more than 30 days prior to the date fixed for redemption (such date of selection being hereinafter called the "**Selection Date**") ~~and~~ (ii) in the case of Redeemed Notes represented by a Global Note, be selected in accordance with the rules of Euroclear and/or Clearstream, Luxembourg, (to be reflected in the records of Euroclear and Clearstream, Luxembourg as either a pool factor or a reduction in nominal amount, at their discretion) and (iii) in the case of Italian Dematerialised Notes, be governed by the standard procedures of Monte Titoli. In the case of Redeemed Notes represented by definitive Notes, a list of the serial numbers of such Redeemed Notes will be published in accordance with Condition 16 not less than 15 days prior to the date fixed for redemption. The aggregate nominal amount of Redeemed Notes represented by definitive Notes shall bear the same proportion to the aggregate nominal amount of all Redeemed Notes as the aggregate nominal amount of definitive Notes outstanding bears to the aggregate nominal amount of the Notes outstanding, in each case on the Selection Date, provided that such first mentioned nominal amount shall, if necessary, be rounded downwards to the nearest integral multiple of the Specified Denomination, and the aggregate nominal amount of Redeemed Notes represented by a Global Note shall be equal to the balance of the Redeemed Notes.

(i) Calculation Amount x the percentage or (ii) the Put Payout, as specified in the applicable Final Terms,

Provided That if the product of the Put Payout is zero, no amount shall be payable on redemption of such Note.

If this Note is in definitive form and held outside Euroclear and Clearstream, Luxembourg or the CMU, to exercise the right to require redemption of this Note the relevant Noteholder must deliver at the specified office of the Registrar or, as the case may be, any Paying Agent at any time during normal business hours of such Registrar or Paying Agent falling within the Notice Period, a duly completed and signed notice of exercise in the form (for the time being current) obtainable from any specified office of the Registrar or any Paying Agent (a "**Put Notice**") and in which the Noteholder must specify a bank account (or, if payment is required to be made by cheque, an address) to which payment is to be made under this Condition, accompanied by this Note or evidence satisfactory to the Registrar or the Paying Agent concerned that this Note will, following delivery of the Put Notice, be held to its order or under its control in accordance with the Note Agency Agreement. If this Note is an Italian Dematerialised Note held through Monte Titoli to exercise the right to require redemption of the Note the Holder of the Note must, within the Notice Period, give notice to the Italian Agent of such exercise in accordance with the standard procedures of Monte Titoli in a form acceptable to Monte Titoli.

Any Put Notice given by a Noteholder pursuant to this paragraph shall be irrevocable except where prior to the due date of redemption an Event of Default shall have occurred and be continuing in which event such Noteholder, at its option, may elect by notice to the Issuer to withdraw the notice given pursuant to this paragraph and instead to declare such Note forthwith due and payable pursuant to Condition 8.

5.5 Early Redemption

In the event that any amounts are required to be deducted or withheld for, or on behalf of, any Tax Jurisdiction, the Issuer or, as the case may be, the Guarantor shall, to the fullest extent permitted by law, pay such additional amount as may be necessary, in order that each Noteholder, Receiptholder or Couponholder, after deduction or withholding of such taxes, duties, assessments or governmental charges, will receive the full amount then due and payable provided that no such additional amount shall be payable with respect to any Note, Receipt or Coupon:

- (a) presented for payment by or on behalf of a holder who is liable to such taxes, duties, assessments or governmental charges in respect of such Note, Receipt or Coupon by reason of his being connected with the Netherlands (in the case of payments by BNPP B.V.) or France (in the case of payments by the Guarantor) other than by the mere holding of such Note, Receipt or Coupon; or
- (b) presented for payment more than 30 days after the Relevant Date (as defined below), except to the extent that the holder thereof would have been entitled to an additional amount on presenting the same for payment on such thirtieth day assuming that day to have been a Payment Day (as defined in Condition 4(a)); or
- (c) where such withholding or deduction is imposed on a payment to an individual beneficial owner or a residual entity and is required to be made pursuant to Council Directive 2003/48/EC on the taxation of savings income or any law (whether in or outside the European Union) implementing or complying with, or introduced in order to conform to, such Directive; or
- (d) presented for payment by or on behalf of a holder who would have been able to avoid such withholding or deduction by presenting the relevant Note, Receipt or Coupon to another Paying Agent in a Member State of the European Union.

In these Terms and Conditions:

- (x) **Tax Jurisdiction** means France or any political subdivision or any authority thereof or therein having power to tax (in the case of payments by BNPP as Guarantor) or the Netherlands or any political subdivision or any authority thereof or therein having power to tax (in the case of payments by BNPP B.V.); and

- (i) presented for payment in Belgium; or
- (ii) to, or to a third party on behalf of, a holder who is able to avoid such withholding or deduction by placing such Note or Coupon in safe custody with a Belgian bank and by making a declaration of non-residence or other similar claim for exemption to the relevant tax authority; or
- (iii) to, or to a third party on behalf of, a holder where such holder is liable to such taxes or duties in respect of such Note or Coupon by reason of its having some connection with Belgium other than by reason only of the holding of such Note or Coupon or the receipt of the relevant payment in respect thereof; or
- (iv) presented for payment more than 30 days after the Relevant Date except to the extent that the holder thereof would have been entitled to such additional amounts on presenting the same for payment on such thirtieth day; or

As used in these Conditions, "**Relevant Date**" in respect of any Note or Coupon means the date on which payment in respect thereof first became due or (if any amount of the money payable is improperly withheld or refused) the date on which payment in full of the amount outstanding is made or (if earlier) the date on which notice is duly given to the Noteholders in accordance with Condition 16 that, upon further presentation of the Note or Coupon being made in accordance with the Conditions, such payment will be made, **provided that**

The relevant Issuer (or, if applicable, the Guarantor) will have no obligation to pay additional amounts or otherwise indemnify an investor for any such FATCA withholding deducted or withheld by the Issuer, the paying agent or any other party.

6.3 Notes issued by BGL

Subject to Condition 6.4, in the case of Notes issued by BGL, all payments of principal and interest in respect of the Notes and Coupons by or on behalf of the Issuer will be made without withholding or deduction for or on account of any present or future taxes or duties of whatever nature imposed or levied by or on behalf of any Tax Jurisdiction unless such withholding or deduction is required by law. In such event, the Issuer will pay such additional amounts as shall be necessary in order that the net amounts received by the Noteholders or Coupons after such withholding or deduction shall equal the respective amounts of principal and interest which would otherwise have been receivable in respect of the Notes or Coupons, as the case may be, in the absence of such withholding or deduction, except that no such additional amounts shall be payable with respect to any Note or Coupon:

- (a) presented for payment to, or to a third party on behalf, of a holder who is liable for such taxes or duties in respect of such Note, Receipt or Coupon by reason of his having some connection with a Tax Jurisdiction other than the mere holding of such Note or Coupon; or
- (b) presented for payment more than 30 days after the Relevant Date (as defined below) except to the extent that the holder thereof would have been entitled to an additional amount on presenting the same for payment on such thirtieth day assuming that day to have been a Payment Day; or

authority thereof or therein having power to tax to which the Issuer becomes subject in respect of payments made by it of principal and interest on the Notes and Coupons; and

- (B) the "**Relevant Date**" means the date on which such payment first becomes due, except that, if the full amount of the moneys payable has not been duly received by the Agent on or prior to such due date, it means the date on which, the full amount of such moneys having been so received, notice to that effect is duly given to the Noteholders in accordance with Condition 16.

7. **REDENOMINATION**

7.1 **Redenomination**

Where redenomination is specified in the applicable Final Terms as being applicable, the Issuer may, without the consent of the Noteholders, the Receiptholders and the Couponholders, on giving prior notice to the Principal Paying Agent, Euroclear ~~and~~ Clearstream, Luxembourg and Monte Titoli and at least 30 days' prior notice to the Noteholders in accordance with Condition 16 (and, in the case of Italian Dematerialised Notes, in accordance with the standard procedures of Monte Titoli), elect that, with effect from the Redenomination Date specified in the notice, the Notes shall be redenominated in euro.

The election will have effect as follows:

- (a) the Notes and the Receipts shall be deemed to be redenominated into euro in the denomination of euro 0.01 with a principal amount for each Note and Receipt equal to the principal amount of that Note or Receipt in the Specified Currency, converted into euro at the Established Rate, provided that, if the Issuer determines, with the agreement of the Principal Paying Agent, that the then market practice in respect of the redenomination into euro of internationally offered securities is different from the provisions specified above, such provisions shall be deemed to be amended so as to comply with such market practice and the Issuer shall promptly notify the Noteholders, the stock exchange (if any) on which the Notes may be listed and the Paying Agents of such deemed amendments;
- (b) save to the extent that an Exchange Notice has been given in accordance with paragraph (d) below, the amount of interest due in respect of the Notes will be calculated by reference to the aggregate principal amount of Notes presented (or, as the case may be, in respect of which Coupons are presented) for payment by the relevant Noteholder and the amount of such payment shall be rounded down to the nearest euro 0.01;
- (c) if definitive Notes are required to be issued after the Redenomination Date, they shall be issued at the expense of the Issuer in the denominations of euro 1,000, euro 10,000, euro 100,000 and (but only to the extent of any remaining amounts less than euro 1,000 or such smaller denominations as the Principal Paying Agent may approve) euro 0.01 and such other denominations as the Principal Paying Agent shall determine and notify to the Noteholders;

- (d) if issued prior to the Redenomination Date, all unmatured Coupons denominated in the Specified Currency (whether or not attached to the Notes) will become void with effect from the date on which the Issuer gives notice (the "**Exchange Notice**") that replacement euro-denominated Notes, Receipts and Coupons are available for exchange (provided that such securities are so available) and no payments will be made in respect of them. The payment obligations contained in any Notes and Receipts so issued will also become void on that date although those Notes and Receipts will continue to constitute valid exchange obligations of the Issuer. New euro-denominated Notes, Receipts and Coupons will be issued in exchange for Notes, Receipts and Coupons denominated in the Specified Currency in such manner as the Principal Paying Agent may specify and as shall be notified to the Noteholders in the Exchange Notice. No Exchange Notice may be given less than 15 days prior to any date for payment of principal or interest on the Notes;
- (e) after the Redenomination Date, all payments in respect of the Notes, the Receipts and the Coupons, other than payments of interest in respect of periods commencing before the Redenomination Date, will be made solely in euro as though references in the Notes to the ~~Specified Settlement~~ Currency were to euro. Payments will be made in euro by credit or transfer to a euro account (or any other account to which euro may be credited or transferred) specified by the payee or, at the option of the payee, by a euro cheque;
- (f) if the Notes are Fixed Rate Notes and interest for any period ending on or after the Redenomination Date is required to be calculated for a period ending other than on a Fixed Interest Date, it will be calculated by applying the Rate of Interest to each Specified Denomination, multiplying such sum by the applicable Day Count Fraction, and rounding the resultant figure to the nearest sub-unit (defined above) of the relevant Specified Currency, half of any such sub-unit being rounded upwards or otherwise in accordance with applicable market convention;
- (g) if the Notes are Floating Rate Notes, the applicable Final Terms will specify any relevant changes to the provisions relating to interest; and
- (h) such other changes shall be made to these Conditions as the Issuer may decide, after consultation with the Principal Paying Agent, and as may be specified in the notice, to conform them to conventions then applicable to instruments denominated in euro.

AMENDMENTS TO THE TAXATION SECTION

The section "Taxation" on pages 1125 to 1180 of the Base Prospectus is amended by the insertion of the following new sub-section: immediately following the sub-section on page 1138 entitled "Czech Republic Taxation":

"DANISH TAXATION

The following is a summary description of the taxation in Denmark of Notes, Warrants and Certificates according to Danish tax laws in force as of the date of this Base Prospectus and is subject to any changes in law and the interpretation and application thereof, which changes could be made with retroactive effect. The following summary does not purport to be a comprehensive description of all the tax considerations that may be relevant to a decision to invest, hold or dispose of Notes, Warrants or Certificates, and does not purport to deal with the tax consequences applicable to all categories of investors, some of which (such as professional dealers in securities) may be subject to special rules. Potential investors are under all circumstances strongly recommended to contact their own tax advisor to clarify the individual consequences of their investment, holding and disposal of Notes, Warrants or Certificates.

Taxation of Notes

Taxation at source

Under existing Danish tax laws, no general withholding tax or coupon tax will apply to payments of interest or principal or other amounts due on the Notes, other than in certain cases on payments in respect of controlled debt in relation to the Issuer as referred to in The Danish Corporation Tax Act (in Danish "Selskabsskatteloven") of 14 November 2012 (as amended). This will not have any impact on Noteholders who are not in a relationship whereby they control, or are controlled, by the relevant Issuer or where the holders of the Notes and the relevant Issuer are not controlled by the same group of shareholders.

Resident Noteholders

Private individuals, including individuals who are engaged in financial trade, companies and similar enterprises resident in Denmark for tax purposes or receiving interest on the Notes through their permanent establishment in Denmark are liable to pay tax on such interest.

Capital gains and losses are taxable to individuals and corporate entities in accordance with the Danish Capital and Exchange Gains Act (in Danish "Kursgevinstloven") of 18 September 2013 (as amended) (the "**Danish Capital and Exchange Gains Act**"). Gains and losses on Notes issued to corporate entities are generally included in the taxable income in accordance with a mark-to-market principle (in Danish "lagerprincippet"), i.e. on an unrealised basis.

Gains and losses on Notes issued to individuals are generally included in the taxable income on a realised basis. The net gain is taxed as capital income at a rate of up to 42 per cent. in 2014. However, the gain or loss will only be included in the taxable income when the net gain or loss for the year on debt claims, on debt denominated in foreign currency and on investment certificates in bond-based investment funds subject to minimum taxation in total exceeds DKK 2,000.

Gains and losses on Notes issued to corporate entities are taxed at the ordinary corporate income tax rate.

Structured notes can be designed in many ways and with many different underlying assets or in a way that the yield will depend on various index or currency flows. When structured notes are issued the following tax rules apply.

Gains and losses on structured notes are generally treated as gains and losses on financial instruments in accordance with section 29(3) of the Danish Capital and Exchange Gains Act. However, there are exceptions – for example, notes which are adjusted in relation to developments in the consumer prices index (as computed by Statistics Denmark (in Danish "*Danmarks Statistik*")), the net consumer-price index or a similar index within the European Union or any of its member states. The gains and losses are calculated irrespective of the rules applying to the underlying asset.

Gains and losses on structured notes issued to both corporate entities and individuals are predominantly treated as taxable income in accordance with a mark-to-market principle (in Danish "*lagerprincippet*"), i.e. on an unrealised basis.

Corporate entities are generally able to deduct losses on structured notes, but individuals may only deduct losses on structured notes against gains on other financial instruments. However, in both cases, certain restrictions and exceptions apply.

Pension funds and other entities governed by the Danish Act on Taxation of Pension Investments Returns (in Danish "*Pensionsafkastbeskatningsloven*") of 22 February 2011 (as amended) are, irrespective of realisation, taxed on the annual increase or decrease in the fair market value of the Notes according to a mark-to-market principle (in Danish "*lagerprincippet*") as specifically laid down in the Danish Capital and Exchange Gains Act. The net return is generally taxed at a flat rate of 15.3 per cent.

Non-resident Noteholders

Under existing Danish tax laws, payments of interest or principal amounts to any non-resident Noteholder are not subject to taxation in Denmark. No withholding tax is payable with respect to such payments and any capital gain realised upon the sale, exchange or retirement of a Note is not subject to taxation in Denmark other than in certain cases on payments in respect of controlled debt as referred to in this sub-section under "*Taxation at source*" above.

This tax treatment applies solely to Noteholders who are not subject to full tax liability in Denmark or included in a Danish joint taxation scheme and do not carry on business in Denmark through a permanent establishment.

Taxation of Warrants and Certificates

Warrants and Certificates can either be taxed separately as a financial instrument or as a gain or loss on the underlying asset.

In order not to be taxed separately, a number of conditions must be met, including in particular, that the parties to the warrant instrument remain the same and that the underlying asset will be delivered (as opposed to cash settlement). If taxation takes place as taxation of the underlying asset, the nature of the taxation will depend on the type of asset in question.

If the underlying asset is a debt claim, taxation of such Warrants and Certificates will take place in accordance with the Act. If the underlying financial asset is of a kind that will lead to taxation under the Danish Act on Capital Gains Tax on Shares (in Danish: "*Aktieavancebeskatningsloven*") of 31 October 2013 (as amended), the holder of Warrants and Certificates will be deemed a shareholder for Danish tax purpose and be taxed in the following manner;

Resident personal holders of Warrants and Certificates

Sale, redemption or other disposals of Warrants and Certificates covered by the Danish Act on Capital Gains Tax on Shares are considered a realisation for Danish tax purposes. A capital gain or loss obtained by a

Danish resident personal shareholder through a disposal of Warrants or Certificates is taxable or tax deductible in Denmark, respectively.

Capital gains will be subject to taxation as share income at a rate of 27 per cent. on annual share income up to DKK 49,200 and 42 per cent. of share income exceeding DKK 49,200. The stated amount limits are applicable for 2014. The amount limits are doubled for married couples co-habiting at the end of the income year. Losses upon the realisation of Warrants and Certificates can be deducted.

Resident corporate holders of Warrants and Certificates

Danish resident holders of shares are subject to tax on dividends. Companies holding at least 10 per cent of a Danish company (subsidiary shares) are as a general rule, however, not liable to pay tax on dividends irrespective of the period of ownership. The corporate tax rate is 24.5 per cent in 2014.

Non-Resident holders of Warrants and Certificates

For non-tax residents, capital gains on shareholdings remain tax free irrespective of ownership percentage and ownership period. Generally, corporate shareholders are also exempt from tax on dividends if holding 10 per cent or more in a Danish company however exceptions apply. Dividends paid to corporate shareholders holding less than 10 per cent or dividends paid to individuals are subject to Danish withholding tax at a rate of up to 27 per cent."

AMENDMENTS TO THE "OFFERING AND SALE" SECTION

The section "Offering and Sale" on pages 1209 to 1219 of the Base Prospectus is amended by the insertion of the following new sub-section: immediately following the sub-section on page 1219 entitled "Australia":

The Board of Directors of BNP Paribas met on 4 February 2015. The meeting was chaired by Jean Lemierre and the Board examined the Group's results for the fourth quarter and endorsed the 2014 financial statements.

GOOD OPERATING PERFORMANCE BUT SIGNIFICANT IMPACT OF ONE-OFF ITEMS IN 2014

The Group's results reflect this year the negative impact of significant one-off items. Excluding these items, the Group delivered a good operating performance thanks to its diversified business model and to the trust of its institutional, corporate and individual clients. The Group made three bolt-on acquisitions this year with the buyout of the remaining 50% equity interest in LaSer, as well as the acquisitions of Bank BGZ in Poland and of DAB Bank in Germany.

Revenues totalled 39,168 million euros, up 2.0% compared to 2013. They included this year one-off items that totalled -324 million euros (+147 million euros in 2013): a -459 million euro Own Credit Adjustment (OCA) and own credit risk included in derivatives (DVA), -166 million euros as a result of the introduction of the Funding Valuation Adjustment (FVA) at Fixed Income and +301 million euros in capital gains from the one-off sale of securities. Excluding one-off items, revenues rose by 3.2%.

The revenues of the operating divisions rose by 1.9%¹ compared to 2013, with in particular a very good performance by the specialised businesses. Revenues were up in all the operating divisions: +2.0%² at Retail Banking³, +3.7%² at Investment Solutions and +2.1%¹ for Corporate and Investment Banking.

Operating expenses, which amounted to 26,526 million euros, were up by 2.1%. They included the one-off impact of 717 million euros in Simple & Efficient transformation costs (661 million euros in 2013).

The operating expenses of the operating divisions were up 1.7%². The increase related to the business development plans is limited thanks to the effects of Simple & Efficient. Operating expenses were up by 1.2%² at Retail Banking³, 2.9%² at Investment Solutions and 2.2%² for CIB.

Gross operating income was up 1.6% at 12,642 million euros (+5.6% excluding exceptional items). It was up by 2.2%¹ for the operating divisions.

The Group's cost of risk was down 2.5%, at 3,705 million euros (57 basis points of outstanding customer loans), reflecting the Group's good risk control. It includes a one-off 100 million euro provision due to the situation in Eastern Europe.

The Group booked the impact of the comprehensive settlement with the U.S. authorities regarding the review of certain USD transactions which included, among other things, the payment by BNP Paribas of a total of 8.97 billion dollars in penalties (6.6 billion euros). Given the amounts already provisioned, the Group booked this year a one-off charge for a total amount of 6 billion euros, of which 5,750 millions in penalties, and 250 million euros corresponding to the future costs of the remediation plan announced as part of the comprehensive settlement.

¹ At constant scope and exchange rates, excluding one-off items

² At constant scope and exchange rates

³ Including 100% of Private Banking of the domestic markets, BancWest and TEB (excluding PEL/CEL effects)

Non operating items totalled 212 million euros. They included in particular this year a -297 million euro impairment of BNL bc's goodwill. Non operating items totalled +397 million euros in 2013 and included in particular -171 million euros in one-off items.

Pre-tax income thus came to 3,149 million euros compared to 8,239 millions in 2013. Excluding one-off items¹, it was up by 8.9%.

The Group generated 157 million euros in net income attributable to equity holders (4,818 million euros in 2013). Excluding one-off items¹, it totalled 7,049 million euros.

The Group's balance sheet is rock-solid. At 31 December 2014, the fully loaded Basel 3 common equity Tier 1 ratio², which factors in the results of the banks' Asset Quality Review (AQR) performed by the European Central Bank (ECB) and the early introduction of Prudent Valuation Adjustment (PVA), was 10.3%. The fully loaded Basel 3 leverage ratio³ came to 3.6%⁴. The Liquidity Coverage Ratio was 114%. Lastly, the Group's immediately available liquidity reserve was 291 billion euros (247 billion euros as at 31 December 2013), equivalent to over one year of room to manoeuvre in terms of wholesale funding.

The net book value per share⁵ was 61.7 euros, or a compounded annualised growth rate of 4.5% since 31st December 2008.

The Board of Directors will propose to shareholders at the Shareholders' Meeting to pay out the same amount of dividend paid last year, i.e. €1.50 per share to be paid in cash.

Lastly, the Group is actively implementing the remediation plan agreed as part of the comprehensive settlement with the U.S. authorities and is reinforcing its internal control and compliance setup.

In the fourth quarter 2014, revenues came to 10,150 million euros, up 7.2% compared to the fourth quarter 2013. They benefited in particular from the scope effect as a result of LaSer becoming a wholly-owned company and the acquisition of Bank BGZ in Poland. One-off revenue items were negligible as in the fourth quarter 2013. At constant scope and exchange rates, revenues of the operating divisions were up by 1.1% with a 3.3% rise at Retail Banking⁶ and a 1.5% increase at Investment Solutions, and a 3.9% decline for CIB.

Operating expenses were up 2.0%, at 7,004 million euros. They included this quarter -229 million euros in one-off Simple & Efficient transformation costs (-287 million euros in the fourth quarter 2013). The rise was 3.0% excluding one-off items. However, at constant scope and exchange rates, operating expenses of the operating divisions decreased by 1.2%.

The cost of risk, at 1,012 million euros, was stable overall (-0.4% compared to the fourth quarter 2013) and totalled 60 basis points of outstanding customer loans.

The Group booked the one-off impact of an additional 50 million euro provision related to the future costs of the remediation plan announced as part of the comprehensive settlement with the U.S. authorities. In the fourth quarter 2013, the Group had booked a 798 million euro provision (1.1 billion dollars), in anticipation of this settlement.

Non operating items totalled -190 million euros. They included in particular this quarter a -297 million euro impairment of BNL bc's goodwill. They were -30 million euros in the fourth quarter 2013 and included -252 million euros in one-off items.

Pre-tax income thus came to 1,894 million euros (761 million euros in the fourth quarter 2013). Excluding one-off items¹, it was up 17.5% compared to the same period a year earlier.

Thus in the fourth quarter 2014, BNP Paribas posted 1,304 million euros in net income attributable to equity holders (110 million euros in the fourth quarter 2013). Excluding the impact of one-off items¹, it totalled 1,785 million euros.

**RETAIL BANKING****DOMESTIC MARKETS**

For the whole of 2014, Domestic Markets posted an overall good performance in a lacklustre environment. Deposits grew by 3.6% compared to 2013, with good growth in France, in Belgium and at Consorsbank in Germany. Outstanding loans declined slightly by 0.3% with the gradual stabilisation of demand. The sales and marketing drive of Domestic Markets was reflected in the number 1 position in cash management in Europe, as well as in France and in Belgium, and in the successful launch of Hello bank! which has already 800,000 clients in Germany, Belgium, France and Italy. Furthermore, Domestic Markets rolled out in all the networks new branch layouts with differentiated formats and new customer in-branch experience.

Revenues¹, at 15,700 million euros, were up 1.3% compared to 2013, with good growth at BRB and in the specialised businesses (Arval, Leasing Solutions and Personal Investors) partly offset by the effects of a persistently low interest rate environment. Thanks to good cost containment, operating expenses¹, at 9,981 million euros, were stable compared to a year earlier, helping Domestic Markets produce a positive 1.3 point jaws effect and continue improving its operating efficiency.

The cost/income ratio¹ thus again improved in France, Italy and Belgium, totalling 63.6% for the whole of Domestic Markets (-0.8 point compared to 2013).

Gross operating income¹ totalled 5,719 million euros, up 3.7% compared to a year earlier.

Given the rise in the cost of risk in Italy, and after allocating one-third of Private Banking's net income from Domestic Markets to the Investment Solutions division, pre-tax income² came to 3,372 million euros, down 3.7% compared to 2013.

In the fourth quarter 2014, revenues¹, at 3,941 million euros, were up 2.0% compared to the fourth quarter 2013 due to the good growth in BRB and the specialised businesses, despite the impact of a persistently low interest rate environment. Operating expenses¹ totalled 2,603 million euros, up slightly 0.2% compared to the fourth quarter 2013. This good cost containment helped Domestic Markets produce a positive 1.8 point jaws effect. Gross operating income¹ totalled 1,338 million euros, up 5.7% compared to the same period a year earlier. The cost of risk totalled 506 million euros, down 3.6% compared to the fourth quarter 2013. Thus, after allocating one-third of Private Banking's net income from Domestic Markets to the Investment Solutions division, pre-tax income² came to 748 million euros, up 8.9% compared to the fourth quarter 2013.

¹ Including 100% of Private Banking in France (excluding PEL/CEL effects), Italy, Belgium and Luxembourg

² Excluding PEL/CEL effects

**French Retail Banking (FRB)**

For the whole of 2014, FRB held up well in a lacklustre environment. Outstanding loans declined by 0.9% but rose by 0.1% in the fourth quarter 2014 compared to the fourth quarter 2013 with stabilisation in the individual customer segment and slight growth in the corporate customer segment. The commercial drive at FRB was illustrated by the good start of BNP Paribas Entrepreneurs 2016 (1,300 VSEs/SMEs supported at an international level) and by the support given to SMEs and innovative startups with the launch of the Innov&Connect programme and the success of the 14 Innovation Hubs which support already 1,000 start-up clients. BNP Paribas Factor strengthened its position by becoming number 1 in factoring in France and Private Banking confirmed its number 1 position in France posting a solid performance with assets under management up 6.0% compared to 2013.

Revenues¹ totalled 6,787 million euros, down 1.0% compared to 2013. Net interest income were down by 0.5% given a persistently low interest rate environment which compressed current account deposit margins. Fees were down by 1.7% due in particular to the capping of processing fees introduced by France's banking law since 1st January 2014.

Thanks to the continuing effect of operating efficiency measures, operating expenses¹ were down by 1.1% compared to 2013. The cost/income ratio¹ thus improved slightly by 0.1 point to 66.2%.

Gross operating income¹ totalled 2,294 million euros, down 0.8% compared to a year earlier.

The cost of risk¹ was still at a low level, at 28 basis points of outstanding customer loans. It was up 59 million euros compared to 2013.

Operating expenses were down 1.5%¹ thanks to the continued improvement of the operating efficiency. Gross operating income¹ was thus down by 2.4%. The cost of risk¹ rose by 20 million euros compared to the fourth quarter 2013 and was still at a low level. FRB thus generated, after allocating one-third of French Private Banking's net income to the Investment Solutions division, 341 million euros in pre-tax income², down 10.5% compared to the same period last year.

² Excluding PEL/CEL effects

**BNL banca commerciale (BNL bc)**

For the whole of 2014, BNL bc continued adapting its commercial model in a still challenging context. Outstanding loans declined by 2.2% compared to 2013 due to the selective repositioning on the corporate and small business segments and despite moderate rise in loans to individuals. Deposits were down by 6.8% due to a decline focused on the most costly deposits, in particular those of corporates. BNL bc posted good performance in off balance sheet savings with strong growth compared to 2013 of life insurance outstandings (+18.7%) and mutual funds (+24.9%) and Private Banking enjoyed a good business drive with 5.2% growth in assets under management. Lastly, in order to expand the distribution of savings products, BNL bc is launching this year *Promotori Finanziari*, its financial advisors' network.

Revenues¹ were down slightly (-0.6%) compared to 2013, at 3,219 million euros. Net interest income was down 0.3% due to the decrease in loan volumes partly offset by the favourable structural effect on deposits. Fees were down by 1.3% due to lower commissions from loans and despite the good performance of off balance savings.

Thanks to the effect of operating efficiency measures, operating expenses¹ were down by 0.7% compared to 2013, at 1,769 million euros.

Gross operating income¹ remained high at 1,450 million euros, down by only 0.5% compared to a year earlier. The cost/income ratio¹ was stable compared to 2013, at 55.0%.

The cost of risk¹, at 179 basis points of outstanding customer loans, rose for its part by 193 million euros compared to 2013 due to the protracted recession in Italy. However, it stabilised in the second half of 2014.

Operating expenses¹ were down by 0.2% compared to the fourth quarter 2013 thanks to the effect of cost-cutting measures. The cost of risk¹, at 167 basis points of outstanding customer loans, was stable compared to the fourth quarter 2013. Moreover, BRB continued to develop digital banking with over 1 million downloads of the Easy Banking application for iPhone/iPad and Android since its launch in mid-2012.

¹ With 100% of Italian Private Banking

Revenues¹ were up 4.6% compared to 2013, at 3,385 million euros. Net interest income was up by 5.1%, as a result of increased volumes and the fact that margins held up well and fees were up by 3.3% due in particular to financial and credit fees.

Operating expenses¹ rose by 1.2% compared to 2013 due to the significant impact of systemic taxes, up 66 million euros compared to a year earlier, and partially offset by the significant improvement of operating efficiency in line with the Bank for the Future plan. The cost/income ratio¹ improved by 2.4 points at 71.9%.

At 951 million euros, gross operating income¹ was thus up significantly (+14.4%).

Gross operating income¹ rose by 60 million euros compared to the fourth quarter 2013. Given a cost of risk¹ down 20 million euros compared to the fourth quarter 2013, pre-tax income, after allocating one-third of Belgian Private Banking's net income to the Investment Solutions division, came to 194 million euros, up sharply (45.9%) compared to the fourth quarter 2013.

Other Domestic Markets business units (Arval, Leasing Solutions, Personal Investors and Luxembourg Retail Banking)

Lastly, at Personal Investors, there was strong growth in deposits (+18.6%), with a good level of new customers in Germany, and assets under management rose by 9.6% thanks to the performance effect and the business drive. Personal Investors also closed on the acquisition of DAB Bank in Germany on 17 December which will create the number 1 online broker and the 5th largest digital bank in Germany with 1.5 million customers and 63 billion euros in assets under management, of which 17 billion euros in deposits.

Europe-Mediterranean

For the whole of 2014, Europe-Mediterranean maintained its strong sales and marketing drive. Deposits increased by 11.3%² compared to 2013, and were up across all countries with a sharp rise in Turkey. Loans grew by 12.1%², driven by a rise in volumes in Turkey. The business closed this year on the acquisition of BGZ in Poland. This buyout will help create, along with BNP Paribas Polska and the Group's specialised businesses, a reference bank in this country with an over 4% market share.

Revenues³, at 2,104 million euros, rose by 10.2%² compared to 2013. Excluding the impact of new regulations on charging fees for overdrafts in Turkey and foreign exchange fees in Algeria since the beginning of the third quarter 2013 (159 million euros in lost income in 2014), it was up 14.6%², with revenue growth in all regions, in particular thanks to increased volumes.

Operating expenses³ rose by 6.6%² compared to a year earlier, at 1 467 million euros, due in particular to the bolstering of the commercial setup in Turkey and in Morocco. The cost/income ratio³ came to 69.7%, a 2.4 point² improvement compared to 2013.

The cost of risk³, at 357 million euros, came to 119 basis points of outstanding customer loans, up 85 million euros compared to 2013 due to the situation in Eastern Europe.

¹ With 100% of Luxembourg Private Banking

² At constant scope and exchange rates

Revenues³, at 2,229 million euros, were up by 1.0%² compared to 2013. Excluding the impact of lesser capital gains from sales of securities this year, it was up 3.6%², as a result of the rise in volumes, although mitigated by unfavourable interest rates.

position as the number 1 specialised player in Europe. The business unit also closed the acquisition of RCS, a point of sale credit specialist in South Africa, and the JD Group's consumer lending business.

Outstanding loans were thus up 10.4% compared to 2013. At constant scope and exchange rates, they rose by 2.8%, in particular in Germany, Belgium and Central Europe.

The business unit also continued to develop partnerships with retailers (Suning in China, Americanas in Brazil) and in car loans (PSA in Turkey, Toyota in Belgium) where its outstandings enjoyed good growth (+4.5%¹).

Revenues rose by 10.4% compared to 2013, at 4,077 million euros. At constant scope and exchange rates, it rose by 2.4%².

Operating expenses were up 12.2% compared to 2013, at 1,953 million euros. At constant scope and exchange rates, they rose by 1.2%. The cost/income ratio thus improved by 0.6 point¹ at 46.4%².

The cost of risk was down by 4 million euros compared to 2013, at 219 basis points of outstanding customer loans. Excluding the scope effect related to the acquisition of LaSer (+67 million euros), it was down 71 million euros.

Personal Finance's pre-tax income was thus up sharply (+24.3%) compared to 2013, totalling 1,130 million euros.

In the fourth quarter 2014, revenues grew by 25.9% compared to the fourth quarter 2013 due in particular to the scope effect related to the stake being increased to 100% in LaSer. At constant scope and exchange rates, and excluding the one-off retrocession of handling fees in Germany, it rose by 4.6% thanks to a good business drive in Germany, Belgium and Central Europe. Operating expenses rose by 29.6%. They were up by only 0.4% at constant scope and exchange rates. The cost of risk rose by 24 million euros compared to the fourth quarter 2013. Excluding the scope effect related to the stake being increased to 100% in LaSer, it was down by 6 million euros. Pre-tax income thus came to 306 million euros, up sharply by 56.9% compared to the same period a year earlier.

Retail Banking's 2015 Action Plan

Domestic Markets

In 2015, Domestic Markets will continue the implementation of multi-domestic retail banking centering on three major areas of focus: cross-selling with Private Banking and the specialised businesses; cross-border by supporting along with CIB corporate customers internationally thanks to the success of One Bank for Corporates and the leading position in Europe in cash management; and, lastly, cross-IT, by continuing to pool and secure IT applications.

The operating division will continue to invest in the bank of the future in particular by continuing digital innovations (digital banking, new payment solutions and distribution platforms) and will continue transforming the branch networks with differentiated and complementary branch formats.

¹ At constant scope and exchange rates

² Excluding the one-off retrocession of handling fees in Germany (49.5 million euros)

Domestic Markets will continue adapting to the low interest rate environment by developing off balance sheet savings, by expanding the service offering as well as value-added financing solutions (Leasing Solutions, Arval) and by supporting the gradual recovery of demand for loans.

Lastly, the entity will continue to improve its operating efficiency thanks to strict cost control in conjunction with the implementation of the Simple & Efficient plan.

International Retail Banking

BancWest will continue to expand its commercial offering in a favourable economic climate in the United States. It will speed up the pace of the deployment of the Private Banking and consumer finance setups by leveraging Group expertise. In the retail networks, BancWest will continue to expand digital banking services and to adapt the branch network. Lastly, with respect to corporate clients, the bank will continue to increase cooperation with CIB and keep developing cash management.

For its part, Europe-Mediterranean will continue focused business development. With regard to individual customers, the business will continue to deploy the digital offering and, in respect of corporate clients, will continue to strengthen the cash management offering. In Poland, the priority will be the integration of Bank BGZ, and in Turkey, TEB will continue its business development by leveraging in particular cross-selling with all the Group's business units. Lastly, in China, the Group will further strengthen its cooperation with the Bank of Nanjing.

Personal Finance

Personal Finance will continue in 2015 to pursue the major strategic priorities of its 2014-2016 plan. The business will continue to develop business and strategic partnerships in certain targeted countries in Europe (in particular Germany, Central Europe and Italy) and in several countries with significant growth potential outside Europe (Brazil, South Africa, China). It will also extend the partnerships with automobile makers to include new countries, bolster the digital service offering in all regions and continue its strategy to expand client relationship to a wider range of savings and insurance products.

The integration of newly acquired companies will be one of this year's priorities with the implementation of the tie-up with LaSer and the integration of the RCS and JD Group consumer finance businesses in South Africa.

Lastly, Personal Finance will continue improving its operating efficiency, in particular through the ramping up of the consumer loan management IT system shared with the BPCE Group.

Assets under management¹ reached 917 billion euros as at 31 December 2014 and were up 7.4% compared to what they were as at 31 December 2013, due in particular to a performance effect of +48.4 billion euros, benefiting from the favourable trend of the equity markets and interest rates, and a +9.9 billion euro exchange rate effect due to the depreciation of the euro. Asset inflows were +6.7 billion euros for the year with good asset inflows in Wealth Management, in particular in Asia, France and Italy, strong asset inflows in Insurance, in particular in Italy and in Asia, and outflows in Asset Management but substantially reduced compared to 2013.

Corporate Banking's revenues grew by 0.8%¹ compared to 2013, at 3 292 million euros, with strong growth in Asia Pacific and increase in the Americas. In Europe, revenues from the Energy and Commodities sector were down, but were up elsewhere. Loans, at 110 billion euros, were up 0.5%¹ compared to 2013 with growth in Asia and in the Americas. Deposits, at 78 billion euros, were up sharply (+21.6%¹) compared to a year earlier thanks in particular to the development of international cash management where the business unit obtained several new significant mandates. Corporate Banking also confirmed its position as the number 1 bookrunner for EMEA syndicated loans².

Operating expenses of CIB, at 6,137 million euros, rose by 2.2%¹ compared to 2013 due to the rise in regulatory costs (~+100 million euros compared to 2013), the continued business development investments (~+100 million euros compared to 2013), and increased Advisory & Capital Markets business, despite the effects of Simple & Efficient (~200 million euros of cost savings).

CIB's cost of risk was at a low level (81 million euros), down sharply compared to last year when it was at 515 million euros.

CIB's pre-tax income thus came to 2,525 million euros, up 13.7%¹ compared to 2013, reflecting good overall performance in a lacklustre environment in Europe.

In the fourth quarter 2014, CIB's revenues were down by 3.9%¹ compared to the same period in 2013, at 2,050 million euros. Revenues from Advisory and Capital Markets decreased by 6.6%¹ with good performance of Fixed Income (+8.7%¹), due to good growth in Forex and bond issues, and a decline in Equities and Advisory (-30.6%¹) compared to a high comparison basis in the fourth quarter 2013. VaR was maintained at a very low level. Corporate Banking had a good quarter with revenues down slightly (-0.2%¹) compared to a high comparison basis in the fourth quarter 2013. They were down slightly in the EMEA region due to the slowdown of Energy and Commodities, stable in the Americas, and growing in Asia. Operating expenses were down 9.0%¹ due to a high seasonal effect and operating efficiency measures with a 12.0%¹ decline in Advisory & Capital Markets and a 2.2%¹ decrease at Corporate Banking. The cost of risk, at 32 million euros, was very low this quarter, down sharply compared to the fourth quarter 2013 when it was 167 million euros. Pre-tax income thus came to 566 million euros, a sharp rise (56.3%¹) compared to the same quarter a year earlier.

Corporate and Investment Banking's 2015 Action Plan

In 2015, Corporate and Investment Banking will put in effect its new organisation announced in November 2014 with the creation of Global Markets, which will group together all the market business units, the tie-up of Securities Services and CIB, and a simplified regional approach that focuses on three major regions (EMEA, Asia Pacific and the Americas).

CIB, now named Corporate and Institutional Banking, will aim to better meet the expectations of corporate and institutional clients. With respect to corporate clients, the division will adapt its organisation by strengthening the debt platforms and by simplifying the commercial setup in particular in Europe. With regard to institutional clients, CIB will expand the Group's footprint and the global offering through close cooperation between the market business units and Securities Services and strengthened coverage.

The fully loaded Basel 3 common equity Tier 1 ratio¹ was 10.3% as at 31 December 2014, stable compared to what it was as at 31 December 2013. It factors in the results of the AQR and, by anticipation, the impact of regulation on prudent valuation that will come into force in 2015.

The fully loaded Basel 3 leverage ratio², calculated on total Tier 1 capital³, was 3.6% as at 31 December 2014.

The Liquidity Coverage Ratio came to 114% as at 31 December 2014.

The Group's liquid and asset reserves immediately available totalled 291 billion euros (compared to 247 billion euros as at 31 December 2013), which is equivalent to over one year of room to manoeuvre in terms of wholesale funding.

THE 2014-2016 BUSINESS DEVELOPMENT PLAN

2014 confirmed the choices of the 2014-2016 business development plan.

Major projects designed to prepare the retail bank of the future were implemented with in particular the successful launch of Hello bank! (already 800,000 clients in Europe), the international roll-out of digital banking (CEPTEB in Turkey or BGZ Optima in Poland), the adaptation of distribution platforms to customers' new practices and expectations and the launch of new multi-banking online payment solutions such as *PayLib* in France or *Sixdots* in Belgium.

The results of geographic business development plans were good with significant revenue growth compared to 2013 in all the target regions (+7%¹ in Asia Pacific, +9%¹ in CIB in North America, +15%¹ in Turkey, and +5%¹ in Germany).

In addition, the drivers of growth for the Group performed well: the revenues of Personal Finance, the number 1 specialty player in Europe, rose by 10% compared to 2013; Insurance, the 11th largest insurer in Europe, continued its business development with revenue growth of 2% compared to 2013; and Securities Services, number 1 in Europe and number 5 globally, pursued its growth drive with an 11% rise in revenues compared to 2013.

At CIB, the capital markets have successfully continued their adaptation to the new environment, marked by the continued credit disintermediation and by increasingly electronic and cleared markets, as evidenced by the success of the Cortex and Centric electronic client platforms at Fixed Income and Smart Derivatives for equity derivatives. Certain Energy and Commodities businesses are being rightsized relative to certain clients and certain countries. Corporate and Investment Banking is currently speeding up the evolution of its business model with the new organisation announced in November 2014.

Bolt-on acquisitions in 2014 that contribute to the achievement of the plan

The Group made several bolt-on acquisitions in 2014 such as primarily Bank BGZ in Poland, which will enable it to achieve critical mass in a country with favourable growth prospects; the other 50% of LaSer that it did not already own, strengthening Personal Finance's position as the number 1 specialty player in Europe and making it possible to extend the business to new countries; and, lastly, DAB Bank in Germany which will make a significant contribution to the business development plan in this country as well as to the development of digital banking in Europe.

All of these acquisitions will give the Group an additional contribution in 2016 of approximately 1.6 billion in revenues, 900 million in operating expenses² and 300 million in cost of risk.

Additional compliance and control costs absorbed thanks to cost savings targets of the Simple and Efficient plan being revised upward

The Group is continuing its policy to strictly control operating expenses.

It will, however, have to pay an additional 250 million euros in costs in 2016 over and above the initial plan: about 160 million euros earmarked for reinforcing resources of compliance and controls and 90 millions euros in connection with some new regulatory initiatives.

¹ At constant exchange rates

² Excluding restructuring costs estimated to be 100 million euros in 2016

Virtually all of these additional costs will be offset by the upward revision of the cost savings generated by the Simple & Efficient plan (+230 million euros) that the 2,597 projects, which are doing well, helped to identify with no additional transformation costs.

Rigorous credit risk management

The Group is continuing its rigorous risk management, confirmed by a cost of risk stable at a moderate level in 2014 as well as by the results of the comprehensive assessment of bank assets conducted by the ECB (Asset Quality Review).

Given Italy's weaker than expected GDP growth (cumulative difference of 120 basis points in 2016 between the base scenario and the revised scenario), the decrease in BNL bc's cost of risk will turn out to be slower than expected in the initial plan. However, this difference should be offset by other business units as testified in particular by the more favourable than expected trend of Corporate Bankings' and Personal Finance's cost of risk in 2014.

A deteriorated economic and interest rate context compared to the base scenario

The Group is facing a deteriorated economic and interest rate context compared to the base scenario.

Interate rates levels are particularly low, especially in the Eurozone and the difference, in terms of the interest rate hypothesis in 2016, between base scenario and the new projection is for example -130 basis points for the 3-month Euribor. This context has an adverse impact on the revenues generated on deposits in retail banking and has no real positive impact on credit margins due in particular to disintermediation and weak demand.

GDP growth is also weaker than expected in the Eurozone. The cumulative difference between the base scenario and the revised scenario is -60 basis points of growth in the Eurozone in 2016. This context has an unfavourable impact on loan volumes in retail banking and at CIB in particular.

New taxes and regulations

The Group is also facing a sharp rise in taxes on banks in Europe, which will be reflected in 2016 by 370 million euros in additional costs above and beyond the initial plan, primarily related to the contribution to the Single Resolution Fund and to the Single Supervisory Mechanism (340 million euros). Taxes specific to the banking industry expected in 2016, including those already factored into the initial plan, will thus exceed 900 million euros. These taxes are, however, expected to decrease with the gradual suppression of France's systemic tax by 2019 and the end of the Single Resolution Fund contribution in 2022.

The Group also has to incorporate the additional costs stemming from new regulations that apply to foreign banks in the United States with the ongoing setting up of an Intermediate Holding Company (IHC) and the additional costs stemming from the introduction of the Comprehensive Capital Analysis and Review (CCAR) by 2016.

It also has to take into account the future introduction of the Total Loss Absorbing Capacity (TLAC) mechanism that was agreed in principle by the G20 in Brisbane, the specific terms of which are in the process of being evaluated (implementation expected at earliest in 2019), but which could add additional costs as soon as 2016.

All of these new taxes and regulations are expected to have an aggregate impact of the order of -500 million euros on the Group's net income in 2016, or approximately -70 basis points on the return on equity. This impact is expected to be reduced in the future with the reduction and then the suppression of certain taxes and contributions as well as some set up costs.

Total capital management

The Group has a strong cash flow generation capacity.

It is expected to devote in 2015-2016 about 20% of net earnings to financing organic growth. The Group expects the growth of risk-weighted assets to be of the order of 2.5%¹ a year during this period compared to the 3% originally planned. The dividend pay-out ratio is expected to be about 45% of net earnings. The available free cash flow is thus expected to be of the order of 35% of net earnings, which could be used to finance additional organic risk-weighted asset growth in a scenario of higher than expected growth in Europe or bolt-on acquisitions and/or share buy-backs, depending on opportunities and market conditions.

The Group will implement its Tier 1 and Tier 2 instruments' issuance programme to meet total capital ratio requirements in 2019 with, depending on opportunities and market conditions, resumption in issuance of Tier 1 instruments (about 500 million euros a year) and Tier 2 instruments on the order of 2 to 3 billion euros a year.

New presentation of the organisation of the operating divisions

Following the tie-up of Securities Services and CIB, the organisation of the Group's operating divisions now centers on two entities: Retail Banking & Services (~73% of the Group's revenues) and CIB (~27% of the Group's revenues).

Retail Banking & Services will include Domestic Markets (~39% of the Group's revenues with a scope that is unchanged) and a new entity, International Financial Services (34% of the Group's revenues) which includes BancWest, Europe-Mediterranean, Personal Finance, Wealth and Asset Management and Insurance.

Corporate and Institutional Banking (CIB) will include Corporate Banking, Global Markets and Securities Services.

¹ Compounded annual growth rate

Commenting on these results, Chief Executive Officer Jean-Laurent Bonnafé stated:

“The Group’s results this year reflect the significant impact of one-off items, which includes in particular the costs relating to the comprehensive settlement with the U.S. authorities.

The Group delivered a good performance generating 7 billion euros in net income excluding one-offs and its common equity Tier 1 stood at a high level of 10.3%. Revenues grew in all the operating divisions and the good sales and marketing drive is testimony to the trust of our institutional, corporate and individual clients. The operating expenses containment is continuing and the cost of risk is down.

The Group has a rock-solid balance sheet and the quality of its assets was confirmed by the asset quality review (AQR) conducted by the European Central Bank.

I would like to take this opportunity to thank the employees of BNP Paribas whose efforts made this performance possible in a difficult year. Dedicated to serving its clients all over the world, the Group plays an active role in financing the economy and is preparing the bank of the future.”

AMENDMENTS TO THE GENERAL INFORMATION SECTION

The section "General Information" in the Base Prospectus is amended as follows:

The first paragraph under the heading "6. Legal and Arbitration Proceedings" on page 1222 of the Base Prospectus (which was included in the Base Prospectus by virtue of the Second Supplement) is deleted and the following is substituted therefor:

"Save as disclosed below and on pages 100 to 101 and 137 to 138 of the Third Update to the BNPP 2013 Registration Document, there have been no governmental, legal or arbitration proceedings (including any such proceedings which are pending or threatened of which the Issuer is aware), during the period covering at least the twelve (12) months prior to 10 February 2015 which may have, or have had in the recent past, significant effects on the Issuer and/or the Group's financial position or profitability.

COSTS RELATED TO THE COMPREHENSIVE SETTLEMENT WITH US AUTHORITIES : On 30 June 2014, the Group has come to a comprehensive settlement of the pending investigation relating to US dollar transactions involving parties subject to US sanctions, including agreements with the U.S. Department of Justice, the U.S. Attorney's Office for the Southern District of New York, the New York County District Attorney's Office, the Board of Governors of the U.S. Federal Reserve System (FED), the New York State Department of Financial Services (DFS), and the US Department of the Treasury's Office of Foreign Assets Control (OFAC).

The settlement includes guilty pleas entered into by BNP Paribas SA in relation to violations of certain US laws and regulations regarding economic sanctions against certain countries and related recordkeeping. BNP Paribas also agrees to pay a total of USD 8.97 billion (EUR 6.55 billion). Beyond what has already been provisioned as at 31 December 2013 (EUR 0.8 billion), this resulted in an exceptional charge of EUR 5.75 billion recorded in the second quarter of 2014. An uncertainty remains regarding the fiscal rule that will apply eventually to the different Group entities involved in the settlement.

BNP Paribas also accepts a temporary suspension of one year, starting 1 January 2015, of the USD direct clearing focused mainly on the Oil & Gas Energy & Commodity Finance business line in certain locations.

BNP Paribas has worked with the US authorities to resolve these issues and the resolution of these matters was coordinated by its home regulator (Autorité de Contrôle Prudentiel et de Résolution - ACPR) with its lead regulators. BNP Paribas maintains its licenses as part of the settlements.

In advance of the settlement, the bank designed new robust compliance and control procedures. They involve important changes to the Group's procedures. Specifically:

- a new department called Group Financial Security US, part of the Group Compliance function, is headquartered in New York and ensures that BNP Paribas complies globally with US regulation related to international sanctions and embargoes.
- all USD flows for the entire BNP Paribas Group will be ultimately processed and controlled via the branch in New York.

The Group recorded a EUR 250 million provision for additional implementation costs related to the remediation plan agreed upon with US authorities. Including these, total costs related to the comprehensive settlement amount to EUR 6 billion for the year ended 31 December 2014.

CONTINGENT LIABILITIES: LEGAL PROCEEDINGS AND ARBITRATION : Legal action has been taken against several Algerian and international banks, including BNP Paribas El Djazair, a BNP Paribas SA subsidiary, for administrative errors in processing international trade financing applications. BNP Paribas El Djazair has been accused of non-compliance with foreign exchange regulations in seven cases before Algerian courts. BNP Paribas El Djazair was ordered by a lower court to pay fines of approximately EUR 200 million. Three of these cases were subsequently overturned on appeal, including the case involving the most significant amount (EUR 150 million). Two other appeals rulings have upheld fines totalling EUR 52 million. All of these rulings have been appealed before the Cassation Court, and execution has been suspended pending the outcome of these appeals pursuant to Algerian law. BNP Paribas El Djazair will continue to vigorously defend itself before the Algerian courts with a view to obtaining recognition of its good faith towards the authorities, which suffered no actual damage.

On 27 June 2008, the Republic of Iraq filed a lawsuit in New York against approximately 90 international companies that participated in the oil-for-food ("OFF") programme and against BNP Paribas as holder of the OFF account on behalf of the United Nations. The complaint alleged, notably, that the defendants conspired to defraud the OFF programme, thereby depriving the Iraqi people of more than USD 10 billion in food, medicine and other humanitarian goods. The complaint also contended that BNP Paribas breached purported fiduciary duties and contractual obligations created by the banking services agreement binding BNP Paribas and the United Nations. The complaint was pleaded under the US Racketeer Influenced and Corrupt Organisations Act ("RICO") which allows treble damages if damages are awarded. The defendants, including BNP Paribas, moved to dismiss the action in its entirety on a number of different legal grounds. On 6 February 2013, the complaint was dismissed by the United States District Court Southern District of New York (which means that the plaintiff does not have the opportunity to re-file an amended complaint). On 15 February 2013, the Republic of Iraq filed a notice of appeal before the United States Court of Appeals for the Second Circuit. In two decisions dated 19 September 2014, and 9 December 2014, respectively, the Court of Appeals affirmed the dismissal of the complaint filed by the Republic of Iraq.

The Bank and certain of its subsidiaries are defendants in several actions pending before the United States Bankruptcy Court Southern District of New York brought by the Trustee appointed for the liquidation of Bernard L. Madoff Investment Securities LLC ("BLMIS"). These actions, known generally as "clawback claims", are similar to those brought by the BLMIS Trustee against numerous institutions, and seek recovery of amounts allegedly received by the BNP Paribas entities from BLMIS or indirectly through BLMIS-related "feeder funds" in which BNP Paribas entities held interests. The BLMIS Trustee claims in these actions that the amounts which BNP Paribas entities received are avoidable and recoverable under the U.S. Bankruptcy Code and New York state law. In the aggregate, the amounts sought to be recovered in these actions approximates USD 1.3 billion. BNP Paribas has substantial and credible defenses to these actions and is defending against them vigorously.

Various litigations and investigations are ongoing relating to the restructuring of the Fortis Group, now Ageas, of which BNP Paribas Fortis is no longer part, and to events having occurred before BNP Paribas Fortis became part of the BNP Paribas Group. Among these are litigations brought by shareholder groups in The Netherlands and Belgium against Ageas and, among others, against BNP Paribas Fortis, in relation to its role as global coordinator of Fortis (now Ageas)'s capital increase in October 2007 to partly finance its acquisition of ABN Amro Bank N.V. Those groups of shareholders mainly allege that there has been a breach in the financial communication, as inter alia the disclosure regarding the exposure to subprime mortgages.

The Bank is vigorously defending itself in these proceedings. The Court of Appeal of Amsterdam upheld on 29 July 2014 the ruling of the Dutch Court of first instance that Ageas was liable for mismanagement in relation to its financial communication during the period in question. BNP Paribas Fortis is not a party to this case.

If these litigations and investigations were to be successful, they could eventually result in monetary consequences for BNP Paribas Fortis. Such impact is unquantifiable at this stage.

Regulatory and law enforcement authorities in multiple jurisdictions are conducting investigations or making inquiries of a number of financial institutions regarding trading on the foreign exchange markets, including, among other things, possible collusion among financial institutions to manipulate certain benchmark currency exchange rates. The Bank has to date received requests for information in this respect from regulatory and law enforcement authorities in the United Kingdom, the United States and several countries in the Asia-Pacific region as well as from the European Competition Commission. The Bank is cooperating with the investigations and inquiries and responding to the information requests. In November 2014 the Financial Conduct Authority in the United Kingdom and in December 2014 the Hong Kong Monetary Authority informed the Bank that they had discontinued their investigation as to BNP Paribas. Moreover the Bank is conducting its own internal review of foreign exchange trading. While this review is ongoing, the Bank is not in a position to foresee the outcome of these investigations and proceedings nor their potential impact.

The Bank, along with eleven other financial institutions, was named as a defendant in a consolidated civil action filed in March 2014 in the U.S. District Court for the Southern District of New York on behalf of a purported class of plaintiffs alleging manipulation of foreign exchange markets. The plaintiffs allege in particular that the defendants colluded to manipulate the WM/Reuters rate (WMR), thereby causing the putative classes to suffer losses in connection with WMR-based financial instruments. The plaintiffs assert U.S. federal and state antitrust claims and claims for unjust enrichment, and seek compensatory damages, treble damages where authorized by statute, restitution, and declaratory and injunctive relief. The Bank and its co-defendants have filed a motion to dismiss the consolidated complaint, which was denied on January 28, 2015 in respect of the class of U.S. plaintiffs but was granted in respect of the class of non-U.S. plaintiffs. The Bank is vigorously contesting the allegations in the lawsuit. "

PRESENTATION OF FINANCIAL INFORMATION

The second paragraph under the heading "**PRESENTATION OF FINANCIAL INFORMATION**" on page 15 of the Base Prospectus is deleted and replaced with the following:

"The audited consolidated financial statements of BNPP, BGL and BNPPF for the years ended 31 December 2012, 31 December 2013 and, in the case of BNPP, 31 December 2014, have been prepared in accordance with international financial reporting standards ("**IFRS**") as adopted by the European Union. IFRS differs in certain significant respects from generally accepted accounting principles in the United States ("**U.S. GAAP**"). The Group has made no attempt to quantify the impact of those differences. In making an investment decision, investors must rely upon their own examination of the BNP Paribas Group, the terms of an offering and the financial information. Potential investors should consult their own professional advisors for an understanding of the differences between IFRS and U.S. GAAP, and how those differences might affect the information herein. The Group's fiscal year ends on 31 December and references in the BNPP 2012 Registration Document, the BNPP 2013 Registration Document (in each case, as defined in "*Documents Incorporated by Reference*" below) and the BNPP 2014 Registration Document and any update to the BNPP 2014 Registration Document (in each case, incorporated by reference herein) to any specific fiscal year are to the 12-month period ended 31 December of such year."

**AMENDMENTS TO THE PROGRAMME SUMMARY IN RELATION TO THIS BASE
PROSPECTUS AND THE PRO FORMA ISSUE SPECIFIC SUMMARY OF THE PROGRAMME
IN RELATION TO THIS BASE PROSPECTUS**

1. The "Programme Summary in relation to this Base Prospectus" on pages 16 to 62 of the Base Prospectus is amended as follows:
 - (a) In Element B.4b, the heading "*In respect of BNPP:*" and the information under such heading and above the heading "*In respect of BP2F:*" are deleted in its entirety and replaced with the following:

		<i>In respect of BNPP:</i> <i>Macroeconomic risk.</i> Macroeconomic and market conditions affect BNPP's results. The nature of BNPP's business makes it particularly sensitive to macroeconomic and market conditions in Europe, which have been difficult and volatile in recent years. In 2014, the global economy continued its slow recovery but there remain uncertainties, in particular in Europe where the economic performance during the second half of 2014 was weaker than expected. IMF and OECD¹ economic forecasts for 2015 indicate a continuation of moderate growth in developed economies but with differences between countries, including in the euro-zone, where growth is forecast to be weak in certain countries (including France and Italy). The forecast is similar for emerging markets (i.e., moderate growth but with areas of weakness). Short term risks to macroeconomic growth highlighted by the IMF include heightened geopolitical tensions and increased financial market volatility; medium-term risks highlighted include weak economic growth or stagnation in developed countries. Deflation remains a risk in the euro-zone, although the risk has been reduced through the ECB's announcement of non-conventional policy measures. <i>Legislation and Regulation applicable to Financial Institutions.</i> Laws and regulations applicable to financial institutions that have an impact on BNPP have significantly evolved. The measures that have been proposed and/or adopted in recent years include more stringent capital and liquidity requirements (particularly for large global banking groups such as the BNPP Group), taxes on financial transactions, restrictions and taxes on employee compensation, limits on the types of activities that commercial banks can undertake and ring-fencing or even prohibition of certain activities considered as speculative within separate subsidiaries, restrictions on certain types of financial products, increased internal control and reporting requirements, more stringent conduct of business rules, mandatory clearing and reporting of derivative transactions, requirements to mitigate risks in relation to over-the-counter derivative transactions

		and the creation of new and strengthened regulatory bodies. The measures that were recently adopted, or that are (or whose implementation measures are) in some cases proposed and still under discussion, that have affected or are likely to affect BNPP, include in particular the French Ordinance of 27 June 2013 relating to credit institutions and financing companies (“Sociétés de financement”), which came into force on 1 January 2014, the French banking law of 26 July 2013 on the separation and regulation of banking activities and the related implementing decrees and orders and the Ordinance of 20 February 2014 for the adaptation of French law to EU law with respect to financial matters; the Directive and Regulation of the European Parliament and of the Council on prudential requirements “CRD 4/CRR” dated 26 June 2013 (and the related delegated and implementing acts) and many of whose provisions have been applicable since January 1, 2014; the regulatory and implementing technical standards relating to the Directive and Regulation CRD 4/CRR published by the European Banking Authority; the designation of BNPP as a systemically important financial institution by the Financial Stability Board and the consultation for a common international standard on total loss-absorbing capacity (“TLAC”) for global systemically important banks; the public consultation for the reform of the structure of the EU banking sector of 2013 and the proposal for a Regulation of the European Parliament and of the Council of 29 January 2014 on structural measures to improve the resilience of EU credit institutions; the proposal for a Regulation of the European Parliament and of the Council of 18 September 2013 on indices used as benchmarks in financial instruments and financial contracts; the Regulation of the European Parliament and of the Council of 16 April 2014 on market abuse and the Directive of the European Parliament and of the Council of 16 April 2014 on criminal sanctions for market abuse; the Directive and the Regulation of the European Parliament and of the Council on markets in financial instruments of 15 May 2014; the European Single Supervisory Mechanism led by the European Central Bank adopted in October 2013 (Council Regulation of October 2013 conferring specific tasks on the European Central Bank concerning policies relating to the prudential supervision of credit institutions and the Regulation of the European Parliament and of the Council of 22 October 2013 establishing a European Supervisory Authority as regards the conferral of specific tasks on the European Central Bank (and the related delegated and implementing acts)), as well as the related French Ordinance of 6 November 2014 for the adaptation of French law to the single supervisory mechanism of the credit institutions; the Directive of the European Parliament and of the Council of 16 April 2014 on deposit guarantee schemes, which strengthens the protection of citizens’ deposits in case of bank failures (and the related delegated and implementing acts); the Directive of the European Parliament and of the Council of 15 May 2014 establishing a framework for the recovery and resolution of credit institutions and investment firms, which harmonizes the tools to address potential bank crises; the Single Resolution Mechanism adopted by the European Parliament on 15 April 2014 (Regulation of the European Parliament and of the Council of 15 July 2014 establishing uniform rules and a uniform procedure

		for the resolution of credit institutions and certain investment firms in the framework of a single resolution mechanism and a single resolution fund, and the related delegated and implementing acts), which provides for the establishment of a Single Resolution Board as the authority in charge of the implementation of the Single Resolution Mechanism and the establishment of the Single Resolution Fund; the Delegated Regulation on the provisional system of installments on contributions to cover the administrative expenditures of the Single Resolution Board during the provisional period adopted by the European Commission on 8 October 2014, the implementing Regulation of the Council of 19 December 2014 specifying uniform conditions for the ex-ante contribution to the Single Resolution Fund; the U.S. Federal Reserve's final rule imposing enhanced prudential standards on the U.S. operations of large foreign banks; the "Volcker Rule" imposing certain restrictions on investments in or sponsorship of hedge funds and private equity funds and proprietary trading activities of U.S. banks and non-U.S. banks adopted by the U.S. regulatory authorities in December 2013; and the final U.S. credit risk retention rule adopted on 22 October 2014. More generally, regulators and legislators in any country may, at any time, implement new or different measures that could have a significant impact on the financial system in general or BNPP in particular.

- (b) In Element B.5, the second sentence is deleted and replaced with the following:

"It is present in 75 countries and has almost 188,000 employees, including over 147,000 in Europe."

- (c) Element B.9 is deleted and replaced with the following:

B.9	Profit forecast and estimate	The Group's 2014-2016 business development plan confirms the universal bank business model. The goal of the 2014-2016 business development plan is to support clients in a changing environment. The Group has defined the five following strategic priorities for 2016: • enhance client focus and services • simple: simplify our organisation and how we operate • efficient: continue improving operating efficiency • adapt certain businesses to their economic and regulatory environment • implement business development initiatives. BNPP continues to implement its 2014-2016 development plan in a low interest rate context and has to take into account new taxes and regulations.

- (d) In Element B.12, the information under the heading "**In relation to BNPP:**" and above the heading "**In relation to BGL:**" is amended as follows

- (i) by the deletion of the text "(unaudited)" in the second column of the first and sixth rows under the heading "**Comparative Annual Financial Data – In millions of EUR**";

- (ii) by the deletion of the heading "**Comparative Interim Financial Data for the six-month period ended 30 June 2014 – In millions of EUR**" and the information under such heading and above the heading "**Comparative Interim Financial Data for the nine-month period ended 30 September 2014 – In millions of EUR**";
- (iii) by the deletion of the heading "**Comparative Interim Financial Data for the nine-month period ended 30 September 2014 - In millions of EUR**" and the information under such heading and above the heading "*In relation to BGL*"; and
- (iv) by the deletion of the paragraphs under the heading "**Statements of no significant or material adverse change**" and above the paragraph beginning "There has been no significant change in the financial or trading position of BNPP B.V." and their replacement with the following:

"There has been no significant change in the financial or trading position of the BNPP Group since 31 December 2014 (being the end of the last financial period for which audited financial statements have been published). There has been no material adverse change in the prospects of BNPP or the BNPP Group since 31 December 2014 (being the end of the last financial period for which audited financial statements have been published)."

- (e) Element B.13 is deleted in its entirety and replaced with the following:

B.13	Events impacting the Issuer's solvency	Not applicable, as at 7 August 2014 (in the case of BNPP B.V., BP2F and BGL) and 30 March 2015 (in the case of BNPP) and to the best of the Issuer's knowledge, there have not been any recent events which are to a material extent relevant to the evaluation of the Issuer's solvency since 31 December 2013 (in the case of BNPP B.V., BP2F and BGL) or 31 December 2014 (in the case of BNPP).

- (f) In Element B.14, the second paragraph is deleted and replaced with the following:

		In April 2004, BNPP began outsourcing IT Infrastructure Management Services to the BNP Paribas Partners for Innovation (BP²I) joint venture set up with IBM France at the end of 2003. BP²I provides IT Infrastructure Management Services for BNPP and several BNPP subsidiaries in France (including BNP Paribas Personal Finance, BP2S, and BNP Paribas Cardif), Switzerland, and Italy. In mid-December 2011 BNPP renewed its agreement with IBM France for a period lasting until end-2017. At the end of 2012, the parties entered into an agreement to gradually extend this arrangement to BNP Paribas Fortis as from 2013. BP²I is under the operational control of IBM France. BNP Paribas has a strong influence over this entity, which is 50/50 owned with IBM France. The BNP Paribas staff made available to BP²I make up half of that entity's permanent staff, its buildings and processing centres are the property of the Group, and the governance in place provides BNP Paribas with the contractual right to monitor the entity and bring it back into the Group if necessary. ISFS, a fully-owned IBM subsidiary, handles IT Infrastructure

		Management for BNP Paribas Luxembourg. BancWest's data processing operations are outsourced to Fidelity Information Services. Cofinoga France's data processing is outsourced to SDDC, a fully-owned IBM subsidiary.

- (g) Element B.15 is amended by the deletion of the text beginning "BNP Paribas holds key positions" and ending "**Corporate and Investment Banking (CIB)**.", and its replacement with the following:

		BNP Paribas holds key positions in its two main businesses: • Retail Banking and Services, which includes: • Domestic Markets, comprising: • French Retail Banking (FRB), • BNL banca commerciale (BNL bc), Italian retail banking, • Belgian Retail Banking (BRB), • Other Domestic Markets activities, including Luxembourg Retail Banking (LRB); • International Financial Services, comprising: • Europe-Mediterranean, • BancWest, • Personal Finance, • Insurance, • Wealth and Asset Management; • Corporate and Institutional Banking (CIB), which includes: • Corporate Banking, • Global Markets, • Securities Services.

- (h) In Element B.16, the references to "31 December 2013" in the second sentence of the first bullet point thereof are deleted and replaced with the words "31 December 2014".
- (i) In Element D.2, the information under the heading "**BNPP**" and above the heading "**BNPP B.V.**" is deleted and replaced with the following:

		There are certain factors that may affect the Issuer's ability to fulfil its obligations under the Securities issued under the Programme and, if applicable, the Guarantor's obligations under the Guarantee. Eleven main categories of risk are inherent in BNPP's activities:

		(a) Credit Risk; (b) Counterparty Credit Risk; (c) Securitisation; (d) Market Risk; (e) Operational Risk; (f) Compliance and Reputation Risk; (g) Concentration Risk; (h) Banking Book Interest Rate Risk (i) Strategy Risk and Business-Related Risk; (j) Liquidity Risk; (k) Insurance subscription Risk. Difficult market and economic conditions have had and may continue to have a material adverse effect on the operating environment for financial institutions and hence on BNPP's financial condition, results of operations and cost of risk. BNPP's access to and cost of funding could be adversely affected by a resurgence of the euro-zone sovereign debt crisis, worsening economic conditions, rating downgrades, increases in credit spreads or other factors. Significant interest rate changes could adversely affect BNPP's revenues or profitability. The soundness and conduct of other financial institutions and market participants could adversely affect BNPP. BNPP may incur significant losses on its trading and investment activities due to market fluctuations and volatility. BNPP may generate lower revenues from brokerage and other commission and fee-based businesses during market downturns. Protracted market declines can reduce liquidity in the markets, making it harder to sell assets and possibly leading to material losses. Laws and regulations adopted in response to the global financial crisis may materially impact BNPP and the financial and economic environment in which it operates. BNPP is subject to extensive and evolving regulatory regimes in the jurisdictions in which it operates.

		BNPP may incur substantial fines and other administrative and criminal penalties for non-compliance with applicable laws and regulations. There are risks related to the implementation of BNPP's strategic plan. BNPP may experience difficulties integrating acquired companies and may be unable to realize the benefits expected from its acquisitions. Intense competition by banking and non-banking operators could adversely affect BNPP's revenues and profitability. A substantial increase in new provisions or a shortfall in the level of previously recorded provisions could adversely affect BNPP's results of operations and financial condition. Notwithstanding BNPP's risk management policies, procedures and methods, it could still be exposed to unidentified or unanticipated risks, which could lead to material losses. BNPP's hedging strategies may not prevent losses. BNPP's competitive position could be harmed if its reputation is damaged. An interruption in or a breach of BNPP's information systems may result in material losses of client or customer information, damage to BNPP's reputation and lead to financial losses. Unforeseen external events may disrupt BNPP's operations and cause substantial losses and additional costs.

2. The "Pro Forma Issue Specific Summary of the Programme" on pages 63 to 113 of the Base Prospectus is amended as follows:
 - (a) In Element B.4b, the heading "[Insert where BNPP is the Issuer:" and the information under such heading and above the heading "[Insert where BP2F. is the Issuer:" is deleted and replaced with the following:

		<i>[Insert where BNPP is the Guarantor:</i> Macroeconomic risk. Macroeconomic and market conditions affect BNPP's results. The nature of BNPP's business makes it particularly sensitive to macroeconomic and market conditions in Europe, which have been difficult and volatile in recent years. In 2014, the global economy continued its slow recovery but there remain uncertainties, in particular in Europe where the economic performance during the second half of 2014 was weaker than expected. IMF and OECD¹ economic forecasts for 2015 indicate a continuation of moderate growth in developed economies but with differences between countries, including in the euro-zone, where growth is forecast to be weak in certain countries (including France and Italy). The forecast is similar for emerging markets (i.e., moderate

Short term risks to macroeconomic growth highlighted by the IMF include heightened geopolitical tensions and increased financial market volatility; medium-term risks highlighted include weak economic growth or stagnation in developed countries. Deflation remains a risk in the euro-zone, although the risk has been reduced through the ECB's announcement of non-conventional policy measures. <i>Legislation and Regulation applicable to Financial Institutions.</i> Laws and regulations applicable to financial institutions that have an impact on BNPP have significantly evolved. The measures that have been proposed and/or adopted in recent years include more stringent capital and liquidity requirements (particularly for large global banking groups such as the BNPP Group), taxes on financial transactions, restrictions and taxes on employee compensation, limits on the types of activities that commercial banks can undertake and ring-fencing or even prohibition of certain activities considered as speculative within separate subsidiaries, restrictions on certain types of financial products, increased internal control and reporting requirements, more stringent conduct of business rules, mandatory clearing and reporting of derivative transactions, requirements to mitigate risks in relation to over-the-counter derivative transactions and the creation of new and strengthened regulatory bodies. The measures that were recently adopted, or that are (or whose implementation measures are) in some cases proposed and still under discussion, that have affected or are likely to affect BNPP, include in particular the French Ordinance of 27 June 2013 relating to credit institutions and financing companies ("Sociétés de financement"), which came into force on 1 January 2014, the French banking law of 26 July 2013 on the separation and regulation of banking activities and the related implementing decrees and orders and the Ordinance of 20 February 2014 for the adaptation of French law to EU law with respect to financial matters; the Directive and Regulation of the European Parliament and of the Council on prudential requirements "CRD 4/CRR" dated 26 June 2013 (and the related delegated and implementing acts) and many of whose provisions have been applicable since January 1, 2014; the regulatory and implementing technical standards relating to the Directive and Regulation CRD 4/CRR published by the European Banking Authority; the designation of BNPP as a systemically important financial institution by the Financial Stability Board and the consultation for a common international standard on total loss-absorbing capacity ("TLAC") for global systemically important banks; the public consultation for the reform of the structure of the EU banking sector of 2013 and the proposal for a Regulation of the European Parliament and of the Council of 29 January 2014 on structural measures to improve the resilience of EU credit institutions; the proposal for a Regulation of the European Parliament and of the Council of 18 September 2013 on indices used as benchmarks in financial instruments and financial contracts; the Regulation of the European Parliament and of the Council of 16 April 2014 on market abuse and the Directive of the European Parliament and of the Council of 16 April 2014 on criminal sanctions for market abuse; the Directive and the Regulation of the

		(j) Liquidity Risk; (k) Insurance subscription Risk. Difficult market and economic conditions have had and may continue to have a material adverse effect on the operating environment for financial institutions and hence on BNPP's financial condition, results of operations and cost of risk. BNPP's access to and cost of funding could be adversely affected by a resurgence of the euro-zone sovereign debt crisis, worsening economic conditions, rating downgrades, increases in credit spreads or other factors. Significant interest rate changes could adversely affect BNPP's revenues or profitability. The soundness and conduct of other financial institutions and market participants could adversely affect BNPP. BNPP may incur significant losses on its trading and investment activities due to market fluctuations and volatility. BNPP may generate lower revenues from brokerage and other commission and fee-based businesses during market downturns. Protracted market declines can reduce liquidity in the markets, making it harder to sell assets and possibly leading to material losses. Laws and regulations adopted in response to the global financial crisis may materially impact BNPP and the financial and economic environment in which it operates. BNPP is subject to extensive and evolving regulatory regimes in the jurisdictions in which it operates. BNPP may incur substantial fines and other administrative and criminal penalties for non-compliance with applicable laws and regulations. There are risks related to the implementation of BNPP's strategic plan. BNPP may experience difficulties integrating acquired companies and may be unable to realize the benefits expected from its acquisitions. Intense competition by banking and non-banking operators could adversely affect BNPP's revenues and profitability. A substantial increase in new provisions or a shortfall in the level of previously recorded provisions could adversely affect BNPP's results of operations and financial condition. Notwithstanding BNPP's risk management policies, procedures and

		methods, it could still be exposed to unidentified or unanticipated risks, which could lead to material losses. BNPP's hedging strategies may not prevent losses. BNPP's competitive position could be harmed if its reputation is damaged. An interruption in or a breach of BNPP's information systems may result in material losses of client or customer information, damage to BNPP's reputation and lead to financial losses. Unforeseen external events may disrupt BNPP's operations and cause substantial losses and additional costs.]

BP²I provides IT Infrastructure Management Services for BNPP and several BNPP subsidiaries in France (including BNP Paribas Personal Finance, BP2S, and BNP Paribas Cardif), Switzerland, and Italy. **AMENDMENTS TO THE PROGRAMME SUMMARY IN RELATION TO THE BASE
PROSPECTUS (IN FRENCH) AND THE PRO FORMA ISSUE SPECIFIC SUMMARY OF THE
PROGRAMME IN RELATION TO THE BASE PROSPECTUS (IN FRENCH)**

1. Le "Résumé du Programme en relation avec le Prospectus de Base" figurant aux pages 1231 à 1287 du Prospectus de Base est modifié comme suit:
- (a) Dans l'élément B.4b, le titre "*Concernant BNPP:*" et l'information figurant sous ce titre et précédant le titre "*Concernant BP2F :*" sont supprimés et entièrement remplacés par ce qui suit:

	<i>Concernant BNPP :</i> <i>Conditions macroéconomiques.</i> L'environnement macroéconomique et de marché affecte les résultats de BNPP. Compte tenu de la nature de son activité, BNPP est particulièrement sensible aux conditions macroéconomiques et de marché en Europe, qui ont connu des perturbations au cours des dernières années. En 2014, l'économie mondiale a lentement poursuivi son redressement mais certaines incertitudes demeurent, en particulier en Europe où la performance économique a été plus faible que les prévisions au second semestre 2014. Les prévisions économiques du FMI et de l'OCDE¹ pour l'année 2015 prévoient la poursuite d'une croissance modérée pour les économies développées mais avec des divergences entre les pays, y compris dans la zone euro, où les prévisions de croissance restent faibles dans certains pays (notamment en France et en Italie). Les prévisions sont similaires pour les marchés émergents (à savoir, une croissance modérée avec des zones de fragilité). Les risques de court terme pesant sur la croissance économique soulignés par le FMI incluent des tensions géopolitiques plus importantes et une volatilité accrue des marchés financiers; les risques de moyen terme soulignés incluent quant à eux une croissance faible ou une stagnation dans les pays développés. Dans la zone euro, le risque déflationniste, toujours présent, a néanmoins été réduit par l'annonce de mesures non conventionnelles de la BCE. Législation et Réglementations Applicables aux Institutions Financières. La législation et les réglementations applicables aux institutions financières qui ont un impact sur BNPP connaissent une évolution significative. Les mesures qui ont été proposées et/ou adoptées au cours des dernières années comprennent des exigences plus strictes en matière de capital et de liquidité (notamment pour les grands groupes bancaires tels que le Groupe BNPP), des taxes sur les transactions financières, des restrictions et des taxes sur la rémunération des salariés, des limitations aux activités bancaires commerciales et la séparation au sein de filiales dédiées, voire l'interdiction, de certaines activités considérées comme spéculatives, des restrictions sur les types de produits financiers, des exigences accrues en matière de contrôle

	interne et de transparence, des règles de conduite des affaires plus strictes, la compensation et un <i>reporting</i> obligatoires des opérations sur instruments dérivés, des obligations de limiter les risques relatifs aux dérivés OTC et la création de nouvelles autorités réglementaires renforcées. Les mesures adoptées récemment ou qui sont (ou dont les mesures d'application sont) encore en projet, qui ont, ou sont susceptibles d'avoir un impact sur BNPP, comprennent notamment : l'ordonnance française du 27 juin 2013 relative aux établissements de crédit et aux sociétés de financement, entrée en vigueur le 1er janvier 2014, la loi française du 26 juillet 2013 de séparation et de régulation des activités bancaires et ses décrets et arrêtés d'application et l'ordonnance du 20 février 2014 portant diverses dispositions d'adaptation de la législation au droit de l'Union Européenne en matière financière, la Directive et le Règlement du Parlement Européen et du Conseil sur les fonds propres réglementaires dits « CRD 4/CRR » du 26 juin 2013 (et leurs actes délégués et actes d'exécution), dont un nombre important de dispositions sont applicables depuis le 1er janvier 2014, les normes techniques de réglementation et d'exécution relatives à la Directive et au Règlement CRD 4/CRR élaborées par l'Autorité Bancaire Européenne, la désignation de BNPP en tant qu'institution financière d'importance systémique par le Conseil de Stabilité Financière et la consultation sur un standard international commun de capacité d'absorption des pertes (« total loss-absorbing capacity », TLAC) pour les établissements bancaires d'importance systémique, la consultation sur la réforme structurelle du secteur bancaire de l'Union Européenne de 2013 et la proposition de Règlement du Parlement Européen et du Conseil du 29 janvier 2014 relatif à des mesures structurelles améliorant la résilience des établissements de crédit de l'UE, la proposition de Règlement du Parlement Européen et du Conseil du 18 septembre 2013 sur les indices de référence, le Règlement du Parlement Européen et du Conseil du 16 avril 2014 sur les abus de marché et la Directive du Parlement Européen et du Conseil du 16 avril 2014 relative aux sanctions pénales applicables aux abus de marché, la Directive et le Règlement du Parlement Européen et du Conseil concernant les marchés d'instruments financiers du 15 mai 2014, le Mécanisme européen de Surveillance Unique piloté par la Banque Centrale Européenne adopté en octobre 2013 (Règlement du Conseil du 15 octobre 2013 confiant à la Banque Centrale Européenne des missions spécifiques ayant trait aux politiques en matière de surveillance prudentielle des établissements de crédit et le Règlement du Parlement Européen et du Conseil du 22 octobre 2013 instituant une Autorité européenne de surveillance en ce qui concerne des missions spécifiques confiées à la Banque Centrale Européenne (et leurs actes délégués et actes d'exécution)) ainsi que l'ordonnance du 6 novembre 2014 portant diverses dispositions d'adaptation de la législation au mécanisme de surveillance unique des établissements de crédit, la Directive du Parlement Européen et du Conseil du 16 avril 2014 relative aux systèmes de garantie des dépôts renforçant la protection des dépôts des citoyens en cas de faillite bancaire (et ses actes délégués et actes d'exécution), la Directive du Parlement Européen et du Conseil du 15 mai 2014 établissant un cadre pour le Redressement et la Résolution des Banques, harmonisant les outils pour traiter d'éventuelles crises bancaires, le Mécanisme de Résolution

Au-delà de ces mesures, l'investisseur doit être conscient qu'à tout moment les autorités réglementaires, prudentielles ou politiques de tout pays sont susceptibles de prendre de nouvelles décisions impactant les banques ou le système financier dans son ensemble et dont l'effet sur BNPP peut être significatif.

		contractuel avec IBM France a été renouvelé et prorogé jusqu'à fin 2017. Fin 2012, un accord a été conclu en étendant ce dispositif à BNP Paribas Fortis en 2013. BP²I est placée sous le contrôle opérationnel d'IBM France ; BNP Paribas exerce une forte influence sur cette entité qu'elle détient à parts égales avec IBM France : les personnels de BNP Paribas mis à disposition de BP²I composent la moitié de son effectif permanent, les bâtiments et centres de traitement sont la propriété du Groupe, la gouvernance mise en œuvre garantit contractuellement à BNP Paribas une surveillance du dispositif et sa réintégration au sein du Groupe si nécessaire. - (i) Dans l'élément D.2, l'information figurant sous le titre " **BNPP**" et précédant le titre "**BNPP B.V.**" est supprimée et entièrement remplacée par ce qui suit:

		Il existe certains facteurs pouvant affecter la capacité de l'Emetteur à remplir ses engagements en vertu des Titres émis dans le cadre du Programme et, s'il y a lieu, celle du Garant à remplir ses obligations en vertu de la Garantie. Onze principaux risques sont inhérents aux activités de BNPP : a) Risque de Crédit ; b) Risque de Contrepartie ; c) Titrisation ; d) Risque de Marché ; e) Risque Opérationnel ; f) Risque de Non Conformité et de Réputation ; g) Risque de Concentration ; h) Risque de Taux du Portefeuille Bancaire; i) Risque Stratégique et Risque lié à l'Activité; j) Risque de Liquidité; k) Risque de Souscription d'Assurance. Des conditions macro-économiques et de marché difficiles ont eu et pourraient continuer à avoir un effet défavorable significatif sur les conditions dans lesquelles évoluent les établissements financiers et en conséquence sur la situation financière, les résultats et le coût du risque de BNPP. L'accès de BNPP au financement et les coûts de ce financement pourraient être affectés de manière défavorable en cas de résurgence de la crise de la dette souveraine, de détérioration des conditions économiques, de dégradation de notation, d'accroissement des <i>spreads</i> de crédit des États ou d'autres facteurs.

		Toute variation significative des taux d'intérêt est susceptible de peser sur les revenus ou la rentabilité de BNPP. La solidité financière et le comportement des autres institutions financières et acteurs du marché pourraient avoir un effet défavorable sur BNPP. Les fluctuations de marché et la volatilité exposent BNPP au risque de pertes substantielles dans le cadre de ses activités de marchés et d'investissements. Les revenus tirés des activités de courtage et des activités générant des commissions sont potentiellement vulnérables à une baisse des marchés. Une baisse prolongée des marchés peut réduire la liquidité et rendre plus difficile la cession d'actifs. Une telle situation pourrait engendrer des pertes significatives. Des mesures législatives et réglementaires prises en réponse à la crise financière mondiale pourraient affecter de manière substantielle BNPP ainsi que l'environnement financier et économique dans lequel elle opère. BNPP est soumis à une réglementation importante et fluctuante dans les juridictions où il exerce ses activités. En cas de non-conformité avec les lois et règlements applicables, BNPP peut être exposé à des amendes significatives et d'autres sanctions administratives et pénales. Il y a des risques liés à la mise en œuvre du Plan Stratégique de BNPP. BNPP pourrait connaître des difficultés relatives à l'intégration des sociétés acquises et pourrait ne pas réaliser les bénéfices attendus de ses acquisitions. Une intensification de la concurrence, par des acteurs bancaires et non bancaires, pourrait peser sur ses revenus et sa rentabilité. Toute augmentation substantielle des provisions ou tout engagement insuffisamment provisionné peut peser sur les résultats et sur la situation financière de BNPP. Malgré les politiques, procédures et méthodes de gestion du risque mises en œuvre, BNPP peut être exposé à des risques non identifiés ou imprévus, susceptibles d'occasionner des pertes significatives. Les stratégies de couverture mises en place par BNPP n'écartent pas tout risque de perte.

		Tout préjudice porté à la réputation de BNPP pourrait nuire à sa compétitivité. Toute interruption ou défaillance des systèmes informatiques de BNPP peut provoquer des pertes significatives d'informations relatives aux clients, nuire à la réputation de BNPP et provoquer des pertes financières. Des événements externes imprévus peuvent provoquer une interruption des activités de BNPP et entraîner des pertes substantielles ainsi que des coûts supplémentaires.

2. Le "Modèle de Résumé du Programme Spécifique à l'Emission en relation avec le Prospectus de Base" figurant aux pages 1288 à 1349 du Prospectus de Base est modifié comme suit :
- (a) Dans l'élément B.4b, le titre "[A indiquer si BNPP est l'Emetteur:]" et l'information figurant sous ce titre et précédant le titre "[A indiquer si BP2F est l'Emetteur:]" sont supprimés et entièrement remplacés par ce qui suit:

	Financières. La législation et les réglementations applicables aux institutions financières qui ont un impact sur BNPP connaissent une évolution significative. Les mesures qui ont été proposées et/ou adoptées au cours des dernières années comprennent des exigences plus strictes en matière de capital et de liquidité (notamment pour les grands groupes bancaires tels que le Groupe BNPP), des taxes sur les transactions financières, des restrictions et des taxes sur la rémunération des salariés, des limitations aux activités bancaires commerciales et la séparation au sein de filiales dédiées, voire l'interdiction, de certaines activités considérées comme spéculatives, des restrictions sur les types de produits financiers, des exigences accrues en matière de contrôle interne et de transparence, des règles de conduite des affaires plus strictes, la compensation et un <i>reporting</i> obligatoires des opérations sur instruments dérivés, des obligations de limiter les risques relatifs aux dérivés OTC et la création de nouvelles autorités réglementaires renforcées. 		[A indiquer si BNPP est le Garant: Conditions macroéconomiques. L'environnement macroéconomique et de marché affecte les résultats de BNPP. Compte tenu de la nature de son activité, BNPP est particulièrement sensible aux conditions macroéconomiques et de marché en Europe, qui ont connu des perturbations au cours des dernières années. En 2014, l'économie mondiale a lentement poursuivi son redressement mais certaines incertitudes demeurent, en particulier en Europe où la performance économique a été plus faible que les prévisions au second semestre 2014. Les prévisions économiques du FMI et de l'OCDE¹ pour l'année 2015 prévoient la poursuite d'une croissance modérée pour les économies développées mais avec des divergences entre les pays, y compris dans la zone euro, où les prévisions de croissance restent faibles dans certains pays (notamment en France et en Italie). Les prévisions sont similaires pour les marchés émergents (à savoir, une croissance modérée avec des zones de fragilité). Les risques de court terme pesant sur la croissance économique soulignés par le FMI incluent des tensions géopolitiques plus importantes et une volatilité accrue des marchés financiers; les risques de moyen terme soulignés

		[A insérer si BNPP est l'Emetteur ou le Garant: Onze principaux risques sont inhérents aux activités de BNPP : a) Risque de Crédit ; b) Risque de Contrepartie ; c) Titrisation ; d) Risque de Marché ; e) Risque Opérationnel ; f) Risque de Non Conformité et de Réputation ; g) Risque de Concentration ; h) Risque de Taux du Portefeuille Bancaire;

		i) Risque Stratégique et Risque lié à l'Activité; j) Risque de Liquidité; k) Risque de Souscription d'Assurance. Des conditions macro-économiques et de marché difficiles ont eu et pourraient continuer à avoir un effet défavorable significatif sur les conditions dans lesquelles évoluent les établissements financiers et en conséquence sur la situation financière, les résultats et le coût du risque de BNPP. L'accès de BNPP au financement et les coûts de ce financement pourraient être affectés de manière défavorable en cas de résurgence de la crise de la dette souveraine, de détérioration des conditions économiques, de dégradation de notation, d'accroissement des <i>spreads</i> de crédit des États ou d'autres facteurs. Toute variation significative des taux d'intérêt est susceptible de peser sur les revenus ou la rentabilité de BNPP. La solidité financière et le comportement des autres institutions financières et acteurs du marché pourraient avoir un effet défavorable sur BNPP. Les fluctuations de marché et la volatilité exposent BNPP au risque de pertes substantielles dans le cadre de ses activités de marchés et d'investissements. Les revenus tirés des activités de courtage et des activités générant des commissions sont potentiellement vulnérables à une baisse des marchés. Une baisse prolongée des marchés peut réduire la liquidité et rendre plus difficile la cession d'actifs. Une telle situation pourrait engendrer des pertes significatives. Des mesures législatives et réglementaires prises en réponse à la crise financière mondiale pourraient affecter de manière substantielle BNPP ainsi que l'environnement financier et économique dans lequel elle opère. BNPP est soumis à une réglementation importante et fluctuante dans les juridictions où il exerce ses activités. En cas de non-conformité avec les lois et règlements applicables, BNPP peut être exposé à des amendes significatives et d'autres sanctions administratives et pénales. Il y a des risques liés à la mise en œuvre du Plan Stratégique de BNPP. BNPP pourrait connaître des difficultés relatives à l'intégration des sociétés acquises et pourrait ne pas réaliser les bénéfices attendus de

		ses acquisitions. Une intensification de la concurrence, par des acteurs bancaires et non bancaires, pourrait peser sur ses revenus et sa rentabilité. Toute augmentation substantielle des provisions ou tout engagement insuffisamment provisionné peut peser sur les résultats et sur la situation financière de BNPP. Malgré les politiques, procédures et méthodes de gestion du risque mises en œuvre, BNPP peut être exposé à des risques non identifiés ou imprévus, susceptibles d’occasionner des pertes significatives. Les stratégies de couverture mises en place par BNPP n’écarteront pas tout risque de perte. Tout préjudice porté à la réputation de BNPP pourrait nuire à sa compétitivité. Toute interruption ou défaillance des systèmes informatiques de BNPP peut provoquer des pertes significatives d’informations relatives aux clients, nuire à la réputation de BNPP et provoquer des pertes financières. Des événements externes imprévus peuvent provoquer une interruption des activités de BNPP et entraîner des pertes substantielles ainsi que des coûts supplémentaires.]

	tendenze	<i>Rischio macroeconomico.</i> I risultati di BNPP sono influenzati dal contesto macroeconomico e di mercato. Data la natura della sua attività, BNPP è particolarmente sensibile alle condizioni macroeconomiche e di mercato in Europa, che negli ultimi anni sono state difficili e caratterizzate da volatilità. Nel 2014, l'economia globale ha proseguito la sua lenta ripresa ma permangono incertezze, soprattutto in Europa, dove nel secondo semestre il risultato economico ha deluso le stime. Le previsioni economiche elaborate dal FMI e dall'OCSE¹ per il 2015 confermano la prosecuzione di una modesta crescita nelle economie sviluppate, benché differenziata a seconda dei paesi; per esempio, si prevede una crescita più fragile per taluni paesi dell'eurozona (fra cui la Francia e l'Italia). Una stima analoga coinvolge anche i mercati emergenti (ovvero, una crescita moderata con aree di fragilità). I rischi gravanti sulla crescita macroeconomica a breve termine, evidenziati dal FMI, includono l'acuirsi delle tensioni geopolitiche e l'aumento della volatilità nei mercati finanziari; nel medio periodo si è invece sottolineata la fragilità della crescita economica o la stagnazione nei paesi sviluppati. La deflazione rimane una minaccia per l'eurozona, anche se il rischio si è ridimensionato grazie all'annuncio della BCE circa l'adozione di misure politiche non convenzionali.
		<i>Legislazione e regolamenti applicabili alle istituzioni finanziarie.</i>
		BNPP è influenzata dalla legislazione e dai regolamenti applicabili alle istituzioni finanziarie, che hanno subito modifiche significative. Nuove misure che sono state proposte e adottate negli ultimi anni includono requisiti patrimoniali e di liquidità più severi (in particolare per i gruppi bancari internazionali di grandi dimensioni come il Gruppo BNPP), imposte sulle transazioni finanziarie, restrizioni e tasse sulla remunerazione dei dipendenti, limiti alle attività che le banche commerciali possono intraprendere, nonché isolamento a livello finanziario e persino divieto di alcune attività considerate come speculative all'interno delle controllate separate, restrizioni su alcuni tipi di prodotti finanziari, un aumento dei requisiti di trasparenza e di controllo interno, regole di condotta commerciale più severe, rendicontazione e autorizzazione di operazioni su derivati obbligatorie, requisiti di limitazione dei rischi relativi ai derivati fuori Borsa e la costituzione di nuovi e più solidi organi di regolamentazione. Le misure recentemente adottate o, in alcuni casi proposte e ancora in fase di discussione, che hanno o avranno probabilmente un'influenza su BNPP, comprendono in particolare l'Ordinanza francese del 27 giugno 2013 relativa agli istituti di credito e alle società di finanziamento ("Sociétés de financement"), entrata in vigore il 1° gennaio 2014, la legge francese in

		I risultati di BP2F sono influenzati dal contesto macroeconomico e di mercato. Data la natura della sua attività, BP2F è particolarmente sensibile alle condizioni macroeconomiche e di mercato in Europa, che negli ultimi anni sono state difficili e caratterizzate da volatilità.
		Nel 2013 l'economia globale ha iniziato a entrare in una fase di equilibrio, con il rallentamento di molti paesi emergenti e una lieve ripresa dei paesi avanzati. La situazione economica globale è generalmente rimasta stabile rispetto al 2012. Le previsioni economiche del FMI e dell'OCSE ¹ per il 2014 indicano in linea generale un proseguimento della crescita moderata nei paesi avanzati sebbene in maniera meno marcata e uniforme nell'eurozona. Secondo le analisi dei suddetti organismi persistono le incertezze riguardo alla forza della ripresa, in particolare in seguito all'annuncio a dicembre 2013 dell'inizio del tapering da parte della Federal Reserve, e nell'eurozona, dove esiste un rischio di deflazione.
		Nella zona euro gli spread sovrani hanno continuato a scendere nel 2013 in seguito alla diminuzione record da livelli storicamente alti registrata nel 2012. Le condizioni finanziarie di alcuni emittenti sovrani sono migliorate ma permangono incertezze riguardo alla solvibilità di altri.

B.19/ B.1	Denominazione legale e commerciale del Garante	BNP Paribas Fortis SA/NV, che agisce sotto la denominazione commerciale di BNP Paribas Fortis.
B.19/ B.2	Domicilio/ forma giuridica/ legislazione/ paese di costituzione	BNPPF è stata costituita nella forma di una società a responsabilità limitata (“ <i>société anonyme/naamloze vennootschap</i> ”) ai sensi della legge belga, con sede legale a Montagne du Parc 3, 1000 Bruxelles, e ha ottenuto l’autorizzazione a operare quale banca.
B.19/ B.4b	Informazioni sulle tendenze	Scenario macroeconomico I risultati di BNPPF sono influenzati dal contesto macroeconomico e di mercato. Data la natura della sua attività, BNPPF è particolarmente sensibile alle condizioni macroeconomiche e di mercato in Europa, che negli ultimi anni sono state difficili e caratterizzate da volatilità. Nel 2013 l’economia globale ha iniziato a entrare in una fase di equilibrio, con il rallentamento di molti paesi emergenti e una lieve ripresa dei paesi avanzati. La situazione economica globale è generalmente rimasta stabile rispetto al 2012. Le previsioni economiche² del FMI e dell’OCSE per il 2014 indicano in linea generale un proseguimento della crescita moderata nei paesi avanzati sebbene in maniera meno marcata e uniforme nell’eurozona. Secondo le analisi dei suddetti organismi persistono le incertezze riguardo alla forza della ripresa, in particolare in seguito all’annuncio a dicembre 2013 dell’inizio del tapering da parte della Federal Reserve, e nell’eurozona, dove esiste un rischio di deflazione. Nella zona euro gli spread sovrani hanno continuato a scendere nel 2013 in seguito alla diminuzione record da livelli storicamente alti registrata nel 2012. Le condizioni finanziarie di alcuni emittenti sovrani sono migliorate ma permangono incertezze riguardo alla solvibilità di altri. Legislazione e regolamenti applicabili alle istituzioni finanziarie BNPPF è influenzata dalla legislazione e dai regolamenti applicabili alle istituzioni finanziarie, che stanno subendo modifiche significative sulla scia della crisi finanziaria globale. Le misure che sono state proposte e adottate negli ultimi anni includono requisiti patrimoniali e di liquidità più severi (in particolare per i gruppi bancari internazionali di grandi dimensioni come il Gruppo BNP Paribas), imposte sulle transazioni finanziarie, restrizioni e tasse sulla remunerazione dei dipendenti, limiti alle attività che le banche commerciali possono intraprendere, nonché isolamento a livello finanziario e persino divieto di alcune attività considerate come speculative all’interno delle controllate separate, restrizioni su alcuni tipi di prodotti finanziari, un aumento dei requisiti di trasparenza e di controllo interno, regole di condotta commerciale più severe, rendicontazione e autorizzazione di operazioni su derivati obbligatorie, requisiti di limitazione dei rischi relativi ai derivati

		fuori Borsa e la costituzione di nuovi e più solidi organi di regolamentazione. Le misure recentemente adottate o, in alcuni casi, proposte e ancora in fase di discussione, che avranno o avranno probabilmente un'influenza su BNPPF, comprendono in particolare la Direttiva e il Regolamento UE sui requisiti prudenziali "CRD IV" del 26 giugno 2013, di cui molte disposizioni sono già entrate in vigore il 1° gennaio 2014; le proposte di un quadro normativo tecnico ed esecutivo relativo alla Direttiva e al Regolamento CRD IV pubblicato dall'ABE; la legge bancaria belga; la consultazione pubblica per la riforma strutturale del settore bancario UE del 2013 e la proposta di regolamento della Commissione europea il 29 gennaio 2014 sulle misure strutturali da adottare per migliorare la solidità degli istituti di credito nell'UE; la proposta di un regolamento sugli indici utilizzati come benchmark degli strumenti e contratti finanziari; il meccanismo di vigilanza unico europeo; la proposta di un meccanismo di risoluzione unico a livello europeo e la proposta di una Direttiva europea sul risanamento e risoluzione delle banche; la norma finale della regolamentazione sulle banche estere che impone determinati requisiti di liquidità, capitale e di altro tipo a livello prudenziale adottata dalla Federal Reserve statunitense; la proposta della Federal Reserve statunitense relativa ai rapporti di liquidità per le banche di grandi dimensioni; e la "Volcker" Rule che impone alcune limitazioni agli investimenti in hedge fund e fondi di private equity, alla loro sponsorizzazione, nonché alle attività di proprietary trading (delle banche statunitensi e in parte anche delle banche non statunitensi) che è stata recentemente adottata dalle autorità di regolamentazione statunitensi. Più in generale, le autorità di regolamentazione e legislative di qualsiasi paese possono, in qualsiasi momento, introdurre l'applicazione di nuove o differenti misure che potrebbero avere un impatto importante sul sistema finanziario in generale o su BNPPF in particolare.

Sui Titoli che pagano Interessi/un Importo Premio matureranno interessi o gli stessi pagheranno interessi o un importo premio determinati con riferimento a un tasso fisso, a un tasso variabile e/o a un tasso calcolato con riferimento a uno o più Sottostanti di Riferimento (ciascuno, un “Sottostante di Riferimento”). In ciascun caso, l'importo degli interessi o del premio sarà pagabile alla o alle date determinate dall'Emittente al momento dell'emissione delle Notes o dei Certificates, indicato nelle Condizioni Definitive e sintetizzato nella nota di sintesi della singola emissione allegata alle Condizioni Definitive. Saranno inoltre convenuti, indicati e sintetizzati il tasso d'interesse e il rendimento a un tasso fisso, relativi alle Notes che maturano interessi o Certificates che pagano interessi, o un Importo Premio. Il Tasso di Interesse o dell'Importo Premio può essere calcolato con riferimento a un tasso di riferimento (ad esempio, a mero titolo esemplificativo, il LIBOR o l'EURIBOR). Le Notes possono essere rimborsate anticipatamente per ragioni fiscali all'Importo del Rimborso Anticipato calcolato in conformità alle Condizioni o, se indicato nelle Condizioni Definitive, a scelta dell'Emittente o a scelta dei Portatori delle Notes all'Importo del Rimborso Facoltativo indicato nelle relative Condizioni Definitive. Indicazione del Rendimento Nel caso di Titoli su cui maturano o che pagano interessi o importi di premio a un tasso fisso, il rendimento sarà specificato nelle Condizioni Definitive e sarà calcolato come il tasso di interesse o l'importo premio che, quando utilizzato per scontare ciascun pagamento di interessi e capitale programmato ai sensi dei Titoli dalla Data di Scadenza Programmata o dalla Data di Rimborso alla Data di Emissione, produce importi di rendimento che, sommati, formano il Prezzo di Emissione. Il rendimento è calcolato alla Data di Emissione sulla base del Prezzo di Emissione e sul presupposto che i Titoli non sono soggetti all'annullamento anticipato o, se del caso, che non si verifichi alcun Evento di Credito. Non è indicativo del rendimento futuro. Nel caso di Titoli su cui maturano o che pagano interessi o importi di premio altrimenti che a un tasso fisso, a causa della natura di tali Titoli, non è possibile determinare il rendimento alla Data di Emissione. Rappresentante dei Portatori dei Titoli L'Emittente non ha nominato alcun Rappresentante dei Portatori dei Titoli, fatto salvo ove diversamente specificato nelle Condizioni Definitive applicabili, con riferimento ai Titoli W&C di diritto francese. Section D - Rischi

Elemento	Titolo	
D.2	Rischi fondamentali relativi agli Emittenti e ai Garanti	Emittenti BNPP Vi sono certi fattori che possono avere un impatto sulla capacità dell'Emittente di adempiere le proprie obbligazioni ai sensi dei Titoli emessi ai sensi del Programma e, se del caso, le obbligazioni del Garante ai sensi della Garanzia. Undici categorie principali di rischio sono inerenti alle attività di BNPP: (a) Rischio di Credito; (b) Rischio di Credito di Controparte; (c) Cartolarizzazione; (d) Rischio di Mercato; (e) Rischio Operativo; (f) Rischio di Compliance e Rischio Reputazionale; (g) Rischio di Concentrazione; (h) Rischio di Tasso d'Interesse del Portafoglio Bancario; (i) Rischio di Strategia e Rischio d'Impresa; (j) Rischio di Liquidità; (k) Rischio di sottoscrizione di assicurazione; Le difficili condizioni di mercato ed economiche hanno esercitato e potrebbero continuare ad esercitare un effetto sostanzialmente pregiudizievole sul contesto operativo per le istituzioni finanziarie e quindi sulla situazione finanziaria, sui risultati operativi e sul costo del rischio di BNPP. L'accesso di BNPP alla provvista e il costo di provvista potrebbero risentire di un ritorno della crisi del debito sovrano dell'eurozona, del peggioramento delle condizioni economiche, di ulteriori riduzioni dei rating, dell'aumento di altri spread o di altri fattori. Mutamenti significativi dei tassi d'interesse potrebbero avere un impatto negativo sui ricavi o sulla redditività di BNPP. La solidità e la condotta di altre istituzioni finanziarie e partecipanti del mercato potrebbero avere un impatto negativo su BNPP. BNPP potrebbe subire perdite significative sulle sue attività di negoziazione e

Elemento	Titolo	
		di investimento a causa di oscillazioni e della volatilità del mercato. BNPP potrebbe generare ricavi inferiori dalle sue attività di intermediazione e altre attività basate su commissioni e provvigioni durante periodi di crisi dei mercati. Il protrarsi della discesa dei mercati può ridurre la liquidità dei mercati, rendendo più difficile vendere attività e conducendo potenzialmente a perdite significative. Leggi e regolamenti adottati in risposta alla crisi finanziaria globale potrebbero avere un impatto significativo su BNPP e sul contesto finanziario ed economico in cui opera. BNPP è soggetta a regimi di estesa regolamentazione in continua evoluzione nelle giurisdizioni in cui opera. BNPP può incorrere in ammende e altre sanzioni amministrative e penali per il mancato adeguamento alle leggi e ai regolamenti applicabili. Esistono rischi associati all'attuazione del piano strategico di BNPP. BNPP potrebbe incontrare difficoltà nell'integrare le società acquisite e potrebbe non essere in grado di realizzare i benefici attesi dalle sue acquisizioni. L'intensa competizione fra operatori bancari e non bancari potrebbe incidere negativamente sulle entrate e sulla redditività di BNPP. Un aumento sostanziale dei nuovi accantonamenti o un ammanco nel livello degli accantonamenti precedentemente registrati potrebbero avere un impatto negativo sui risultati operativi e sulla situazione finanziaria di BNPP. Malgrado le politiche, procedure e modalità di gestione dei rischi di BNPP, la stessa potrebbe ancora essere esposta a rischi non identificati o imprevisti, che potrebbero causare perdite significative. Le strategie di copertura di BNPP potrebbero non impedire perdite. La posizione competitiva di BNPP potrebbe essere pregiudicata in caso di danneggiamento della sua reputazione. L'interruzione o la violazione dei sistemi informatici di BNPP potrebbe comportare la perdita sostanziale di informazioni inerenti ai clienti, danni alla reputazione di BNPP e conseguenti perdite finanziarie. Eventi esterni imprevisti possono disturbare le attività di BNPP e causare perdite significative e costi aggiuntivi. BNPP B.V. I seguenti fattori di rischio riguardano BNPP B.V.: BNPP B.V. è una società

Elemento	Titolo	
		operativa. L'unica attività di BNPP B.V. consiste nel raccogliere e mutuare somme di denaro emettendo strumenti finanziari come Notes, Warrant, Certificates o altre obbligazioni. BNPP B.V. non ha e non avrà beni al di fuori degli accordi di copertura (contratti OTC menzionati negli Annual Reports), contanti e commissioni pagabili alla stessa, o altre attività acquisite dalla stessa, in ciascun caso in relazione all'emissione di titoli o alla assunzione di altre obbligazioni agli stessi relative di volta in volta. Il capitale azionario e la base reddituale di BNPP B.V. sono limitati. I proventi netti di ciascuna emissione di Titoli emessi da BNPP B.V. diventeranno parte dei fondi generali di BNPP B.V. BNPP B.V. utilizza tali proventi per coprire il suo rischio di mercato attraverso l'acquisto di strumenti di copertura da BNP Paribas e da sue entità ("Accordi di Copertura") e/o, nel caso di Titoli Garantiti, per acquistare Beni di Garanzia. La capacità di BNPP B.V. di adempiere le sue obbligazioni ai sensi dei Titoli emessi dalla stessa dipenderà dal ricevimento da parte della stessa di pagamenti ai sensi dei relativi Accordi di Copertura. Pertanto, i Portatori di Titoli di BNPP B.V. saranno esposti, fatte salve le disposizioni della relativa Garanzia, alla capacità di BNP Paribas e di sue entità in relazione a tali Accordi di Copertura di adempiere le proprie obbligazioni ai sensi dei predetti accordi. BGL I seguenti fattori di rischio riguardano le attività di BGL: (a) Condizioni di mercato ed economiche difficili potrebbero avere in futuro un effetto sostanzialmente pregiudizievole sul contesto operativo per le istituzioni finanziarie e quindi sulla situazione finanziaria, sui risultati operativi e sul costo del rischio di BGL. (b) Interventi legislativi e misure di regolamentazione adottate in risposta alla crisi finanziaria globale potrebbero avere un impatto significativo su BGL e sul contesto finanziario ed economico in cui opera. (c) L'accesso di BGL alla provvista e il costo di provvista potrebbero risentire di un ulteriore aggravamento della crisi del debito sovrano della Zona Euro, del peggioramento delle condizioni economiche, una riduzione dei rating o di altri fattori. (d) Un aumento sostanziale dei nuovi accantonamenti o un ammanco nel livello degli accantonamenti precedentemente registrati potrebbero avere un impatto negativo sui risultati operativi e sulla situazione finanziaria di BGL. (e) BGL potrebbe subire perdite significative sulle sue attività di negoziazione e di investimento a causa di oscillazioni e della volatilità del mercato. (f) BGL potrebbe generare ricavi inferiori dalle sue attività di intermediazione e altre attività basate su commissioni e provvigioni durante i periodi di crisi dei mercati.

		BP2F Quanto segue è una sintesi di alcune delle ulteriori considerazioni d'investimento relative all'attività di BP2F: (a) La protezione di credito primaria per i Titoli emessi da BP2F deriverà dalle garanzie prestate da BNPPF. (b) La capacità di BP2F di adempiere le sue obbligazioni in relazione al rendimento strutturato dei titoli strutturati può dipendere dalla capacità delle sue controparti di copertura di adempiere le loro obbligazioni ai sensi di una copertura. (c) La capacità di BP2F di effettuare pagamenti ai sensi dei Titoli può dipendere dall'andamento operativo delle società alle quali sono prestati i proventi dei Titoli. (d) La situazione finanziaria delle società operative cui sono prestati i proventi dei Titoli può deteriorarsi e questo potrebbe avere un effetto sulla capacità di BP2F di effettuare pagamenti ai sensi dei Titoli che emette. (e) In un periodo di condizioni economiche in peggioramento o difficili, BP2F potrebbe trovare difficile ottenere ulteriori finanziamenti. (f) La normativa relativa alle imposte sul transfer pricing in Lussemburgo genera costi aggiuntivi, che possono variare di volta in volta.
		Garanti BNPP Si veda quanto precede in relazione a BNPP.
		BNPPF Quanto segue è una sintesi di alcune delle considerazioni d'investimento relative all'attività di BNPPF: (a) Condizioni di mercato ed economiche difficili, incluse, a mero titolo esemplificativo, le preoccupazioni relative alla capacità di certi paesi della Zona Euro di rifinanziare le proprie obbligazioni di debito, potrebbero avere in futuro un effetto sostanzialmente pregiudizievole sul contesto operativo per le istituzioni finanziarie e quindi sulla situazione finanziaria, sui risultati operativi e sul costo del rischio di BNPPF. (b) Interventi legislativi e misure di regolamentazione adottate in risposta alla crisi finanziaria globale potrebbero avere un impatto significativo su BNPPF e sul contesto finanziario ed economico in cui opera.

Elemento	Titolo	
		(c) L'accesso di BNPPF al finanziamento e il relativo costo potrebbero risentire di un ulteriore deterioramento della crisi del debito sovrano della Zona Euro, del peggioramento delle condizioni economiche, di una riduzione dei rating o di altri fattori. (d) La solidità e la condotta di altre istituzioni finanziarie e partecipanti del mercato potrebbero avere un impatto negativo su BNPPF. (e) BNPPF potrebbe subire perdite significative sulle sue attività di negoziazione e di investimento a causa di oscillazioni e della volatilità del mercato. (f) Un aumento sostanziale dei nuovi accantonamenti o una riduzione nel livello degli accantonamenti precedentemente registrati potrebbero avere un impatto negativo sui risultati operativi e sulla situazione finanziaria di BNPPF. (g) BNPPF potrebbe generare ricavi inferiori dalle sue attività di intermediazione e altre attività basate su commissioni e provvigioni durante periodi di crisi dei mercati. (h) Le strategie di copertura di BNPPF potrebbero non impedire perdite. (i) Mutamenti significativi dei tassi d'interesse potrebbero avere un impatto negativo sul reddito bancario netto o sulla redditività di BNPPF. (j) Il protrarsi della discesa dei mercati può ridurre la liquidità dei mercati, rendendo più difficile vendere attività e conducendo potenzialmente a perdite significative. (k) Malgrado le politiche, procedure e metodi di gestione dei rischi, BNPPF potrebbe essere ancora esposta a rischi non identificati o imprevisti, e questo potrebbe portare a perdite significative. (l) Sebbene ognuna delle aziende di BNPPF gestisca i propri rischi operativi, tali rischi restano parte integrante di tutte le aziende di BNPPF. (m) BNPPF ha un'elevata esposizione al rischio di controparte e a rischi sistemici. (n) La posizione competitiva di BNPPF potrebbe essere pregiudicata qualora la reputazione di BNPPF sia danneggiata. (o) Una interruzione o violazione dei sistemi informativi di BNPPF potrebbe avere come conseguenza una perdita di lavoro e altre perdite. (t) Eventi esterni imprevedibili possono interrompere le attività di BNPPF e causare perdite significative e costi aggiuntivi. (v) L'intensa concorrenza nel settore dei servizi finanziari potrebbe avere un impatto negativo sui ricavi e sulla redditività di BNPPF.
D.3	Rischi chiave relativi ai Titoli	Esistono certi fattori che sono rilevanti ai fini della valutazione dei rischi di mercato associati ai Titoli emessi ai sensi del Programma; questi comprendono quanto segue: (i) i Titoli (diversi dai Titoli Garantiti) sono obbligazioni non garantite; (ii) i Titoli che includono l'effetto leva comportano un livello di rischio più alto e qualora vi siano perdite su tali Titoli, le stesse potrebbero essere più elevate di quelle di un titolo simile che non è oggetto di leverage; (iii) i Bull and Bear Certificates (payout ETS 2300) sono concepiti esclusivamente per negoziazioni a breve termine, essendo valutati sulla base della loro performance giornaliera composta; (iv) il prezzo di negoziazione dei Titoli è influenzato da vari fattori tra cui, a mero titolo esemplificativo (in relazione ai Titoli legati a un Sottostante di Riferimento), il prezzo del o dei relativi Sottostanti di Riferimento, il tempo restante alla scadenza o al rimborso e la volatilità, e tali fattori implicano che il prezzo di negoziazione dei Titoli può essere inferiore all'Importo del Rimborso Finale o all'Importo del Regolamento in Contanti o al valore del Diritto Spettante; (v) l'esposizione al Sottostante di Riferimento in molti casi sarà ottenuta tramite la stipula da parte dell'Emittente di accordi di copertura e, in relazione ai Titoli legati a un Sottostante di Riferimento, i potenziali investitori sono esposti all'andamento di questi accordi di copertura e ad eventi che possono avere un effetto sugli accordi di copertura e, di conseguenza, il verificarsi di uno di questi eventi può avere un effetto sul valore dei Titoli; (vi) il collateral associato ad una o più serie di Titoli Garantiti può essere insufficiente ad eliminare il rischio di credito di un Portatore sull'Emittente; (vii) i Titoli possono avere un importo di negoziazione minimo e qualora, a seguito della cessione di un Titolo, un Portatore di Titoli detenga meno Titoli rispetto all'importo di negoziazione minimo specificato, a tale Portatore non sarà consentito cedere i propri Titoli residui prima della scadenza o del rimborso, a seconda dei casi, senza prima avere acquistato sufficienti Titoli aggiuntivi al fine di detenere l'importo minimo di negoziazione; (viii) limiti all'esercizio di Warrant possono comportare l'incapacità di un Portatore di esercitare tutti i Warrant che

Elemento	Titolo	
		intenderebbe esercitare in una data specifica, quando l'Emittente ha la possibilità di limitare il numero di Warrant esercitabili in una data o può essere tenuto a vendere o acquistare Warrant (sostenendo in ogni caso costi di transazione) al fine di realizzare il proprio investimento, ove debba essere esercitato un numero minimo di Warrant; (ix) nel caso dei Warrant, le variazioni nell'Importo di Regolamento in Contanti nell'intervallo di tempo compreso fra il momento nel quale un Portatore impartisce le istruzioni di esercizio e il momento della determinazione dell'Importo di Regolamento in Contanti possono ridurre l'Importo di Regolamento in Contanti; (x) ove indicato nelle Condizioni Definitive, l'Emittente può, a sua esclusiva e assoluta discrezione, decidere di variare il regolamento dei Titoli; (xi) gli Open End Certificates e gli OET Certificates non contemplano una scadenza prestabilita e possono essere rimborsati in qualsiasi data determinata dall'Emittente di riferimento, a sua esclusiva e totale discrezione, e gli investimenti in tali Open End Certificates e OET Certificates comportano rischi aggiuntivi rispetto ad altri Certificates a causa dell'impossibilità da parte dell'investitore di stabilire la data di rimborso; (xii) il regolamento potrebbe essere differito a seguito del verificarsi o dell'esistenza di un Evento di Turbativa del Regolamento e, in tali circostanze, l'Emittente potrebbe pagare un Prezzo del Regolamento in Contanti Soggetto a Turbativa (che potrebbe essere inferiore al giusto valore di mercato del Diritto Spettante) al posto della consegna del Diritto Spettante; (xiii) il verificarsi di un ulteriore evento di turbativa o di un evento di turbativa ulteriore opzionale può portare a una rettifica dei Titoli, alla cancellazione (nel caso dei Warrant) o a un rimborso anticipato (nel caso di Notes e Certificates) o può avere come conseguenza una differenza tra l'importo pagabile al momento del rimborso programmato e l'importo che si prevede sia pagato al momento del rimborso programmato e, di conseguenza, il verificarsi di un evento di turbativa ulteriore e/o di un evento di turbativa ulteriore opzionale può avere un effetto pregiudizievole sul valore o sulla liquidità dei Titoli; (xiv) i Titoli possono maturare spese e oneri fiscali; (xv) i Titoli potrebbero essere annullati (nel caso dei Warrant) o rimborsati (nel caso delle Notes e dei Certificati) nel caso di illegalità o impraticabilità, e tale annullamento o rimborso potrebbe avere come conseguenza il fatto che un investitore non realizzi un profitto su un investimento nei Titoli; (xvi) le disposizioni sulle assemblee dei Portatori consentono a maggioranze definite di vincolare tutti i Portatori; (xvii) una decisione giudiziaria o un mutamento di una prassi amministrativa o una modifica della legge inglese o francese, a seconda dei casi, dopo la data del Prospetto di Base potrebbero avere un impatto sostanzialmente pregiudizievole sul valore delle Notes da essi influenzate; (xviii) una riduzione dell'eventuale rating assegnato a titoli di debito in essere dell'Emittente o Garante (se applicabile) da parte di un'agenzia di rating potrebbe causare una riduzione del valore di negoziazione dei Titoli; (xix) potrebbero sorgere certi conflitti di interessi (si veda l'Elemento E.4 che segue); (xx) l'unico mezzo attraverso il quale un Detentore può realizzare valore dal Titolo prima della sua Data di Esercizio, Data di Scadenza o Data di Rimborso, a seconda dei casi, consiste nella sua vendita al prezzo di mercato in vigore al momento dell'operazione in un mercato secondario disponibile, fermo restando che potrebbe non esistere alcun mercato secondario per i Titoli

Elemento	Titolo	
		(il che potrebbe significare, per un investitore, dover attendere di esercitare il rimborso dei Titoli, al fine di realizzare un valore superiore rispetto al valore di scambio); (xxi) può darsi che non sia mai stabilito un mercato secondario attivo, o che questo sia illiquido, e che questo abbia un effetto negativo sul valore al quale un investitore può vendere i suoi Titoli (gli investitori potrebbero subire una perdita parziale o totale dell'importo del loro investimento). In determinate circostanze all'inizio di un periodo d'offerta relativo ai Titoli ma prima della data di emissione, talune informazioni specifiche (in particolare il Tasso di Interesse fisso, il Tasso Minimo di Interesse e/o il Tasso Massimo di Interesse pagabile, il Margine applicato al tasso di interesse variabile pagabile, il Gearing (Leva) applicato all'interesse o al payout finale, il Gearing Up (Leva Superiore) applicato al payout finale (nel caso di Autocall Securities, Autocall One Touch Securities o Autocall Standard Securities), la componente Tasso FR del payout finale (la quale sarà pagabile laddove determinate condizioni siano soddisfatte, come specificato nelle Condizioni del Payout) e/o il Livello Knock-in e/o il Livello Knock-out utilizzato per accertare se l'Evento Knock-in o l'Evento Knock-out, secondo quanto applicabile, si sia verificato) potrebbero non essere note, ma le Condizioni Definitive specificheranno un intervallo indicativo. In tali circostanze, i potenziali investitori potrebbero dover assumere la loro decisione di acquistare i Titoli sulla base di tale intervallo, prima che il Tasso di Interesse, il Margine, il Gearing, il Gearing Up, il Tasso FR, il Livello Knock-in e/o Knock-out, a seconda dei casi, che si applicherà ai Titoli, gli sia notificato. Un avviso relativo al tasso, al livello o alla percentuale effettivi, secondo quanto applicabile, sarà pubblicato con le stesse modalità della pubblicazione delle Condizioni Definitive. Esistono rischi specifici applicabili alle Notes a doppia valuta inclusi, a titolo esemplificativo ma non esaustivo, l'esposizione ai movimenti dei tassi di cambio che possono determinare fluttuazioni significative del valore delle Notes, il fatto che il pagamento del capitale e/o degli interessi può avvenire in un momento diverso o in una valuta diversa dal previsto, il fatto che gli investitori non potranno beneficiare di eventuali variazioni favorevoli dei tassi di cambio nel corso della durata delle Notes a doppia valuta, laddove sia applicabile un tasso di cambio predeterminato, il fatto che il prezzo di mercato di tali Notes può essere volatile, e il fatto che i titolari, laddove non sia possibile effettuare i pagamenti di capitale e/o interessi nella Valuta di liquidazione, potrebbero non ricevere alcun interesse e perdere il proprio capitale principale, nella sua totalità o in una parte sostanziale. Inoltre, esistono rischi specifici in relazione ai Titoli che sono legati a un Sottostante di Riferimento (inclusi Titoli Ibridi) e un investimento in tali Titoli comporterà rischi significativi non associati a un investimento in un titolo di debito tradizionale. I fattori di rischio relativi ai Titoli Legati a un Sottostante di Riferimento includono: (i) nel caso dei Titoli su Indici, esposizione a uno o più indici, eventi di rettifica e turbative di mercato o la mancata apertura di una borsa, che potrebbero avere un effetto negativo sul valore e sulla liquidità dei Titoli; (ii) nel caso dei Titoli Azionari, esposizione a una o più azioni,

		rischi di mercato simili a quelli di un investimento diretto in capitale azionario, certificati di deposito globale (global depositary receipt, "GDR") o certificati di deposito americani (American depositary receipt "ADR"), eventi di rettifica potenziali o eventi straordinari aventi un effetto sulle azioni e turbative di mercato o la mancata apertura di una Borsa, che potrebbero avere un effetto negativo sul valore e sulla liquidità dei Titoli; (iii) nel caso dei Titoli Legati a Materie Prime, esposizione a una o più commodity e/o indici di commodity, rischi di mercato simili a quelli di un investimento diretto in commodity, turbative di mercato ed eventi di rettifica che potrebbero avere un effetto pregiudizievole sul valore o sulla liquidità dei Titoli, ritardi nella determinazione del livello finale di un indice di commodity, con il risultato di ritardi nel pagamento dell'Importo del Regolamento in Contanti, dell'Importo del Rimborso, dell'Importo del Rimborso Finale, a seconda dei casi; (iv) nel caso dei Titoli ETI, esposizione a una o più interessi in un exchange traded fund, ad una exchange traded note, ad una exchange traded commodity o altro prodotto negoziato in borsa (ciascuno uno "exchange traded instrument"), analoghi rischi di mercato ad un investimento diretto in strumenti negoziati in borsa, il rischio che l'importo dovuto per titoli ETI sia inferiore e in talune circostanze sensibilmente inferiore al rendimento di un investimento diretto nel relativo ETI, eventi di rettifica potenziali o eventi straordinari aventi un effetto sugli strumenti negoziati in borsa e turbative di mercato o la mancata apertura di una Borsa, che potrebbero avere un effetto negativo sul valore e sulla liquidità dei Titoli; (v) nel caso dei Titoli Indicizzati all'Inflazione, esposizione ad un indice inflazionistico e relative correzioni; (vi) nel caso di Titoli Legati a Valute, esposizione ad una valuta, analoghi rischi di mercato ad un investimento valutario diretto e turbative di mercato; (vii) nel caso dei Titoli Legati a Fondi, esposizione all'azione o alla quota di un Fondo, analoghi rischi di investimento diretto in un fondo, il rischio che l'importo dovuto sui Titoli Legati a Fondi sia inferiore rispetto all'importo maturato da un investimento diretto del relativo Fondo, eventi straordinari del fondo aventi un effetto negativo sul valore o sulla liquidità dei Titoli; (viii) nel caso dei Titoli Legati a Futures, esposizione a contratti futures, analoghi rischi di mercato per l'investimento diretto in un contratto futures, turbative di mercato o la mancata apertura di una Borsa, che potrebbero avere un effetto negativo sul valore e sulla liquidità dei Titoli; (ix) nel caso di Titoli Legati ad Obbligazioni, esposizione all'obbligazione di una o più entità di riferimento; (x) nel caso dei Titoli Legati al Tasso d'Interesse Sottostante, esposizione all'interesse sottostante o ad un tasso CMS; (xi) nel caso dei Certificati Azionari Privilegiati, esposizione ad un'azione privilegiata e all'emittente di azioni privilegiate, il rischio che gli investitori perdano la totalità o una parte del proprio investimento, ove il valore delle azioni privilegiate non si muova nella direzione prevista, il rischio che i Certificati Azionari Privilegiati possano essere rimborsati in anticipo, in talune circostanze, (xii) nel caso dei Titoli di Debito o Titoli Legati all'Indice; dove è applicabile la Valutazione del Prezzo dei Futures, esposizione a un contratto futures o di opzioni in relazione ad uno strumento di debito sintetico (nel caso dei Titoli di Debito) o ad un indice (nel caso dei Titoli Legati ad un Indice), analoghi rischi di mercato per un investimento diretto in tali contratti futures o di opzioni e turbative di mercato;

Elemento	Titolo	
		e (xiv) il rischio che, a meno che sia diversamente indicato nelle Condizioni Definitive, l'Emittente non fornisca informazioni post-emissione in relazione al Sottostante di Riferimento. Esistono inoltre rischi specifici relativi ai Titoli Legati a un Sottostante di Riferimento di un mercato emergente o in via di sviluppo (inclusi, a mero titolo esemplificativo, rischi associati a incertezze politiche ed economiche, politiche governative sfavorevoli, restrizioni agli investimenti stranieri e alla convertibilità delle valute, oscillazioni dei tassi di cambio delle valute, possibili riduzioni dei livelli di informativa e di regolamentazione e incertezze sullo status, l'interpretazione e l'applicazione delle leggi, l'aumento dei costi di custodia e difficoltà amministrative e l'aumento della probabilità del verificarsi di un evento di turbativa o di rettifica). I Titoli negoziati in paesi emergenti o in via di sviluppo tendono a essere meno liquidi e i loro prezzi tendono a essere più volatili. Sussistono inoltre rischi specifici relativi ai Titoli Dinamici che sono intrinsecamente più complessi e che quindi rendono la loro valutazione difficile in termini di rischio al momento dell'acquisto e anche successivamente In certe circostanze i Portatori potrebbero perdere l'intero valore del loro investimento. In relazione a un'emissione di Titoli, ulteriori rischi relativi a tali Titoli indicati nella sezione "Fattori di Rischio" del Prospetto di Base possono essere riassunti nella relativa nota di sintesi della singola emissione allegata alle Condizioni Definitive.
D.6	Avvertenza relativa ai rischi	Si veda l'Elemento D.3 di cui sopra Nel caso di insolvenza di un Emittente o qualora lo stesso non sia altrimenti in grado di, o disposto a, rimborsare i Titoli alla scadenza, un investitore potrebbe perdere tutto o parte del suo investimento nei Titoli. Qualora i Titoli siano garantiti e il Garante non sia in grado di, o non sia disposto a, adempiere le proprie obbligazioni ai sensi della Garanzia quando diventano dovute, un investitore può perdere tutto o parte del suo investimento nei Titoli. Inoltre, nel caso di Titoli legati a un Sottostante di Riferimento, gli investitori possono perdere tutto o parte del loro investimento nei Titoli in conseguenza dei termini e condizioni dei Titoli stessi.
